Vauxhall Pure Technology

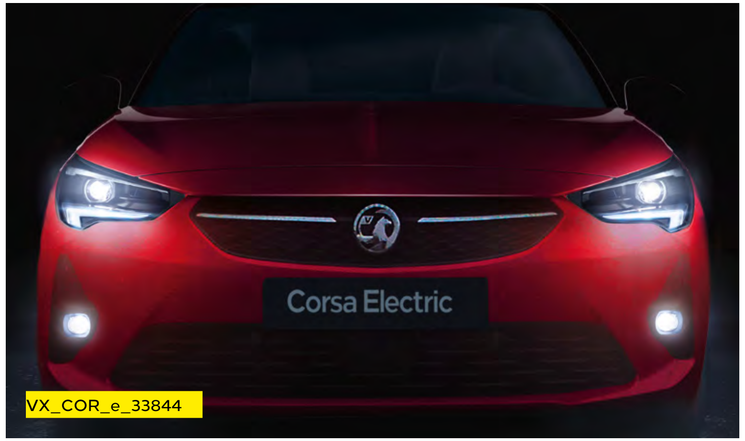
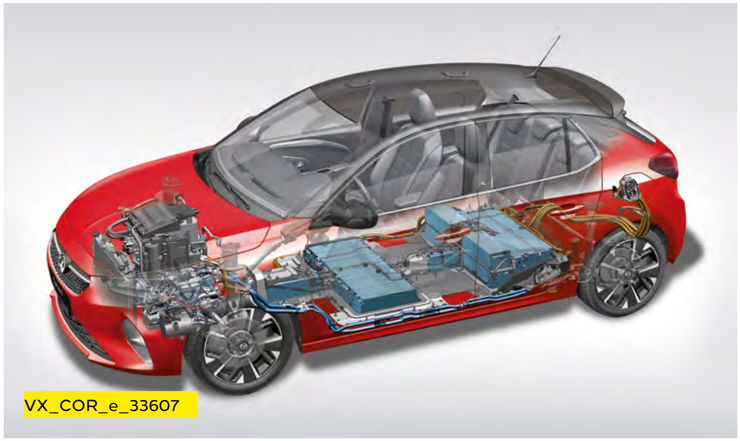
We believe technology works best when it works for everyone. When it's not just as smart as can be, but also as easy as can be. We call it Vauxhall Pure Technology. Now everyone can feel the instant excitement of electric. Everyone can keep themselves and their loved ones safe. And everyone can stay connected to the things that matter most, simply and easily. That's Vauxhall Pure Technology. No gimmicks, nothing complicated, just technology that makes driving better, easier and more exciting, for everyone.



VX_COR_e_33844

VX_COR_29961



VX_COR_e_33607

Vauxhall PureSense

Vauxhall PureSense gives you heightened awareness on the road, with smart driver assistance technology that makes every journey safer and more enjoyable. And the best bit? You don't have to do a thing. PureSense is always on, continually working away in the background, scanning the road ahead, keeping you safe and allowing you to just enjoy the drive.

Vauxhall PureConnect

We live in a connected world. Friends and relatives are only a button away. We play music on demand. Information is instant. At Vauxhall we've brought your connected world inside the car – we call it PureConnect. Easy to use and always on, PureConnect seamlessly connects you to the things that matter through the smooth, flowing 7 or 10 inch display.

Vauxhall PureEnergy

At Vauxhall, we're on a mission to open up electric driving to everyone. To deliver instant, exhilarating performance with low emissions. To change the way we move, for the better. And with innovative Plug-in Hybrid/electric models available across the Vauxhall range, there's an all-electric Corsa that will fit seamlessly into your life. One that's more exciting than ever, while keeping costs as low as possible. Thanks to PureEnergy from Vauxhall.

Choose Your Trim Level

Design

VX_COR_33355

First in the line-up is the wonderfully well-equipped Design.

GS

VX_COR_e_34152

For even more style, opt for GS. Sporty from the inside out. Relax in the sports-style front seats and feel the power with the sport switch. Relax a little more with a host of premium features including rear parking sensors and climate control.

Also available as a 100% electric model.

Ultimate

VX_COR_e_33641

Ultimate is the top of the range Corsa available, with top of the range equipment on the inside and out. It looks the business with all the exterior equipment including, dark-tinted rear windows and IntelliLux adaptive LED® Matrix headlights.

Also available as a 100% electric model.

Corsa Electric Range Highlights

GS

Standard features include:

PureSense

- LED headlights
- LED daytime running lights
- LED front fog lights
- High beam assist
- Electronic parking brake
- Lane departure warning with lane keep assist
- Speed sign recognition
- Driver drowsiness alert
- Forward collision alert
- Automatic emergency braking with pedestrian detection
- Cruise control with intelligent speed limiter
- Six airbags
- Rear parking distance sensors

PureConnect

- Multimedia Navi infotainment system
  - Satellite navigation
  - 7-inch colour touchscreen
  - AM/FM/DAB digital radio
  - Bluetooth®
  - Apple CarPlay/Android Auto™
  - USB connection
- 7-inch digital colour instrument cluster
- Six speakers
- Vauxhall Connect

Comfort and Convenience

- Electronic climate control
- Flat-bottomed leather-effect steering wheel
- Sports-style front seats
- 60/40 split-folding rear seats
- Electrically operated front and rear windows
- Electrically adjustable/heated door mirrors
- Front centre armrest with storage
- Rain-sensitive windscreen wipers
- Automatic lighting control
- Automatic anti-dazzle rear-view mirror
- Keyless start
- Remote control security alarm system

Styling

- 17-inch bi-colour alloy wheels with grey inserts
- Dark tinted rear windows
- Black roof and A-pillars
- Black headliner
- High gloss black B-pillars
- Alloy-effect sports pedals

Ultimate

Features over GS models:

PureSense

- IntelliLux adaptive LED® Matrix headlights with LED tail lights
- Adaptive cruise control
- Enhanced automatic emergency braking
- Lane positioning assistant
- Front and rear parking distance sensors
- Panoramic rear-view camera
- Side blind spot alert

PureConnect

- Multimedia Navi Pro infotainment system – 10-inch colour touchscreen

Comfort and Convenience

- Heated steering wheel
- Heated front seats
- Electrically folding door mirrors
- Alcantara seat trim
- Keyless entry

Styling

- Chrome-effect lower side window trim

Please note: Ultimate models do not feature alloy-effect sports pedals or sports-style front seats.

Corsa Range Highlights

Design

Standard features include:

PureSense

- LED headlights
- LED daytime running lights
- High beam assist
- Electronic parking brake (auto models only)
- Lane departure warning with lane keep assist
- Speed sign recognition
- Driver drowsiness alert
- Forward collision alert
- Automatic emergency braking with pedestrian detection
- Cruise control with intelligent speed limiter
- Six airbags

PureConnect

- Multimedia infotainment system
  – 7-inch colour touchscreen
  – AM/FM/DAB digital radio – Bluetooth®
  – Apple CarPlay/Android Auto™
  – USB connection
- Six speakers

Comfort and Convenience

- Air conditioning
- Flat-bottomed leather-effect steering wheel
- 60/40 split-folding rear seats
- Electrically operated front and rear windows
- Electrically adjustable/heated door mirrors
- Paddle shift (auto models only)
- Remote control central locking

Styling

- 16-inch silver alloy wheels

GS

Features over Design models:

PureSense

- LED tail lights
- LED front fog lights
- Electronic parking brake (excluding 75PS engine)
- Rear parking distance sensors
- Sport switch

PureConnect

- 7-inch digital colour instrument cluster

Comfort and Convenience

- Electronic climate control
- Sports-style front seats
- Front centre armrest with storage
- Rain-sensitive windscreen wipers
- Automatic lighting control
- Automatic anti-dazzle rear-view mirror
- Remote control security alarm system

Styling

- Sports front and rear body styling
- 17-inch black alloy wheels
- Chrome-effect exhaust tailpipe extension
- Dark-tinted rear windows
- Black roof and A-pillars
- High gloss black B-pillars
- Black headliner
- Alloy-effect sports pedals

Ultimate

Features over GS models:

PureSense

- IntelliLux adaptive LED® Matrix headlights
- Adaptive cruise control
- Enhanced automatic emergency braking
- Lane positioning assistant (auto models only)
- Front and rear parking distance sensors
- Panoramic rear-view camera
- Side blind spot alert

PureConnect

- Multimedia Navi Pro infotainment system
  – Satellite Navigation
  – 10-inch colour touchscreen
  – 2D/3D street level mapping
  – European coverage
  – Points-of-interest search
- Vauxhall Connect

Comfort and Convenience

- Heated front seats
- Heated steering wheel (excluding auto models)
- Electrically folding door mirrors
- Alcantara seat trim
- Driver's seat with massage function
- Keyless entry and start

Styling

- 17-inch bi-colour alloy wheels with grey inserts
- Chrome-effect lower side window trim

Please note: Ultimate models do not feature sports-style front seats.

Corsa Electric GS

VX_COR_e_34152

GS OTR from £33,930

PureSense

WLTP Combined CO_2 (g/km) figures are based on a configured vehicle as per LCDV code for UK with no options fitted.

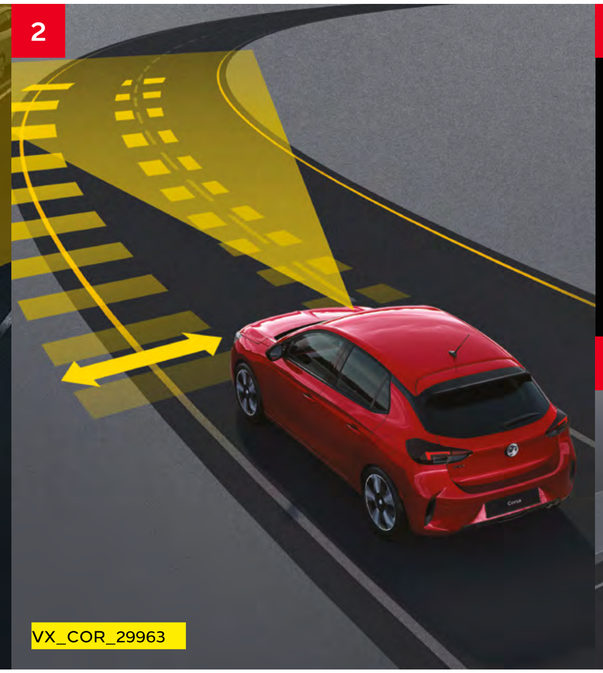
#Provisional fuel consumption and CO_2 figures are determined according to the WLTP test cycle. CO_2 figures, BiK values and RRP pricing shown above are for a standard vehicle without any additional optional equipment. CO_2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BiK. The addition of optional extras could increase the certified CO_2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BiK) tax payable. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £750.00 (inc. £125.00 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price.

PureSense

Model specific features are outlined in the separate tabular information



1. Automatic emergency braking with pedestrian detection

Front camera system monitors the traffic situation in front of the vehicle using the front camera to detect mobile and fixed cars as well as adult pedestrians. The system first warns you through a series of visual and audible alerts and should you not react quickly enough, will automatically brake the vehicle to avoid or mitigate the impact of front-end collisions.*

*Cycles, motorcycles, animals and other objects are not detected.

Front camera with radar system – Standard on Ultimate models only

Adds radar-based technology to the standard front camera system features, enabling you to avoid or mitigate the impact of front-end collisions by detecting fixed and mobile objects, such as cycles and pedestrians. The system will even bring the vehicle to a complete standstill when driving under 30mph in traffic.

