## ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00\*.

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

## PRICE PROTECTION

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

## VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO<sub>2</sub>) emissions produced by the vehicle. CO<sub>2</sub> emissions are measured in grammes (g) per kilometre (km) travelled and divided into 13 charging bands shown in the table below.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £310 is payable for the first five years of standard rate payments.

# = Fuel consumption figures are determined according to the WLTP test cycle. Full data relating to WLTP test cycles can be found at: [www.vauxhall.co.uk/wltp](http://www.vauxhall.co.uk/wltp)

\* = CO<sub>2</sub> emissions figures are determined according to the WLTP test cycle however, a Government formula is then applied to translate these figures back to what they would have been under the outgoing NEDC test cycle, which WLTP replaces. The correct tax treatment is then applied.

Figures are intended for comparability purposes only. The fuel consumption you achieve under real life driving conditions and CO<sub>2</sub> produced will depend upon a number of factors, including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load. Only compare fuel consumption and CO<sub>2</sub> with other vehicles tested using the same technical procedures. For more information contact your local Vauxhall Retailer.

\*\* = Please note: Vehicles with BlueInjection technology will need regular AdBlue® top-ups also between servicing requirements. An indicator integrated into the on-board computer will warn you when you need to top up. More information under [www.vauxhall.co.uk/adblue](http://www.vauxhall.co.uk/adblue). In accordance with regulations R (EC) No. 715/2007 and R (EC) No. 692/2008 (in the versions respectively applicable).

S/S = Start/Stop ‡ = Excludes residents of Scotland. For details on Scottish BiK liability please refer to back cover of this price guide.

# = Fuel consumption figures are determined according to the WLTP test cycle. Full data relating to WLTP test cycles can be found at: [www.vauxhall.co.uk/wltp](http://www.vauxhall.co.uk/wltp)

\* = CO<sub>2</sub> emissions figures are determined according to the WLTP test cycle however, a Government formula is then applied to translate these figures back to what they would have been under the outgoing NEDC test cycle, which WLTP replaces. The correct tax treatment is then applied.

Figures are intended for comparability purposes only. The fuel consumption you achieve under real life driving conditions and CO<sub>2</sub> produced will depend upon a number of factors, including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load. Only compare fuel consumption and CO<sub>2</sub> with other vehicles tested using the same technical procedures. For more information contact your local Vauxhall Retailer.

\*\* = Please note: Vehicles with BlueInjection technology will need regular AdBlue® top-ups also between servicing requirements. An indicator integrated into the on-board computer will warn you when you need to top up. More information under [www.vauxhall.co.uk/adblue](http://www.vauxhall.co.uk/adblue) in accordance with regulations R (EC) No. 715/2007 and R (EC) No. 692/2008 (in the versions respectively applicable).

‡ = Excludes residents of Scotland. For details on Scottish BiK liability please refer to back cover of this price guide.

# = Fuel consumption figures are determined according to the WLTP test cycle. Full data relating to WLTP test cycles can be found at: [www.vauxhall.co.uk/wltp](http://www.vauxhall.co.uk/wltp)

\* = CO<sub>2</sub> emissions figures are determined according to the WLTP test cycle however, a Government formula is then applied to translate these figures back to what they would have been under the outgoing NEDC test cycle, which WLTP replaces. The correct tax treatment is then applied.

Figures are intended for comparability purposes only. The fuel consumption you achieve under real life driving conditions and CO<sub>2</sub> produced will depend upon a number of factors, including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load. Only compare fuel consumption and CO<sub>2</sub> with other vehicles tested using the same technical procedures. For more information contact your local Vauxhall Retailer.

\*\* = Please note: Vehicles with BlueInjection technology will need regular AdBlue® top-ups also between servicing requirements. An indicator integrated into the on-board computer will warn you when you need to top up. More information under [www.vauxhall.co.uk/adblue](http://www.vauxhall.co.uk/adblue). # = Fuel consumption figures are determined according to the WLTP test cycle. Full data relating to WLTP test cycles can be found at: [www.vauxhall.co.uk/wltp](http://www.vauxhall.co.uk/wltp)

\* = CO<sub>2</sub> emissions figures are determined according to the WLTP test cycle however, a Government formula is then applied to translate these figures back to what they would have been under the outgoing NEDC test cycle, which WLTP replaces. The correct tax treatment is then applied.

Figures are intended for comparability purposes only. The fuel consumption you achieve under real life driving conditions and CO<sub>2</sub> produced will depend upon a number of factors, including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load. Only compare fuel consumption and CO<sub>2</sub> with other vehicles tested using the same technical procedures. For more information contact your local Vauxhall Retailer.

All New Vivaro models include BlueInjection. Vehicles with BlueInjection technology will need regular AdBlue® top-ups also between servicing requirements. An indicator integrated into the on-board computer will warn you when you need to top up. More information under [www.vauxhall.co.uk/adblue](http://www.vauxhall.co.uk/adblue) In accordance with regulations R (EC) No. 715/2007 and R (EC) No. 692/2008 (in the versions respectively applicable).

‡ = Excludes residents of Scotland. For details on Scottish BiK liability please refer to back cover of this price guide.

## BENEFIT IN KIND COMPANY CAR TAXATION†

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO<sub>2</sub> emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%†† for Basic Rate, 40%†† for Higher Rate) to calculate your annual benefit in kind tax liability.

### Example:

<b>Astra Tech Line Nav 1.6CDTi (110PS)</b>	
<b>Start/Stop ecoTEC 5-door hatchback</b> (CO <sub>2</sub> emissions 107g/km)	
<b>On-the-road RRP</b>	£21070.00
Deduct: Vehicle Excise Duty	(£165.00)
New vehicle first registration fee	(£55.00)
<b>Effective list price</b>	£20850.00
Add: Optional two-coat metallic paint	£575.00
<b>List price for tax purposes (P11D value)</b>	£21425.00
<b>Car benefit charge</b>	
2018-19 tax year (26%)	£5570.00
<b>Benefit in kind tax liability (2018-19 tax year)</b>	
Basic Rate (20%) tax payer	£1114.00
Higher Rate (40%) tax payer	£2228.00

† = Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position. †† = Excludes residents of Scotland. For details on Scottish BIK liability please refer to back cover of this price guide
