Astra's petrol and diesel engines meet the Real Driving Emissions Step 2 (RDE2) standards.

WLTP Combined CO₂ (g/km) figures are based on a configured vehicle as per pack code for UK with no options fitted.

[#]Fuel consumption and CO₂ figures are determined according to the WLTP test cycle. CO₂ figures, BiK values and RRP pricing shown above are for a standard vehicle without any additional optional equipment. CO₂ figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BiK. The addition of optional extras could increase the certified CO₂ emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BiK) tax payable. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other cars tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £700.00 (inc. £116.67 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price.

[#]Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other cars tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures. The CO₂ figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.

1.5 (122PS) Turbo D 9-speed auto	1920	1980	1350 (660)	1250 (680)

Please note: Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The maximum roof rack loading should not exceed 75kg. The maximum towing weights are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum noseweight should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee.

Company Car Driver and Fleet Information

High spec, low P11D

As a business and company car driver, you'll find all of our models are seriously fit for fleet; we're talking very low P11D values, generous standard specification and high-tech engines designed for great fuel economy and low emissions – and that's just to get you started.

To get access to even more spec as standard, simply take a step up in the range – low P11D values will continue to apply.

Drivers and businesses all have unique requirements and by taking advantage of low whole-life costs and low company car driver taxation you can get in the driving seat with the spec to suit.

Our free* 3 Day Test Drive programme is open to all Company Car Drivers which allows you to choose any model in the current Vauxhall line-up (exclusions apply). With full insurance cover provided, it gives you a meaningful length of time to make an informed decision about your next company car.

Benefit in kind company car taxation**

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO₂ emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%[†] for Basic Rate, 40%** for Higher Rate) to calculate your annual benefit in kind tax liability.

Example:

Astra Business Edition Nav 1.5 (105PS) Turbo D 5-door hatchback (CO ₂ emissions 113g/km)	
On-the-road RRP	£21,435.00
Deduct: Vehicle Excise Duty	(£180.00)
New vehicle first registration fee	(£55.00)
Effective list price	£21,200.00
Add: Optional two-coat metallic paint	£550.00
List price for tax purposes (P11D value)	£21,750.00
Car benefit charge 2021-22 tax year (26%)	£5,655.00
Benefit in kind tax liability (2021-22 tax year)	
Basic Rate (20%) tax payer	£1,131.00
Higher Rate (40%) tax payer	£2,262.00

**Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.
[†]Excludes residents of Scotland.

BiK for Scottish Residents

Effective 6 April 2018 the Scottish Government have introduced their own BiK taxation structure. This only applies to Company Car Drivers that are Scottish taxpayers. HMRC will determine whether or not an individual is a Scottish taxpayer based on where their main place of residence is.

- Over £14,667–£25,296 Basic Rate 20%
- Over £25,296–£43,662 Intermediate Rate 21%

Further Information

On-the-road prices

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

Price protection

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

Please note: Price protection does not apply to Mokka-e/Corsa-e/Grandland X hybrid models. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

Vehicle Excise Duty

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO₂) emissions produced by the vehicle. CO₂ emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table opposite.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £335 is payable for the first five years of standard rate payments.