2. Lane departure warning with lane keep assist

If the driver has not actively steered or signalled, the lane departure warning system warns when the car moves outside of lane markings at speeds above 37mph.

3. Driver drowsiness alert

The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness.

4. Adaptive cruise control

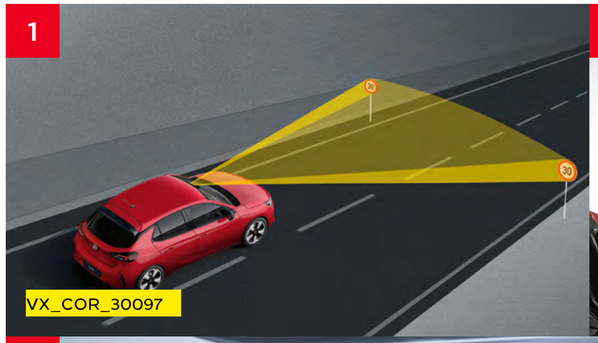
Adaptive cruise control uses the radar system to adjust the vehicle's speed to maintain a safe distance from the vehicle ahead, up to the speed limit set.

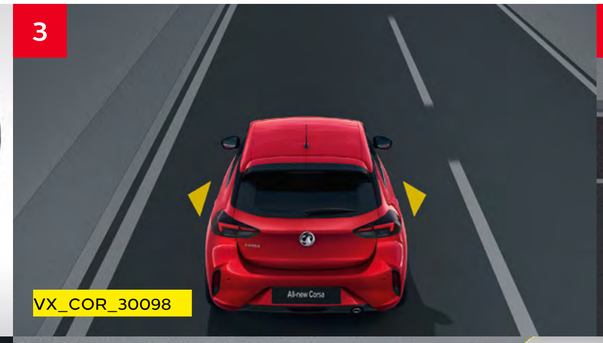
5. Cruise control with intelligent speed limiter

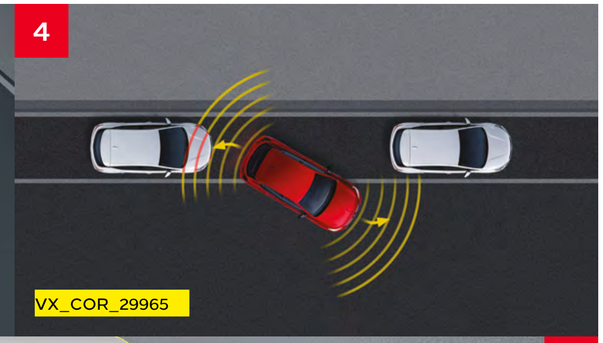
With steering wheel mounted controls. Enables you to maintain a constant speed, making it ideal for economical motorway driving.

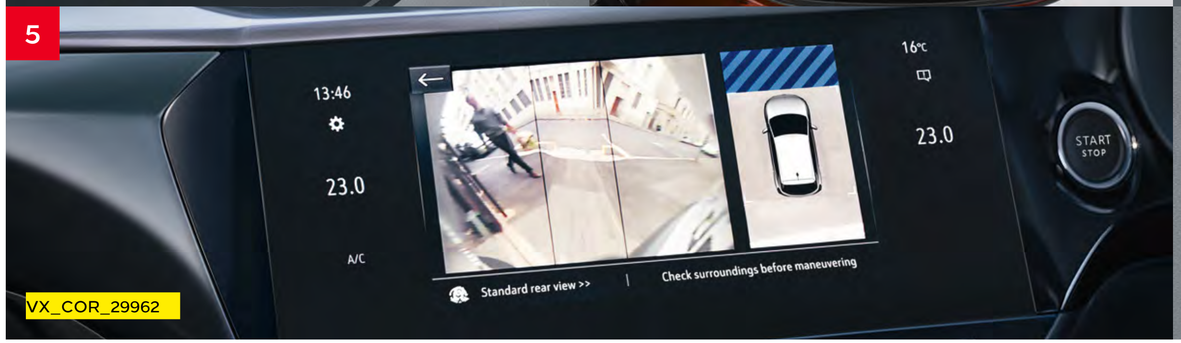
Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

Model specific features are outlined in the separate tabular information









1. Speed sign recognition

Detects and then displays speed limits, reducing uncertainty and the risk of speeding.

2. Side blind spot alert

This system is radar-based and uses ultrasonic rear bumper sensors to detect a vehicle in your blind spot.

3. Lane positioning assist

This works as a semi-automatic system that helps you integrate into a motorway lane, follow a particular lane, or follow a vehicle ahead. Engaged at the touch of a button. Available on automatic models only.

4. Front and rear parking distance sensors

Invaluable for reversing into and leaving a tight parking spot. As well as the more usual audible warning, the distance to an obstacle is displayed within the driver information screen.

5. Panoramic rear-view camera

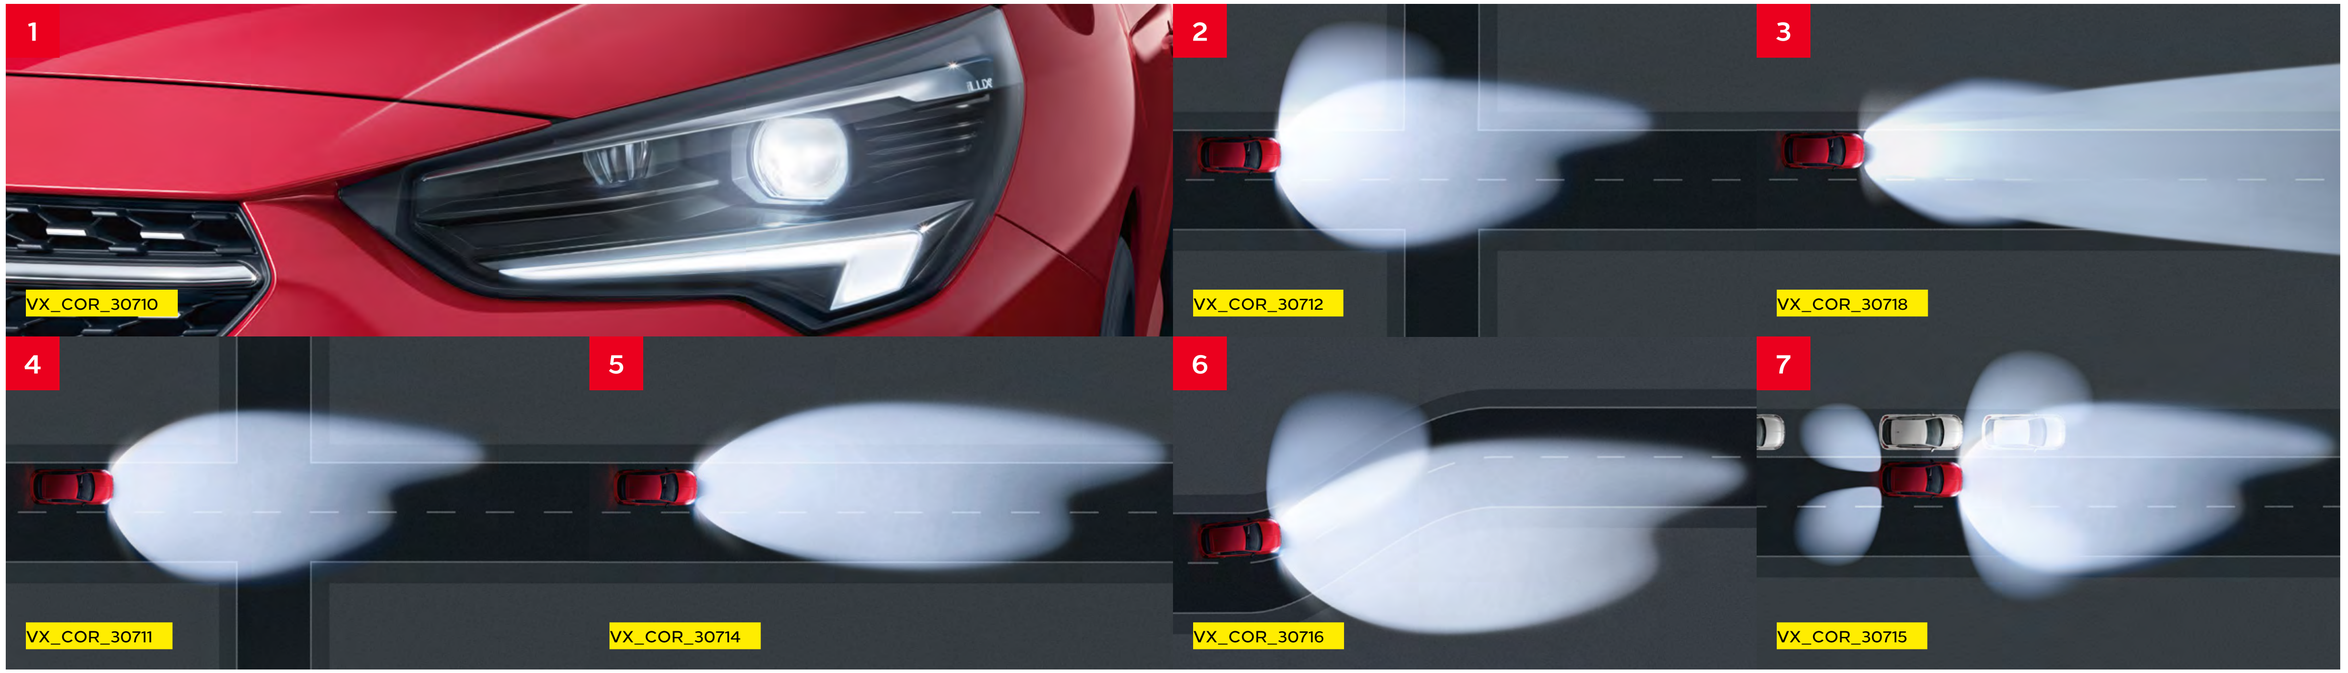
Provides an overhead view of the area around the vehicle and displays rear cross traffic that may be approaching.

6. Keyless entry and start

Simply get in and start the engine without having to find the keys.

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

Model specific features are outlined in the separate tabular information



1. IntelliLux adaptive LED® Matrix headlights

Automatically adapt the headlights according to the type of road or driving conditions. There are seven variations to ensure the correct lighting pattern for driving in a city street or country lane, parking or negotiating a tight bend.

2. Cornering and curve light

Illuminates the road in the direction of travel on slow corners to give greater visibility and illuminate obstacles and parking spaces. It's active at up to 25mph when the indicator has been activated.

3. Eco LED headlights with high beam assist

All Corsa models are fitted with the LED headlights as standard. Brighter than their halogen counterparts, and as they also consume less wattage, they are more efficient too, up to 81% per light compared to halogen headlamps in fact.

4. Town light

Whenever street lighting is recognised at speeds under 34mph, the system switches to an optimal town headlight setting that improves lateral vision without dazzling.

5. Country light

Provides a wider spread and brighter light than the normal low beam. As speeds increase, so does the lighting's performance. It automatically adjusts when oncoming traffic is detected.

6. Static curve light

Recognises when the vehicle is on a motorway and responds by adapting the headlights. Illuminating a greater distance ahead without dazzling, it decreases the right headlight beam intensity and length to minimise glare from the crash barriers while increasing both on the left.

7. Manoeuvring mode

Manoeuvring mode provides extra light around the vehicle and is designed for parking and reversing.

