Stability

Electronic Stability Programme (ESP):

- Works in conjunction with the vehicle's electronic braking and engine systems to keep the car stable in many different situations. ESP monitors many different inputs to determine when the car starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability.

Additional ESP features:

- Cornering brake control • Straight line stability control • Rollover mitigation • Drag torque control - Maintain stability on slippery roads when lifting off the accelerator or changing gear

Braking

Anti-lock Braking System (ABS):

- Prevents the vehicle's wheels from locking up under heavy braking by momentarily reducing brake pressure at the appropriate wheel, ensuring that you can maintain control of the steering

Additional braking features:

- The same electronic systems used in the ABS and ESP also deliver exceptional braking performance

- Emergency brake assist - When emergency braking is detected the vehicle automatically applies the maximum possible braking assistance • Electronic brakeforce distribution - Automatically apportions the optimum braking force to each wheel • Adaptive brake lights - Automatically warns other road users of heavy braking
- Hill start assist - Briefly maintains rear brake pressure to stop the vehicle rolling back on an incline • Hazard warning lights

Tyre pressure

- Tyre pressure monitoring system

OPTIONAL TRANSMISSION

Six-speed automatic transmission with ActiveSelect® function

A six-speed automatic transmission is optional on 1.4i Turbo (140PS) and 2.0CDTi (170PS) models. On the road, a wide selection of shift patterns is adapted to the style and habits of the driver, anticipating when maximum acceleration or maximum efficiency is required. The electronic control will also adapt to the prevailing road conditions, reducing gear shifting when climbing or descending and using engine braking assistance during down changes. The ActiveSelect® manual mode allows the gear lever to be used like a sequential manual gearbox – you simply push the lever forward or back to change up or down the gears. The driver also benefits from a 'neutral' gear disengagement at idle, which reduces vibration and contributes to improved fuel consumption.

2.0CDTi (170PS) automatic	2470	1650 (750)

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The maximum roof rack loading should not exceed 100kg. The maximum towing weights are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum noseweight should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

NEW ZAFIRA TOURER ADDITIONAL INFORMATION

ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include the recommended cost of number plates and delivery to a Vauxhall Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. General Motors UK Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO₂) emissions produced by the vehicle. CO₂ emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

From 1 April 2010 the Government introduced a new 'first year rate' of Vehicle Excise Duty payable on all new cars. In subsequent years the amount of Vehicle Excise Duty payable will revert to the standard rate.

Vehicle Excise Duty*

	CO ₂ emissions (g/km)	First year rate	Standard rate
Band A	up to 100	£0.00	£0.00
Band B	101-110	£0.00	£20.00
Band C	111-120	£0.00	£30.00
Band D	121-130	£0.00	£110.00
Band E	131-140	£130.00	£130.00
Band F	141-150	£145.00	£145.00
Band G	151-165	£185.00	£185.00
Band H	166-175	£300.00	£210.00
Band I	176-185	£355.00	£230.00
Band J	186-200	£500.00	£270.00
Band K	201-225	£650.00	£295.00
Band L	226-255	£885.00	£500.00
