### SAFETY

### Standard features

Airbags: • Driver's airbag • Front passenger's airbag • Front seat side-impact airbags • Full-size curtain airbags for front and rear seat passengers • Deactivation switch for front passenger's front and side-impact airbags - Ensures front passenger airbags do not inflate when a child seat is fitted to the front passenger's seat

Seating: • Height-adjustable front and rear seat head restraints • Four lap and diagonal inertia-reel seatbelts • Front body-lock diagonal seatbelt pretensioner system – Tightens the seatbelt during the early stages of a frontal impact • Driver's and front passenger's lap belt pretensioner system • Front seatbelt force limiters – Reduces potential upper body injuries during a frontal impact • Anti-submarining ramps in front seats • ISOFIX child seat restraint system for rear seats incorporating top tether (does not include child seat) – Secures specially designed ISOFIX child safety seats to the vehicle itself, virtually eliminating the dangers that can result from improper installation

Electronic: • Electronic Stability Programme-plus (ESP-plus) – Reduces the possibility of losing control of the vehicle • Anti-lock Braking System (ABS) • Electronic Brakeforce Distribution • Cornering Brake Control • Emergency Brake Assist – Increases brake force applied in emergency braking situations • Hill Start Assist • Straight Line Stability control • Traction control • Adaptive brake lights - If the driver brakes hard enough to activate the ABS function the brake lights flash on and off at a frequency of five times per second, warning following vehicles that heavy braking is in progress

Body: • Energy-absorbing steering column • Pedal release system – Reduces potential injury to the driver's legs and feet during a severe frontal impact • Laminated  $\textbf{windscreen} \ \bullet \ \textbf{Side-impact protection beams} \ \bullet \ \textbf{Reinforced passenger safety cell} \ \bullet \ \textbf{Deformation zones front and rear}$ 

Pedestrian: • Collapsible windscreen wiper system – Reduces the risk of head injury • Low density foam near front bumper crossmember – Reduces lower leg injuries • Plastic lower front bumper stiffener – Reduces knee injuries

### DIGITAL MULTI-MEDIA BROADCAST (DMB) DIGITAL RADIO

Now widely available in the UK, digital multi-media broadcasts offer the user a variety of advantages over traditional FM, starting with the digital quality sound which is immune to any hiss or crackle.

You'll often find a broader range of stations on offer too, many of which are not available on FM, and listening to them couldn't be easier – you simply select the station, by name, from the displayed list, thus removing the need to retune or look for stations when travelling around. Some stations will even display the artists' names and song titles on the car's graphic display, while they're played.

### **INTELLILINK**

IntelliLink is Vauxhall's next-generation in-car infotainment system. It features a 7-inch colour touchscreen that enables access to, and operation of, a wide range of functions including music, video, phone, navigation and internet services.

The system isn't equipped with a CD or DVD player. Instead, it's designed to support the latest media sources including Bluetooth® and USB devices, together with smartphones and their applications. All of these features are accessed through the touchscreen's Home menu.

Since many of these features are accessed via smartphone, the IntelliLink unit is designed to allow

application updates as and when they become available, thus enabling it to make use of the latest smartphone developments as they happen. Music can be played either through the radio or from personal music players via USB connection, aux-in or Bluetooth  $^{\circledR}$  audio streaming. When played via USB, IntelliLink's built-in Gracenote® link provides song information and album artwork. Films and slide shows can also be viewed via the USB connection, but this facility is disables when the car is moving. IntelliLink is able to pair with up to four Bluetooth® phones simultaneously, with each phone's address book downloaded to the audio unit so that the car effectively becomes the phone. Phone priority can then be set through the touchscreen display. The smartphone link provides access to approved applications\* such as Stitcher<sup>TM</sup>, BringGo navigation, Tuneln Radio and MirrorLink<sup>TM</sup>. Together, these give access to a wide range of internet radio stations, satellite navigation and internet applications such as Facebook and Twitter.

\*Access to specific applications depends on the type of phone

Fuel consumption and CO<sub>2</sub> emission data complies with the relevant EU testing regulations used by vehicle manufacturers to enable comparisons between different models. **Important**: Please note fuel consumption can be affected by many factors including driving style, road and traffic conditions, vehicle mileage and standard of maintenance. In addition these results relate to the particular vehicle tested, inevitably there will be differences between individual vehicles of the same model.

### START/STOP TECHNOLOGY

ADAM's Start/Stop system offers real benefits by improving fuel economy and reducing CO<sub>2</sub> emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal.

System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill,  $\mbox{\sc Auto}$ Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted.

Conditions that would initiate an Auto Restart include:

- Low battery level
- Cabin temperature is too high
- Driver's seatbelt unfastened or driver's

## COMPANY CAR DRIVER / FLEET INFORMATION

### BENEFIT IN KIND COMPANY CAR TAXATION†

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the  $\rm CO_2$  emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20% for Basic Rate, 40% for Higher Rate for 2012–13 tax year) to calculate your annual benefit in kind tax liability.

### Example:

### ADAM ADDITIONAL INFORMATION

### **ON-THE-ROAD PRICES**

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include the recommended cost of number plates and delivery to a Vauxhall retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00\*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the retailer, motor insurance or any other goods or services supplied by agreement between the retailer and the customer.

### PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. General Motors UK Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

### **VEHICLE EXCISE DUTY**

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide ( $\text{CO}_2$ ) emissions produced by the vehicle.  $\text{CO}_2$  emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

From 1 April 2010 the Government introduced a new 'first year rate' of Vehicle Excise Duty payable on all new cars. In subsequent years the amount of Vehicle Excise Duty payable will revert to the standard rate.