Motorway light

Recognises whether the vehicle is on a motorway and responds by adapting the headlights for optimum night-time motorway driving (not illustrated).

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

1. Central display

The touchscreen infotainment comes as standard, with the availability of a digital instrumentation display, that puts important info directly into the driver's eyeline. It all works together to seamlessly connect driver, to car.

2. 3.5-inch information cluster

Our traditional 3.5-inch instrumentation clearly displays all the important figures; including speed, fuel levels and more.

3. 7-inch digital instrument cluster

- High-resolution colour display
- Easy to read and detailed information
- Ability to show map directions in driver's eyeline in combination with the Multimedia Navi Pro infotainment system

4. Smartphone projection*

The app wall on the 10-inch infotainment touchscreen provides direct access to the main domains. These include radio, navigation and smartphone projection that allows operations via voice command, touchscreen and buttons to control apps and music playback.

*Multimedia Navi Pro illustrated.

Standard Features

Multimedia

Onboard features:
- 7-inch colour touchscreen
- DAB Digital radio
- RDS with Traffic Programme
- AM/FM stereo radio with 25 station presets
- Six speakers
- 20 watts per channel output

Media connections:
- USB connection with iPod control
- Bluetooth® A2DP audio streaming (Advanced Audio Distribution Profile)

Mobile phone portal:
- Bluetooth® connectivity
- Vehicle microphone
- Handsfree calls via steering wheel controls
- Phone book access – Contacts/last calls/missed calls etc. are mirrored on the display and are easily navigated using the touchscreen (features dependent on mobile phone)

Smartphone interface:
- Apple CarPlay
- Android Auto™
- Smartphone projection that allows operations via voice command, touchscreen and buttons to control apps and music playback

Additional features:
- Steering wheel-mounted audio controls
- Flexible roof-mounted aerial

Multimedia Navi with 7-inch touchscreen

Features as Multimedia, with the addition of navigation features:

Onboard features:
- 7-inch colour touchscreen

Navigation features:
- Satellite navigation system
- 2D/3D street level mapping
- European coverage
- Points-of-interest search
- Map updates via USB

Multimedia Navi Pro with 10-inch touchscreen

Onboard features:
- 10-inch colour touchscreen

Navigation features:
- Satellite navigation system
- 2D/3D street level mapping
- European coverage
- Points-of-interest search
- Map updates via USB

Please note, Apple CarPlay screen illustrated on 10-inch colour touchscreen.

Please note that compatibility and certain functions may be different depending on the type of device and operating system you're using with the Multimedia systems. Apple CarPlay is a trademark of Apple Inc. Apple and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Android is a trademark of Google Inc, also registered in the U.S. and other countries. Services may require a subscription/fee and are subject to mobile network coverage and availability. Standard on Nav models only. Live navigation services are included for 3 years and thereafter are subject to an additional subscription fee.

Standard Features – The following features are standard across the entire Corsa range. Specific features by model are outlined in the separate tabular information.

Driver Information

Instrumentation
- Speedometer and rev counter
- Fuel gauge with low fuel level warning light
- Water temperature gauge with warning light
- Shift-up indication light (manual models only) – indicates when to change gear for optimum fuel economy

Driver information display (centrally located in instrument cluster)
- Service-due indicator
- Deflation detection system

Multi-function trip computer (displayed on driver information display)
- Trip mileage
- Vehicle range based on remaining fuel
- Average speed
- Average fuel economy
- Instantaneous fuel economy

Central facia display (format dependent on infotainment unit)
- Audio information
- Digital clock with automatic RDS time adjustment
- Outside air temperature with ice warning function
- Additional features dependent on infotainment unit (see infotainment for details)

Vauxhall Connect

Standard Features – Vauxhall Connect* is the new way to stay connected while on the road. Smart technology systems and related services keep our drivers safe and provide an exciting, efficient yet safe trip. Activating Vauxhall Connected Services is easy, just visit Vauxhall Connect Store or download MyVauxhall app.

Peace of mind

- Emergency call (SOS e-call)
- Breakdown call (b-call)
- Vehicle status and information**
- Maintenance alerts, fuel level, average fuel consumption and mileage

Vauxhall SOS
In the event of a breakdown or accident, you can count on Vauxhall Connect as your car has its own SIM card installed. If something happens that means there may have been an accident – say, the airbags are inflated or the pre-tensioners on the seatbelts are activated – an automatic message will go off to the emergency services, with details of your location.

Vauxhall Connect SOS can be activated manually too – just press the button and you'll be put straight through to the emergency services on the system's integrated phone. So, if you have an accident, or see one, it only takes a few seconds to call for help.

Got a problem with your car but don't need the emergency services? Just press the Vauxhall Connect Assistance button and you'll be connected to our control centre over the system's integrated phone.

Convenience

- E-remote control (Corsa Electric only)**
- Remote check of battery level, programming and charge management
- Pre-conditioning of vehicle temperature

E-remote
Check and manage your electric/hybrid vehicle range remotely and in real time using your smartphone. With MyVauxhall you can check the charge and range of your vehicle at any time, and if you're plugged into a charging point, you're even able to control charging when you're far away. To offer peace of mind, you can be alerted when the battery is full or the charging is interrupted.

The remote pre-conditioning feature allows you to warm or cool the vehicle to an optimal temperature before starting your journey. With your comfort in mind, this feature allows you to maximise range if your vehicle is on charge, by taking energy from the source, rather than the battery.

This service is supplied free of charge by Vauxhall for the life of the vehicle.

Drive Smart

- Live navigation† (subscription included for three years) with on-line traffic, fuel prices and parking information, Points Of Interest (POI) search and weather
- Trip and drive management**
- Timestamping of trips, trip details, last vehicle position, guide-to-car and more

Live Navigation Plus†
Vauxhall's fully integrated navigation system helps you stay informed, providing real-time information from the leading European GPS provider, TomTom®. It can be operated using natural voice recognition, meaning your eyes need never leave the road.

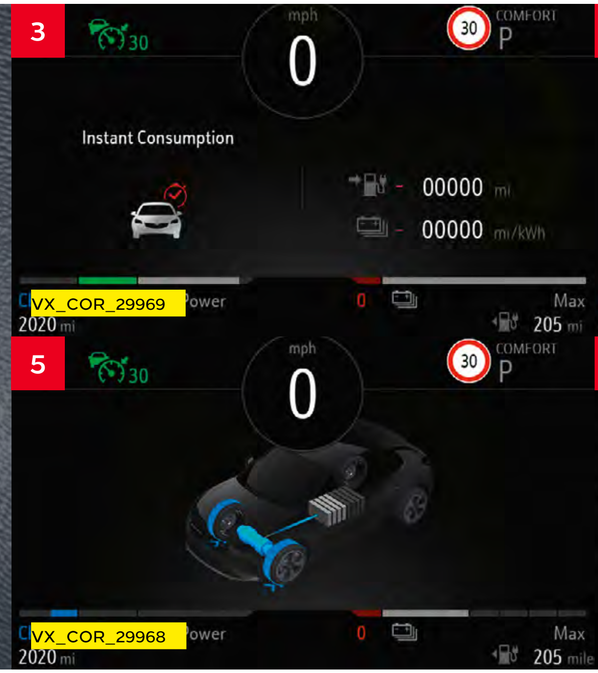
Vauxhall Live Navigation Plus is included free of charge for three years and can then be renewed at a cost.

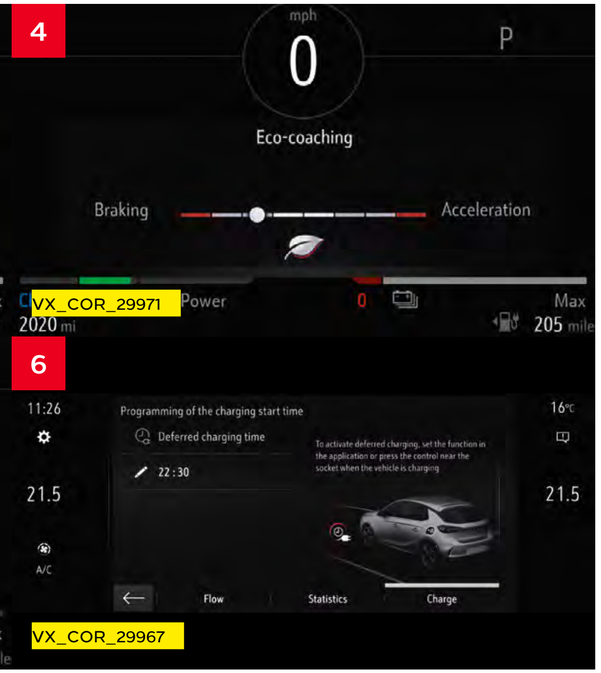
- TomTom® services
- Real time traffic news
- Parking prices and availability
- Weather forecast on your journey
- Natural voice control
- Fuel prices at petrol stations
- Search for charging stations
- Quick search for addresses and points of interest
- Road safety alerts

*Standard on Ultimate models and all Corsa Electric models only. Subject to subscription – after you have taken delivery of your vehicle, please subscribe on: connect.vauxhall.co.uk **via MyVauxhall App.
†Standard on Nav models only. Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

PureEnergy

Model specific features are outlined in the following pages





1. 8-speed automatic transmission

The sophisticated 8-speed automatic transmission on petrol models has a number of features to help improve both efficiency and improve driving dynamics:

- Reduced internal friction to improve efficiency
- A torque converter design that has been specifically engineered to improve gear shift smoothness and reduce idling vibration
- Quickshift technology that offers one of the fastest shifting on the market
- Manual shifting mode available with shift paddles

Three driving modes

- Normal. For a balanced drive that offers the perfect combination of performance and fuel efficiency
- Sport. That improves steering feel, sharpens the throttle response, and raises the transmission shift points for a more dynamic driving experience
- Eco. For maximum fuel economy using shorter shifting points and a slower throttle response

2. Paddle shift

Corsa petrol automatic customers can also experience a more involving driving experience by using the paddle shift levers integrated into the steering wheel; a feature normally found on larger executive sports models.

3/4/5. Electric information displays

All electric-specific data is displayed in the infotainment system and can be accessed using the special 'EV' button on the infotainment system. The EV app includes the following submenus: • Flow • Statistics • E-save

6. Electric vehicle services

Electric vehicle services, such as thermal preconditioning and battery charging functions, are available not just with the MyVauxhall app, but also through the infotainment system in certain cases.

