INTELLILINK

IntelliLink is Vauxhall's next-generation in-vehicle infotainment system. It features a 7-inch colour touch-screen that enables access to, and operation of, a wide range of functions including music, video, phone, navigation and internet services.

The system isn't equipped with a CD or DVD player. Instead, it's designed to support the latest media sources including Bluetooth® and USB devices, together with smartphones and their applications. Films and slide shows can also be viewed via the USB connection, but this facility is disabled when the vehicle is moving.

IntelliLink is able to pair with up to four Bluetooth® phones simultaneously, with each phone's address book downloaded to the audio unit so that the vehicle effectively becomes the phone.

DIGITAL RADIO

Now widely available in the UK, digital audio broadcasts offer the user a variety of advantages over traditional FM, starting with the digital quality sound which is immune to any hiss or crackle. You'll often find a broader range of stations on offer too.

BLUETOOTH® CONNECTIVITY

All New Corsavan models include built-in Bluetooth®, allowing transfer of phonebook contents, call history and caller ID. The unit features an in-built microphone to pick up your voice. You can even stream music directly from your compatible mobile phone.

USB CONNECTION

Fitted as standard to all models the USB connection provides iPod/iPhone control. The USB connection also means that the iPod/iPhone will charge whilst it is connected too. You can also store your music on a memory stick too.
