INSIGNIA EXCLUSIVE FEATURES/OPTIONS

EXTERIOR LIGHTING

IntelliLux LED® Matrix headlights

IntelliLux LED® Matrix headlights work with the standard Driving Assistance Pack One incorporating front camera system, to provide outstanding lighting performance and enhanced safety. Each headlight features a matrix of 16 individual LED lights. These lights replace both the dipped beam and main beam functions. Each LED illuminates a separate part of the road ahead meaning that by automatically switching lights on and off, illumination is varied to suit traffic and road conditions. The IntelliLux system calculates which LED lights are activated and deactivated using additional data such as ambient light conditions, vehicle speed, steering angle and when the indicators are used. For example, when the front camera system detects an oncoming vehicle, the individual LED lights that would dazzle the oncoming driver are automatically switched off and then switched back on once the vehicle has passed. All other areas remain fully illuminated.

Every type of driving environment has been considered:

Urban light: With street lighting and speeds up to 34mph, the system automatically enhances the dipped beam function.

Highway light: The system recognises when the car is on a dual carriageway or motorway. At higher speeds the light distribution on the right is reduced to minimise glare from the crash barriers whilst the left-side beam is lengthened.

Country light: As speeds increase, so does the lighting's performance, illuminating the nearside of the road.

Static Cornering light: At lower speeds corners and bends are illuminated to match steering inputs.

Parking light: When reversing, additional side-facing lights are activated in the headlights.

Tourist mode: The lighting pattern can be adjusted when travelling abroad.

Energy saving mode: The IntelliLux LED® Matrix system goes into energy saving mode when the engine is automatically stopped.

- Dipped beam, main beam and dynamic lighting: 32 electronically controlled LED lights (16 per headlight)
- Intelligent main beam control • Automatic headlight levelling

 Smart headlights automatically adjust the shape of high beam

 No need to switch between high and low beam

 High beam is always glare free

INSIGNIA EXCLUSIVE ADDITIONAL INFORMATION

ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

VAUXHALL LEASING

As Vauxhall's own contract hire and fleet management operation, Vauxhall Leasing provides a one-stop-shop for competitive car and van leasing solutions – for business users and private individuals. Working with the Vauxhall Retailer network, we combine the support of a national contract with the convenience of a local contact.

For further information, please see your local Vauxhall Retailer or call us on **0117 908 6433**. Alternatively, you can visit our website at www.vauxhall-leasing.co.uk

IN THE EVENT OF AN ACCIDENT...

Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit vauxhall.co.uk/AccidentManagement

VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO₂) emissions produced by the vehicle. CO₂ emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £310 is payable for the first five years of standard rate payments.