Corsa Electric Specifications

Single-speed electronic drive selector

As the motor is an all-electric single-speed drive unit, there is no need for multiple gears. Instead, the shifter lets the driver select from the following:

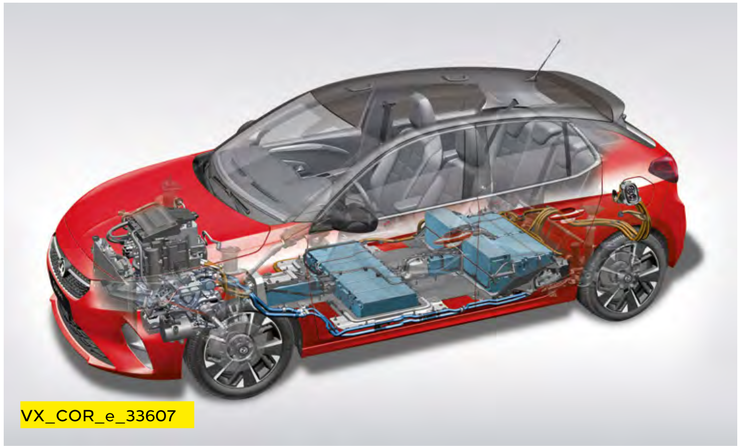
- Park
- Reverse
- Neutral
- Drive
- Braking (for increased regenerative braking)

Drive Mode Selector

The driver can determine the driving style through selecting one of the following modes:

- **Sport:** for a dynamic drive with a responsive throttle and the highest top speed and torque
- **Normal:** for a balanced drive that offers a compromise between performance and energy efficiency
- **ECO:** for maximum range and energy efficiency. The ECO mode deactivates all unnecessary energy-consuming features and reduces the top speed, torque and overall performance

Drivetrain	
CO_2 emissions	0g/km
Maximum power	100kW (136PS)
Maximum torque	260Nm (192lb. ft.)
Acceleration 0–60mph	7.6 sec
Maximum speed	93mph
Transmission	Automatic electric drive with fixed gear ratio
Kerbweight	1530kg
Service interval	Initial inspection at 8,000 miles/ 1 year (whichever comes sooner). Thereafter 16,000 miles/2 years (whichever comes sooner)



VX_COR_e_33607

VX_COR_e_33359

The Corsa Electric is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Vauxhall Retailer.

Corsa Electric Specifications

Charging

Corsa Electric is fitted with a 11kW on board charger and is also equipped with a Mode 3 cable as standard as shown below. Additional charging accessories are available at extra cost, see Accessories page for more details or consult your local Retailer.

	11kW on-board charger
Mode 3, 3-phase 22kW cable	Standard
Mode 2, emergency charging cable	Optional accessory £584

The charging flap's Padlock LED lights up when the cable is correctly plugged in and locked and then acts as a user interface to show the charging status via coloured LED lights:

- **White:** welcome light that helps to light up the area, especially useful in dark conditions
- **Flashing green:** charging in progress
- **Solid green:** charging complete
- **Solid blue:** delayed charging toggled; changes to flashing green when charging commences
- **Solid red:** malfunction

The driver may also choose from two settings:

- **Immediate charging (the standard setting):** Starts charging as soon as the vehicle is docked for charging
- **Delayed charging:** This is especially useful for when cheaper electric rates are desired, e.g. charging at night. Simply enter a charging start time

Please note, EV range assumes that vehicle has been pre-conditioned prior to journey. This function can be accessed either via MyVauxhall App (standard with all Corsa Electric) or by using the Multimedia Navi Pro infotainment system (standard on Ultimate).

Charging		
Supply	**Socket**	**Charge Time (0–100%)**
AC current – Domestic 3 pin socket (2.3kW)	Type 2	21h 45m
AC current – Home wallbox or public charger (7kW)	Type 2	7h 30m
AC current – Public charger (11kW)	Type 2	5h
DC current – Rapid charger (100kW)	CCS	30m (0–80%)

Battery	
Battery capacity	50kWh
AC on-board charger speed	11kW
EV range (WLTP high)*	222 miles
Energy consumption (Combined low/high)	16.5–16.8kWh/100km
Battery warranty	8 years/100,000 miles/70% capacity

The Corsa Electric is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. Comfort and Convenience

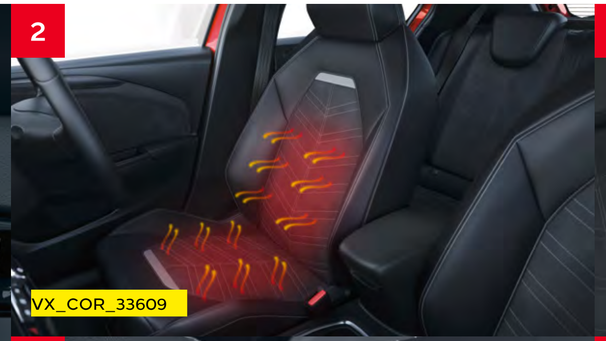
Model specific features are outlined in the separate tabular information

1

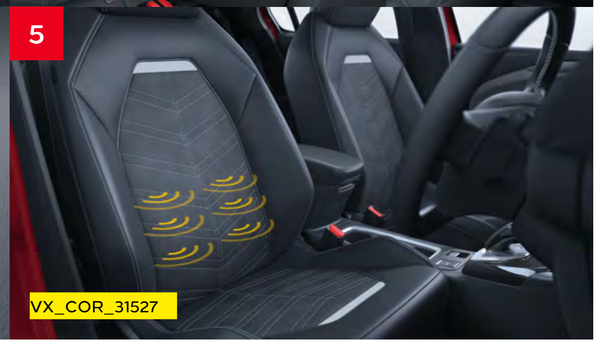
2



3

4

5



1. Cool and in control

Air-con is standard on Corsa's models with most featuring single zone electronic climate control too. Filters help to keep allergy-causing pollens and bad smells out. A multizone sun sensor adjusts to sunlight intensity and keeps the entire cabin at a steady temperature, whatever the weather outside. It's safer, too: controlled particle air recirculation prevents windows from fogging up for improved visibility.

2. Heated front seats

Driver and front passenger seats heat in three stages for a more efficient alternative to climate control – and a driving experience to look forward to.

3. Storage solutions

There's space for everything inside Corsa, with storage spots right where you need them, and a bigger boot for your luggage, shopping bags… and the rest.

4. Heated steering wheel

Within a minute, the steering wheel will warm hands, however chilly it is outside, making driving not just more comfortable but safer too, thanks to the better control it offers.

5. Massage driver's seat

A seat that keeps you cool, comfortable and massages you while you drive.

– 1.2 (100PS) Turbo/1.2 (130PS) Turbo 44 litres

Start/Stop technology

Corsa's Start/Stop system offers real benefits by improving fuel economy and reducing CO_2 emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal.

System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Brake vacuum below specified minimum
- Start/Stop system is manually deactivated
- Stationary for 5.5 minutes

#Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. The CO_2 figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification. *Correct at time of publication.

Please note: Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 70kg. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, **maximum noseweight** should not exceed 55kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

[5]Not available in Gloss Black. [6]Not available in Carbon fibre-effect. [7]Only available with 17-inch diamond-cut bi-colour alloy wheels. [8]Available in red and blue only.

Company Car Driver and Fleet Information

Benefit in kind company car taxation*
The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO_2 emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%** for Basic Rate, 40%** for Higher Rate) to calculate your annual benefit in kind tax liability.

Generic example:

ELECTRIC vehicle: 0g/km CO_2	
On-the-road RRP	£27,305.00
Deduct: Vehicle Excise Duty	£0.00
New vehicle first registration fee	-£55.00
Effective list price	£27,250.00
Add: Optional two-coat metallic paint	£600.00
List price for tax purposes (P11D value)	£27,850.00
Car benefit charge 2023–24 tax year (2%)	£557.00
Benefit in kind tax liability	
Basic Rate (20%) tax payer	£111.40
Higher Rate (40%) tax payer	£222.80

*Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.
**Excludes residents of Scotland.

BiK for Scottish Residents
Effective 6 April 2018 the Scottish Government have introduced their own BiK taxation structure. This only applies to Company Car Drivers that are Scottish taxpayers. HMRC will determine whether or not an individual is a Scottish taxpayer based on where their main place of residence is.

The BiK rates for Scotland are:
- Over £12,570 – £14,732 Starter Rate 19%
- Over £14,732 – £25,688 Basic Rate 20%
- Over £25,688 – £43,662 Intermediate Rate 21%
- Over £43,662 – £150,000 Higher Rate 41%
- Above £150,000 Top Rate 46%

CO_2 emissions (g/km)	Percentage of cars price to be taxed 2023–24 tax year
Up to 50	14%
51 – 54	15%
55 – 59	16%
60 – 64	17%
65 – 69	18%
70 – 74	19%
75 – 79	20%
80 – 84	21%
85 – 89	22%
90 – 94	23%
95 – 99	24%
100 – 104	25%
105 – 109	26%
110 – 114	27%
115 – 119	28%
120 – 124	29%
125 – 129	30%
130 – 134	31%
135 – 139	32%
140 – 144	33%
145 – 149	34%
150 – 154	35%
155 – 159	36%
160 – 164	37%
165 – 169	37%
170+	37%

CO_2 emissions (g/km)	Electric range (miles)	Percentage of cars price to be taxed 2023–24 tax year
0	–	2%
1 – 50	130+	2%
1 – 50	70 – 129	5%
1 – 50	40 – 69	8%
1 – 50	30 – 39	12%
1 – 50	<30	14%

Further Information

On-the-road prices
To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £750.00 (including £125.00 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

Price protection
Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

Please note: Price protection does not apply to Electric models. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

In the event of an accident
Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit **vauxhall.co.uk/AccidentManagement**

Free2Move Lease
Whether you're a big company or a small business looking for vehicle financing, Free2Move Lease, our business finance specialists, can deliver exactly what you need.

Free2Move Lease is one of the UK's largest leasing companies and is also a member of the British Vehicle Rental and Leasing Association (BVRLA).

With over 60,000 vehicles in the Free2Move Lease portfolio, Free2Move Lease is able to offer competitive vehicle solutions. In addition, Free2Move Lease also offer innovative connected management of servicing and maintenance.

For further information, please contact your local Vauxhall Retailer or visit **vauxhall.co.uk/offers-finance/business-leasing.html**

Vehicle Excise Duty
The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO_2) emissions produced by the vehicle. CO_2 emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table opposite.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £390 is payable for the first five years of standard rate payments.

Vehicle Excise Duty*

Band	CO_2 emissions in grams per kilometre	First year rate Petrol	Standard rate Petrol	Standard rate Electric
A	0	£0	£0	£0
B	1 – 50	£10	£180	–
C	51 – 75	£30	£180	–
D	76 – 90	£130	£180	–
E	91 – 100	£165	£180	–
F	101 – 110	£185	£180	–
G	111 – 130	£210	£180	–
H	131 – 150	£255	£180	–
I	151 – 170	£645	£180	–
J	171 – 190	£1,040	£180	–
K	191 – 225	£1,565	£180	–
L	226 – 255	£2,220	£180	–
M	Over 255	£2,605	£180	–

*Correct at time of issue.

Further Information

Customer Care Commitment
For added peace of mind, Vauxhall has an innovative Customer Care Commitment that offers the following:

- Three-year vehicle warranty consisting of a one-year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 60,000 miles limitation
- Vauxhall Assistance for 12 months from first registration
- Six years' body panel anti-perforation warranty

Please note: Warranty is only available on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

Vauxhall Assistance
Vauxhall Assistance is provided automatically with every new Vauxhall for 12 months from first registration and covers everything from accident assistance, roadside recovery and 'at home' service to flat tyres. For even more peace of mind, on fully electric models, the cover is extended* to 3 years. Even more reason for you to stay calm and let us take care of everything should the need arise. With Vauxhall Assistance help is literally just a free** phone call away, 24 hours a day, 365 days a year!

Protecting the environment
Vauxhall's commitment to the environment is demonstrated by our products' many environmental awards. For even more information on Vauxhall's efforts to achieve an environmentally sustainable future, and how to dispose of your end-of-life vehicle, see **vauxhall.co.uk/recycling**

Vauxhall Care
This all-inclusive service package is available on Vauxhalls under 10 months old (from date of first registration).

This package offers complete peace of mind for the first 3 years of your Vauxhall's life with fixed monthly payments for the plan duration.

- **3 years' Vauxhall servicing** – covers first, second and third annual services. Including a brake-fluid change in the second service
- **2 years' Vauxhall Roadside Assistance** – first year from us
- **First years' MOT**† – free of charge by your local Vauxhall Retailer

For full terms and conditions and to sign up, visit: **vauxhall.co.uk/vauxhallcare**

Vauxhall Pure Technology

We believe technology works best when it works for everyone. When it's not just as smart as can be, but also as easy as can be. We call it Vauxhall Pure Technology. Now everyone can feel the instant excitement of electric. Everyone can keep themselves and their loved ones safe. And everyone can stay connected to the things that matter most, simply and easily. That's Vauxhall Pure Technology. No gimmicks, nothing complicated, just technology that makes driving better, easier and more exciting, for everyone.

Vauxhall PureSense

Vauxhall PureSense gives you heightened awareness on the road, with smart driver assistance technology that makes every journey safer and more enjoyable. And the best bit? You don't have to do a thing. PureSense is always on, continually working away in the background, scanning the road ahead, keeping you safe and allowing you to just enjoy the drive.

Vauxhall PureConnect

We live in a connected world. Friends and relatives are only a button away. We play music on demand. Information is instant. At Vauxhall we've brought your connected world inside the car – we call it PureConnect. Easy to use and always on, PureConnect seamlessly connects you to the things that matter through the smooth, flowing Pure Panel display. And, just as intelligently, it connects you to your car's onboard tech, through touchscreen and voice control.

Vauxhall PureEnergy

At Vauxhall, we're on a mission to open up electric driving to everyone. To deliver instant, exhilarating performance with low emissions. To change the way we move, for the better. And with innovative Plug-in Hybrid models available across the range, including the all-new 225PS GSe model, there's an electrified all-new Astra that will fit seamlessly into your life. One that's more exciting than ever, while keeping costs as low as possible. Thanks to PureEnergy from Vauxhall.

Choose Your Trim Level

Design

Inject a little excitement into your commute with the Design, including plenty of 'must have' features as standard.

VX_AST_34258

GS

Step up to our sporty GS. It's kitted out with a whole host of features that make it fun to drive, and great to look at.

Also available as a Plug-in Hybrid model.

VX_AST_34159

Ultimate

All you could ask for; our Ultimate model has it all.

Also available as a Plug-in Hybrid model.*

*Hatchback model only.

VX_AST_PHEV_33853

GSe

The new GSe (Grand Sport electric) radically redefines pure performance. Combining bold design with exhilarating, electrified technology. This is responsible, high-energy excitement.

- Advanced intelligent speed adaptation

PureConnect

- Multimedia Pure Panel Pro Navigation system
  – 10-inch colour touchscreen
  – 10-inch digital instrument cluster
  – AM/FM/DAB digital radio
  – Bluetooth® – Natural voice recognition
  – Wireless Apple CarPlay/Android Auto™
  – 2 x front USB connections
- Six speakers • Vauxhall Connect
- Intelli-HUD (Head-Up Display)
- Wireless charger for mobile devices

Comfort and Convenience

- Dual-zone electronic climate control with Intelli-Air (air quality sensor)
- Heated perforated flat-bottomed leather-covered steering wheel
- Steering wheel audio/phone/cruise controls
- Interior ambient lighting
- 60/40 split-folding rear seat backs
- Rain-sensitive windscreen wipers
- Electrically operated front and rear windows
- Electrically adjustable/heated power folding door mirrors with puddle light
- Heated soundproofed insulated windscreen
- GSe performance heated front seats (AGR approved*)
- Paddle shift
- Front centre armrest with cup holder
- Centre rear seat armrest and load-through facility
- Frameless automatic anti-dazzle rear-view mirror
- Alcantara interior seat trim
- Remote control security alarm system
- Keyless entry and start

Styling

- Unique GSe front and rear bumpers
- 18-inch gloss black bi-colour diamond-cut alloy wheels
- Black Griffin logo and vizor frame
- Black lower window moulding
- Dark-tinted rear windows
- Black roof and headliner
- Alloy-effect sports pedals • GSe badge

Performance

- Sports chassis incorporating:
  – Frequency Selective Damping with bespoke Koni dampers
  – Revised front and rear springs
  – Recalibrated sports steering
- Suspension lowered by 10mm
- Exclusive ESP setting

*AGR (The Campaign for Healthier Backs) is an independent centre of excellence for ergonomics, based in Germany.

gov.uk

WLTP Combined CO_2 (g/km) figures are based on a configured vehicle as per LCDV code for UK with no options fitted.

#Fuel consumption and CO_2 figures are determined according to the WLTP test cycle. CO_2 figures, BiK values and RRP pricing shown above are for a standard vehicle without any additional optional equipment. CO_2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BiK. The addition of optional extras could increase the certified CO_2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BiK) tax payable. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £750.00 (inc. £125.00 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price.

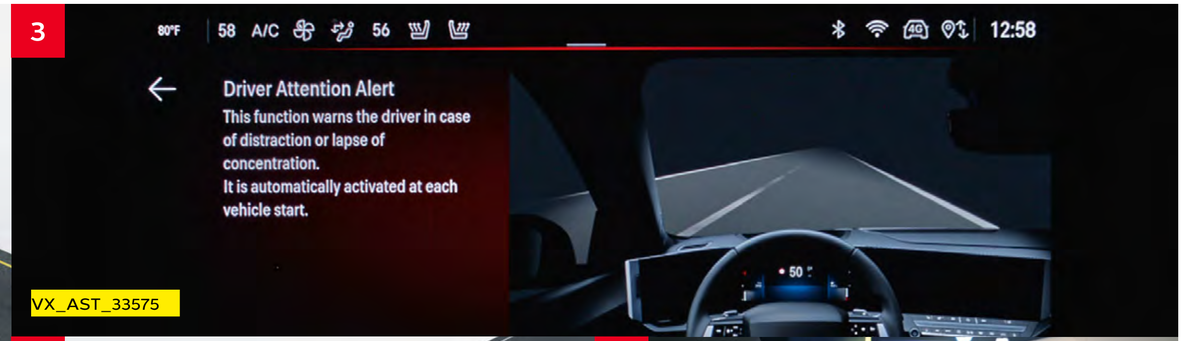
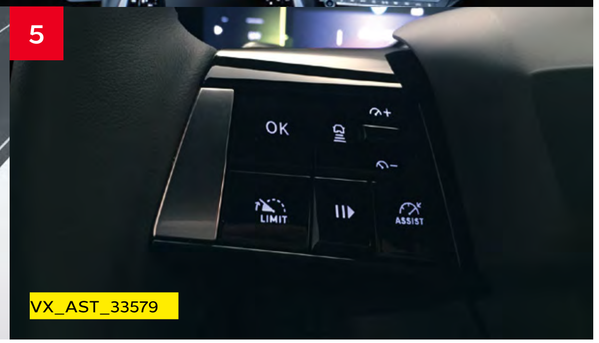
PureSense

Model specific features are outlined in the separate tabular information





1. Automatic emergency braking with pedestrian detection

Front camera system monitors the traffic situation in front of the vehicle using the front camera to detect mobile and fixed cars as well as adult pedestrians. The system first warns you through a series of visual and audible alerts and should you not react quickly enough, will automatically brake the vehicle to avoid or mitigate the impact of front-end collisions.*

*Cycles, motorcycles, animals and other objects are not detected.

Front camera and radar system – Standard on Ultimate models only

Adds radar-based technology, enabling you to avoid or mitigate the impact of front-end collisions by detecting fixed and mobile objects, such as cycles and pedestrians. The system will even bring the vehicle to a complete standstill when driving under 30mph in traffic.

2. Lane departure warning with lane keep assist

If the driver has not actively steered or signalled, the lane departure warning system warns when the car moves outside of lane markings at speeds above 37mph.

3. Driver drowsiness alert

The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness.

4. Adaptive cruise control

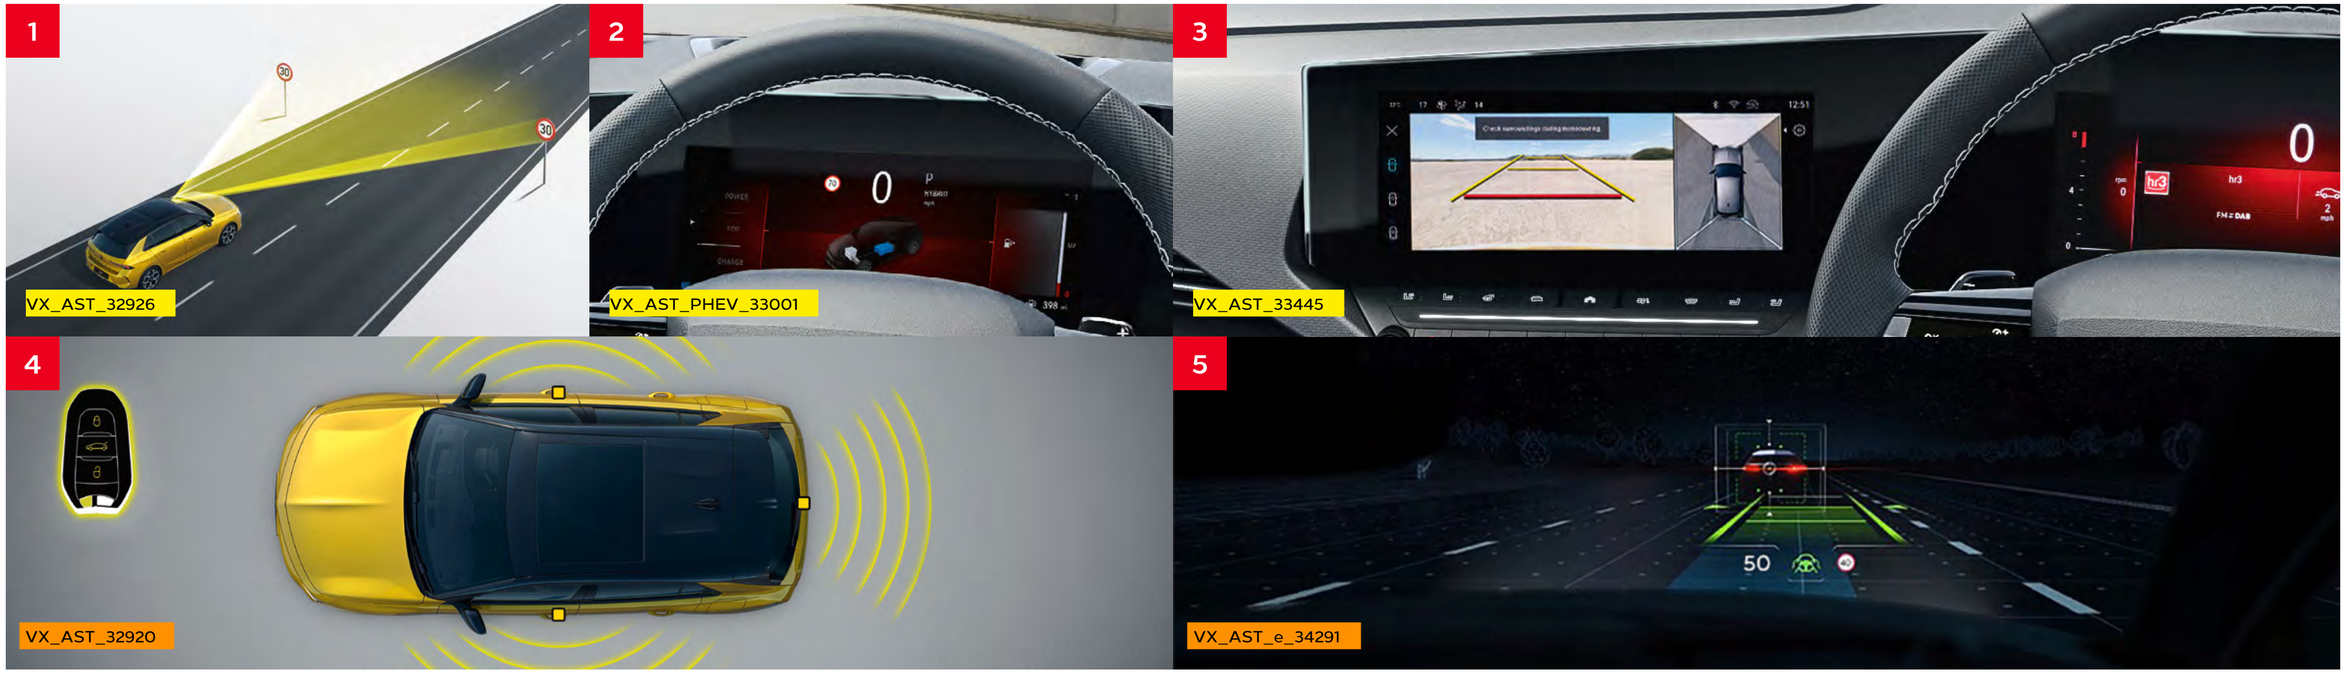
Adaptive cruise control uses the radar system to adjust the vehicle's speed to maintain a safe distance from the vehicle ahead, up to the speed limit set.

5. Cruise control with intelligent speed adaption

With steering wheel mounted controls. Enables you to maintain a constant speed, making it ideal for economical motorway driving.

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

Model specific features are outlined in the separate tabular information



1. Speed sign recognition

Detects and then displays speed limits, reducing uncertainty and the risk of speeding.

2. Extended traffic sign recognition

This system is an evolution of standard speed sign recognition. As well as speed signs, it recognises most other traffic signs by using the front camera and displays them on the driver information cluster within the Pure Panel.

3. Intelli-Vision

Intelli-Vision is a video assistance function for all low-speed manoeuvres. It uses four cameras (front/rear/lateral in door mirrors) and is activated automatically when the car is put into reverse.

4. Keyless entry and start

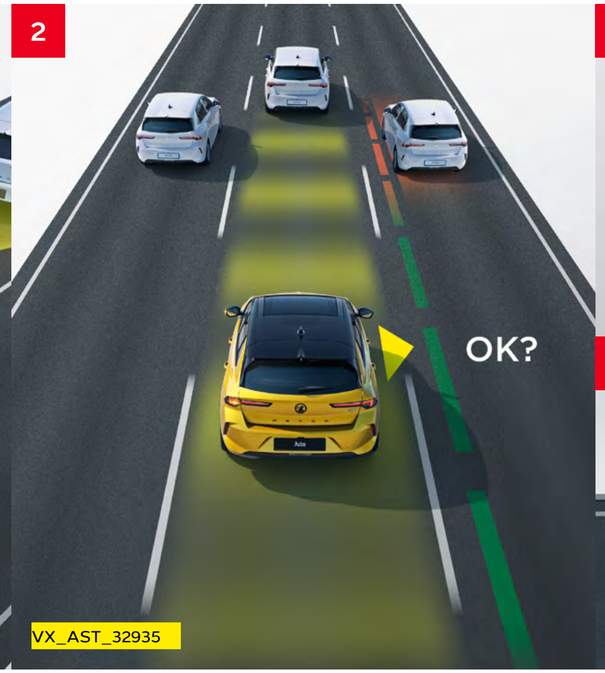
Simply get in and start the engine without having to find the keys.

5. Intelli-HUD (Head-Up Display)

The innovative Intelli-HUD head-up display projects the essential driving information onto the windscreen, in the driver's field of vision. Thanks to its resolution and its wide projection size, it gives a more realistic view of the information. The Intelli-HUD can display different pages linked to the instrument panel in order to share the displayed information on both screens. The pages can be selected via the left stalk. Pop-ups such as media, alerts, receiving calls and phone book can be displayed independently.

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

Model specific features are outlined in the separate tabular information



Intelli-Drive 2.0 (Includes following four features):

1. Advanced intelligent speed adaptation

When a new speed limit is detected by traffic sign recognition, the system displays the speed and 'OK?' flashes for a few seconds in the driver Information cluster. If rain is detected, the system will suggest a lower speed than the set speed to adapt to the prevailing weather conditions. Deactivation of the system is possible through the setting menu.

2. Semi-automated lane change assist

The system assists drivers with lane change manoeuvres between 45 and 70mph. If the required conditions are met, the message 'OK?' is displayed in the driver information cluster, accompanied by an acoustic signal. Simply press the OK button on the steering wheel and the system will steer the vehicle into the intended lane in the desired position. If the required conditions are not met, orange warning lines are displayed on the driver information cluster, accompanied by an audible warning and the lane change request is denied.

3. Lane positioning assist

This works as a semi-automatic system that helps you integrate into a motorway lane, follow a particular lane, or follow a vehicle ahead. Engaged at the touch of a button.

4. Rear cross traffic alert

Rear cross traffic alert is radar-based and uses rear bumper sensors to detect moving objects to the rear sides of the vehicle when reversing. The system is able to detect cars, trucks, motorcycles, bicycles and pedestrians.

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

Model specific features are outlined in the separate tabular information

1. IntelliLux adaptive LED® pixel headlights

With 84 segments per headlight, the latest IntelliLux adaptive LED® pixel system offers improved visibility that helps make night time driving significantly safer.

2. Anti-glare beam

Anti-glare beam is an advanced full beam that controls independent units of the IntelliLux adaptive LED® pixel headlights.

3. Eco LED headlights with high beam assist

ECO LED headlights with high beam assist are standard on all Astras. The system will detect both ambient light and vehicle specific light for oncoming and leading traffic. Depending on the lighting level, the system automatically switches between high and low beam.

4. Energy saving mode

Energy saving mode switches the cornering lights on and off in conjunction with the Start/Stop System.

5. Tourist mode

Tourist mode decreases the beam intensity and is designed for driving in countries where traffic drives on the other side the road.

6. Adverse weather

The low beam distribution is optimized, to reduce the potential glare to oncoming traffic in wet road conditions.

7. Manoeuvring mode

Manoeuvring mode provides extra light around the vehicle and is designed for parking and reversing.

Adaptive Motorway mode

Motorway mode recognizes whether the vehicle is on a motorway and responds by adapting the headlights for optimum night-time motorway driving (not illustrated).

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

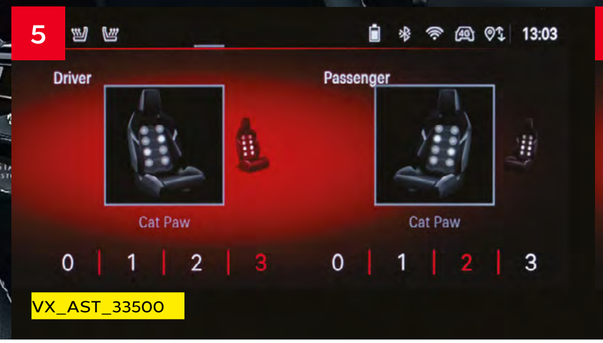
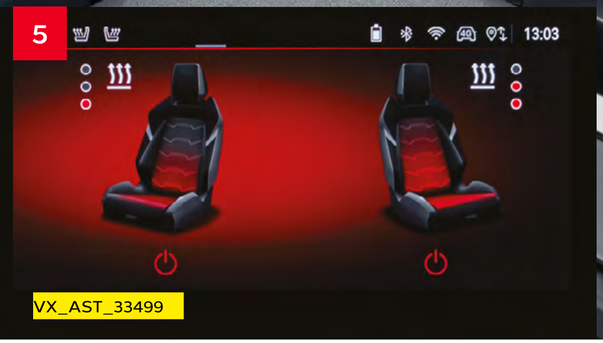
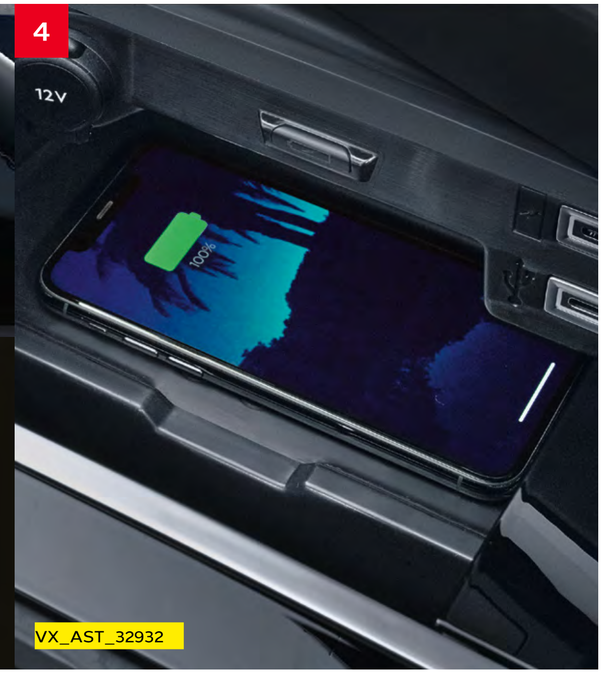
PureConnect

Model specific features are outlined in the following pages







1. Natural voice recognition*

Works with 'wake-up' command 'Hey Vauxhall' to control the following functions:

- Satellite navigation commands
- Phone connectivity functions
- Choice of music playback
- Operation of electronic climate control

Personalisation

The new Pure Panel features a smartphone-like user interface with virtual shortcuts, driver recognition via smartphone and advanced profile management.

2. Central display

The app wall on the 10-inch infotainment touchscreen provides direct access to the main domains such as electronic climate control, navigation, radio, phone, seat and mirror configuration.

2. Wireless smartphone interface

Wireless smartphone projection that allows operations via voice command, touchscreen and buttons to control apps and music playback with Apple CarPlay and Android Auto™ compatibility.

3. Instrument cluster

The driver can customise the content shown on the fully digital 10-inch driver information cluster by selecting via the left stalk. In addition pop-ups such as receiving calls and alerts can be displayed.

4. Inductive wireless smartphone charger – Standard on Ultimate models only

Smartphones can be charged inductively on the charging pad in the front of the centre console.

5. AGR front seats**

The AGR label confirms that the new Astra's ergonomically certified AGR seats meet even the highest levels of comfort. And included with the Leather option on Ultimate models 3-stage seat heating, massage function and seat ventilation. The option also features a driver's seat adjustment with memory function.

*Natural voice recognition services are included free for 3 years and thereafter are subject to an additional subscription fee. **AGR (The Campaign for Healthier Backs) is an independent centre of excellence for ergonomics, based in Germany.

Standard Pure Panel Features – The following features are standard across the entire Astra range.

Pure Panel Digital Display

Pure Panel technology makes driving more intuitive, with a flowing design that presents the information you need. With a 10-inch infotainment colour touchscreen and 10-inch digital instrument cluster right in front of you, you can stay focused on the road ahead.

Pure Panel Pro Digital Display
- Features a Multimedia system with 10-inch infotainment colour touchscreen and full digital 10-inch driver information cluster with edge-to-edge glass finish. Standard on GS and Ultimate

EV information display
- Powerflow display – Informs drivers on the current state of charge and what is being used as the power source, petrol or electric
- Charge display – displays an image of the charge port with the corresponding LED charge indication lights
- e-Save – enables the driver to determine how much battery energy needs to be conserved to ensure that the vehicle reaches its destination when in a zero emission zone
  There are three options:
  – 6 mile range reserve
  – 12 mile range reserve
  – Maximum reserve
- Statistics – The Statistics display the average consumption data over a period of time using colour coded graphs
- **Green:** Energy recovered by braking phases and partial recharging by the petrol engine (kWh/mile)
- **Blue:** Energy consumed by the vehicle directly by the battery (kWh/mile)
- **Orange:** Fuel consumption (mpg)

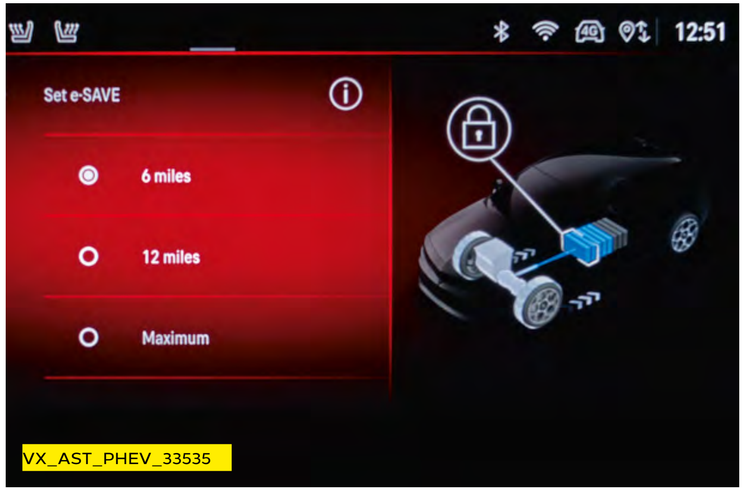
Digital instrumentation
- Digital speedometer and rev counter
- Satellite Navigation display
- Digital fuel gauge with low fuel level warning light
- Digital water temperature gauge with warning light
- Shift-up/down indication light – Indicates when to change gear for optimum fuel economy

Driver information display (centrally located in digital instrument cluster)
- Total mileage
- Service-due indicator
- Oil life
- Tyre pressure monitoring system

Multi-function trip computer (displayed on digital instrument cluster)
- Trip mileage
- Vehicle range based on remaining fuel
- Average speed
- Average fuel economy
- Instantaneous fuel economy
- Driving time

Digital central facia display
- Audio information
- Digital clock with automatic RDS time adjustment
- Outside air temperature with ice warning function

Pure Panel Pro digital display.



e-Save display.

Standard Infotainment Features – The following features are standard across the entire Astra range.

Onboard features
- Satellite navigation system with natural voice recognition
- 2D/3D street level mapping
- European coverage
- Points-of-interest search
- Map updates via USB
- DAB Digital radio
- RDS with Traffic Programme
- AM/FM stereo radio with 36 station presets
- Six speakers (Ultimate models – eight)
- Customizable screen adaption with enhanced profile management and driver recognition
- Heating, Ventilation and Air Conditioning (HVAC) user interface
- Over-the-air updates (e.g. for software)
- WiFi updates (e.g. content download)

Media connections
- USB connection with iPod control
- Bluetooth® A2DP audio streaming (Advanced Audio Distribution Profile)

Mobile phone portal
- Bluetooth® connectivity
- Vehicle microphone
- Handsfree calls via steering wheel controls
- Phone book access – Contacts/last calls/missed calls etc are mirrored on the display and are easily navigated using the touchscreen (features dependent on mobile phone)
- SMS read out and reply

Additional features
- Steering wheel mounted audio controls
- Shark fin aerial

Drive Smart
- Live navigation provided by TomTom® services (subscription free for three years and subject to fee thereafter)
- Real time traffic news
- Parking prices and availability
- Weather information
- Natural voice recognition
- Fuel prices
- Charging station search
- Quick search for addresses and points of interest
- Road safety alerts

For further details and terms and conditions see separate Vauxhall Connect page.

Digital infotainment display.

Please note that compatibility and certain functions may be different depending on the type of device and operating system you're using with the Multimedia systems. Apple CarPlay is a trademark of Apple Inc. Apple and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Android is a trademark of Google Inc, also registered in the U.S. and other countries. Services may require a subscription/fee and are subject to mobile network coverage and availability. Live navigation and natural voice recognition services are included for 3 years and thereafter are subject to an additional subscription fee.

Vauxhall Connect

Standard Features – Vauxhall Connect* is the new way to stay connected while on the road. Smart technology systems and related services keep our drivers safe and provide an exciting, efficient yet safe trip. Activating Vauxhall Connected Services is easy, just visit Vauxhall Connect Store or download MyVauxhall app.

Peace of mind

- Emergency call (SOS e-call)
- Breakdown call (b-call)
- Vehicle status and information**
- Maintenance alerts, fuel level, average fuel consumption and mileage

Vauxhall SOS
In the event of a breakdown or accident, you can count on Vauxhall Connect as your car has its own SIM card installed. If something happens that means there may have been an accident – say, the airbags are inflated or the pre-tensioners on the seatbelts are activated – an automatic message will go off to the emergency services, with details of your location.

Vauxhall Connect SOS can be activated manually too – just press the button and you'll be put straight through to the emergency services on the system's integrated phone. So, if you have an accident, or see one, it only takes a few seconds to call for help.

Got a problem with your car but don't need the emergency services? Just press the Vauxhall Connect Assistance button and you'll be connected to our control centre over the system's integrated phone.

Convenience

- E-remote control (Plug-in Hybrid only)**
- Remote check of battery level, programming and charge management
- Pre-conditioning of vehicle temperature

E-remote
Check and manage your electric/hybrid vehicle range remotely and in real time using your smartphone. With MyVauxhall you can check the charge and range of your vehicle at any time, and if you're plugged into a charging point, you're even able to control charging when you're far away. To offer peace of mind, you can be alerted when the battery is full or the charging is interrupted.

The remote pre-conditioning feature allows you to warm or cool the vehicle to an optimal temperature before starting your journey. With your comfort in mind, this feature allows you to maximise range if your vehicle is on charge, by taking energy from the source, rather than the battery.

This service is supplied free of charge by Vauxhall for the life of the vehicle.

Drive Smart

- Live navigation† (subscription included for three years) with on-line traffic, fuel prices and parking information, Points Of Interest (POI) search and weather
- Trip and drive management**
- Timestamping of trips, trip details, last vehicle position, guide-to-car and more

Live Navigation Plus†
Vauxhall's fully integrated navigation system helps you stay informed, providing real-time information from the leading European GPS provider, TomTom®. It can be operated using natural voice recognition, meaning your eyes need never leave the road.

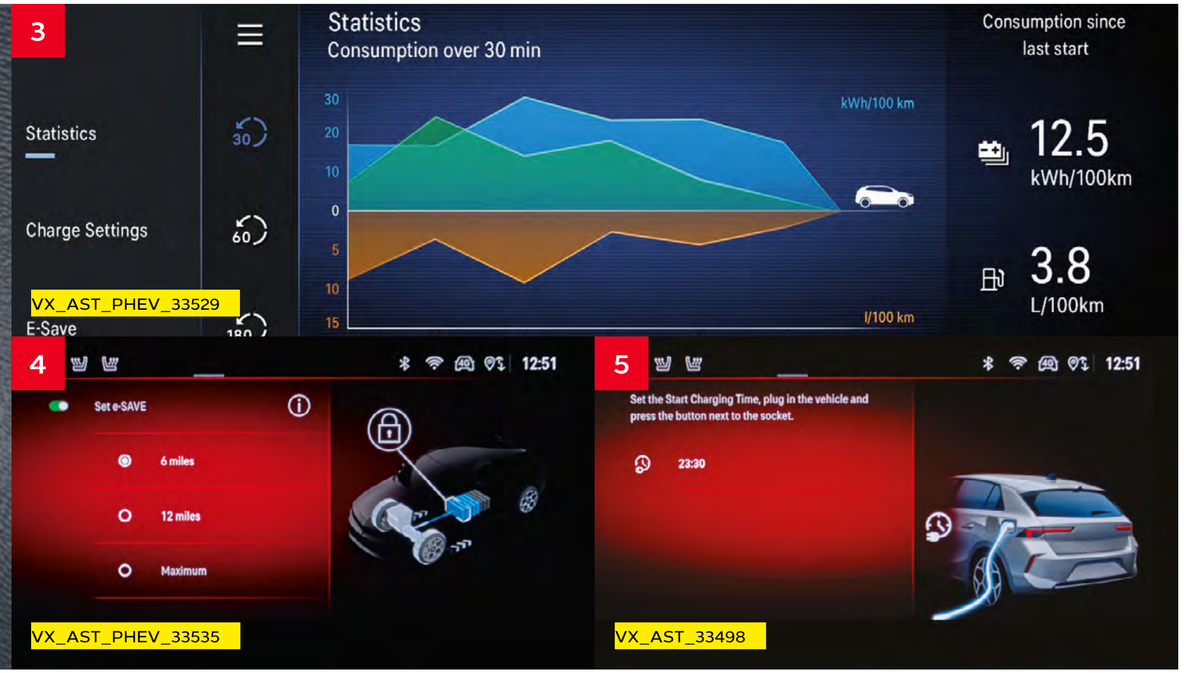
Vauxhall Live Navigation Plus is included free of charge for three years and can then be renewed at a cost.

- TomTom® services
- Real time traffic news
- Parking prices and availability
- Weather forecast on your journey
- Natural voice control
- Fuel prices at petrol stations
- Search for charging stations
- Quick search for addresses and points of interest
- Road safety alerts

*Subject to subscription – after you have taken delivery of your vehicle, please subscribe on: connect.vauxhall.co.uk **via MyVauxhall App. †Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

PureEnergy

Model specific features are outlined in the following pages



1. Electrified transmission

The e-EAT8 electrified 8-speed automatic transmission system is standard on the Astra Plug-in Hybrid and offers smooth transition between gears. It features:

- A multi-disc wet clutch, replacing the torque convertor
- Permanent electric motor that transforms electric energy into mechanical drive energy
- Electric motor installed into the gearbox and petrol engine
- Electric motor adds an additional electric power of 81.2kW (110PS) and makes a torque of 320Nm for 10 seconds

2. Paddle shift

Astra automatic customers can also experience a more involving driving experience by using the paddle shift levers integrated into the steering wheel; a feature normally found on larger executive sports models.

3/4. Hybrid information displays

All Plug-in-hybrid-specific data is displayed in the infotainment system and can be accessed using the special ‘EV’ button on the infotainment system. The EV app includes the following submenus:

- Flow
- Statistics
- E-save

5. Electric vehicle services

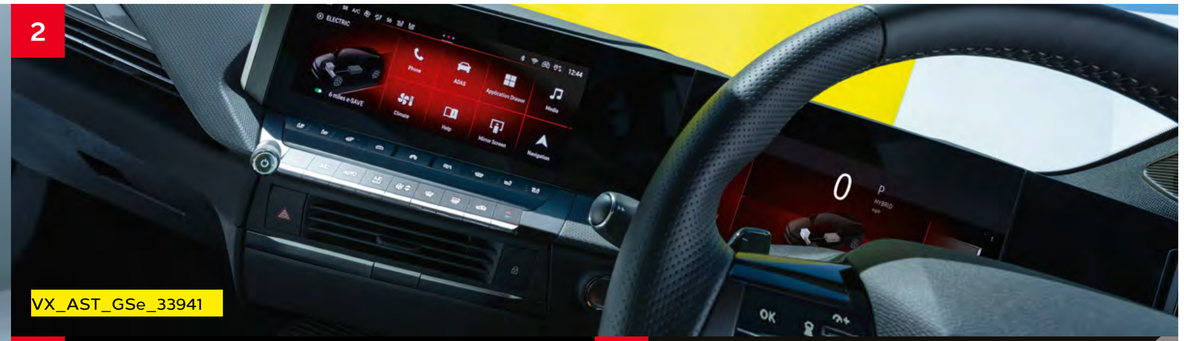
Electric vehicle services, such as thermal preconditioning and battery charging functions, are available not just with the MyVauxhall app, but also through the infotainment system in certain cases.

PureEnergy – GSe

Model specific features are outlined in the following pages

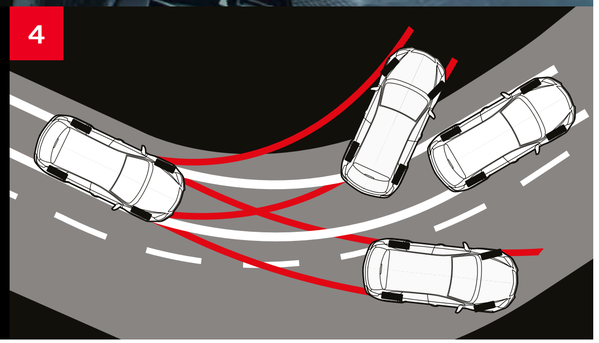
1

2



3

4



1. Astra GSe

GSe stands for Grand Sport Electric. Athletic good looks build on Vauxhall's bold and pure design while a driver-focused, bespoke chassis set-up complements the dynamic performance of an electrified 225PS powertrain.

2. Re-calibrated sports steering

Revised steering geometry on Astra GSe models provides increased feedback and allows the driver to more accurately judge grip levels.

3. Unique GSe chassis set-up

The Astra GSe features a bespoke chassis set up. The ride height has been lowered by 10mm with unique springs and Koni Frequency Selective Damping (FSD) dampers that adapt almost instantly to changes in road conditions and vehicle behaviour. This delivers a more agile and precise handling experience without sacrificing ride quality.

4. Unique ESP settings

Adjustments have also been made to the electronic stability program which monitors the traction control. This enables the system to respond more effectively to cope with the increase in engine power and greater dynamic driving behaviour made possible by the chassis improvements.

Plug-in Hybrid Specifications*

Electrified Transmission

The 8-speed electrified transmission system is standard and offers both smooth transition between gears. The 8-speed electrified gearbox includes the following content:

- Multi-disc wet clutch replaces removed torque converter
- Permanent electric motor that transforms electric energy into mechanical drive energy
- Electric motor installed into the gearbox and petrol engine
- Comes with intuitive and stylish automatic gearbox with electric shifter with shift paddles

The current driving position is indicated to the driver with a LED between:

- **R:** used for reverse driving
- **N:** used for neutral, allowing the vehicle to be moved with ignition off
- **D:** used for automatic drive, the gearbox change gears without any action from the driver
- **B button:** to switch to regenerative braking

Drive Mode Selector

The Drive Mode selector is positioned next to the automatic gearbox with electric shifter and enables drivers to select one of the following:

- Normal is the default Hybrid mode and offers the best of both worlds between controlled fuel consumption and on-road performance
- Sport mode, draws on the combined power of the engine and motor for a more dynamic drive
- Electric mode activates the electric motor only, for zero CO_2 emissions and complete silence
- **Engine sound enhancement**: In the Sport mode, the engine sound is amplified via the radio speakers depending on input factors such as vehicle speed, engine speed, acceleration, gear and pedal position.

Weights

- Kerbweight: 1678kg Hatchback/ 1703kg GSe Hatchback/1717kg Sports Tourer
- Gross vehicle weight: 2150kg Hatchback/ 2170kg Sports Tourer
- Maximum towing weight: Braked trailer 1450kg Hatchback/ 1400kg Sports Tourer (without brakes 750kg)

Charging

- Astra Plug-in Hybrid range comes with a Mode 2 cable and a 3.7kW on-board charger as standard. Includes cable bag at no extra cost
- A 7kW on-board charger can be purchased as an option for £500 inc VAT

This option halves the vehicle charging time when charging with a 7kW wallbox.

Please note: A Mode 2 cable (standard UK socket**) would charge the vehicle in less than 8 hours.

Astra Plug-in Hybrid range charging time examples are listed showing times dependant on the various powers of charge point which the vehicle is plugged into.

Charging		
Supply	**Socket**	**Charge Time (0–100%)**
AC current – Domestic 3 pin socket (2.3kW)	Type 2	5h 30m
AC current – Home wallbox or public charger (3.6kW)	Type 2	3h 30m
AC current – Home wallbox or public charger (7kW)†	Type 2	1h 55m

VX_AST_PHEV_32923

Preliminary data determined according to WLTP test procedure methodology. EU type approval and Certificate of Conformity are not yet available. Preliminary values may differ from official final type approval data. Charging rate depends on power source and charging cable used.
*Provisional data. **Only use a domestic electrical socket that has been checked by a qualified electrician and is protected by a circuit breaker adapted to the amperage of the electrical circuit. †Requires optional 7kW on board charger.

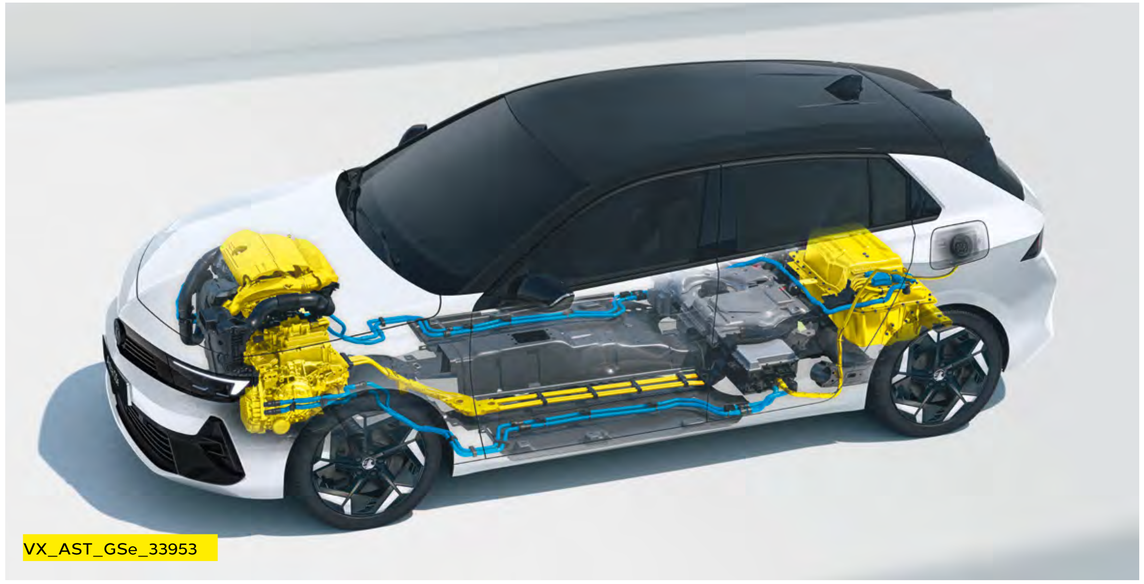
Convenience

- E-remote control
- Remote check of battery level, programming and charge management
- Pre-conditioning of vehicle temperature

For further details and terms and conditions see separate Vauxhall Connect page.

Please note, EV range assumes that vehicle has been pre-conditioned prior to journey. This function can be accessed via MyVauxhall App or Infotainment system.



VX_AST_GSe_33953

These figures were obtained using a combination of battery power and fuel. The Astra Plug-in Hybrid requires mains electricity for charging.

#WLTP Figures shown are for comparison purposes and should only be compared to the fuel consumption, CO_2 values and electric range of other cars tested to the same technical standard. The fuel consumption and electric range achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); charging frequency; battery condition; variations in weather; driving styles and vehicle load. For more information contact your local Vauxhall Retailer.

1. Cool and in control

Electronic climate control is standard on Astra's with dual-zone and Intelli-Air features available. Filters help to keep allergy-causing pollens and bad smells out. A multizone sun sensor adjusts to sunlight intensity and keeps the entire cabin at a steady temperature, whatever the weather outside. It's safer, too: controlled particle air recirculation prevents windows from fogging up for improved visibility.

2. Intelli-Air with air quality sensor

Intelli-Air provides an automatic cabin air exchange when detecting a poor quality atmosphere. The system combines a high-efficiency filter with an air quality sensor that constantly monitors the air quality. The system also provides accurate cabin information through the central Pure Panel display.

3. Storage solutions

There's space for everything inside Astra, with storage in all the right places, featuring 60/40 split folding rear seat backs on Hatchback and 40/20/40 on Sports Tourer models. Both with a foldable armrest and cup holders.

4. Heated front seats and steering wheel

Driver and front passenger seats heat in three stages for a more efficient alternative to climate control – and a driving experience to look forward to.

5. Heated rear seats

Heated outer rear seat cushions are also available as part of the leather option on Ultimate models. These operate through separate dials and in three stages.

6. Heated windscreen

Kiss goodbye to early morning ice scraping with a handy heated windscreen. Pair it with heated front seats and steering wheel, and it's smiles all round.

Specifications

Transmission

Six-speed manual gearbox
Petrol engines: 1.2 (110/130PS) Turbo models

8-speed automatic transmission
Available on the 1.2 (130PS) Turbo, the 8-speed automatic transmission enables increased drive comfort and improved fuel economy. The automatic gear lever has been replaced by an ergonomic e-toggle in harmony with the interior design. The new e-toggle is standard for combustion engine and Plug-in Hybrid.

The current driving position is indicated to the driver with a LED between:

- **R:** used for reverse driving
- **N:** used for neutral, allowing the vehicle to be moved with ignition off
- **D:** used for automatic drive, the gearbox change gears without any action from the driver
- **M button:** Manual shifting mode for combustion engines. The driver changes gears with the shift paddles on steering wheel

The driver can also select between three different driving modes, Sport, Normal and Eco, which offer several enhancements to the driving experience.

Steering

- Power-assisted steering
- Turning circle (wall-to-wall):
  – 10.51m (34.5ft.) Hatchback
  – 10.71m (35.1ft.) Sports Tourer

Tank Capacities

- 52 litres (11.4 gallons) – Petrol
- 42 litres (9.2 gallons) – Plug-in Hybrid

Braking and stability

- Electronic Stability Programme (ESP) – ESP monitors many different inputs to determine when the car starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability
- Cornering brake control
- Straight line stability control
- Rollover mitigation
- Drag torque control – Maintain stability on slippery roads when lifting off the accelerator or changing gear
- Hill start assist
- Anti-lock Braking System (ABS)
- Emergency brake assist
- Fading brake support
- Electronic brakeforce distribution
- Adaptive brake lights

Suspension

Front: Independent. Decoupled MacPherson struts with gas-pressure dampers and coil springs. Anti-roll bar.
Rear: Compound crank with coil springs and gas-pressure dampers.

GSe models
Ride height lowered by 10mm.
Front: Independent Decoupled MacPherson struts with Koni FSD (Frequency Selective Damping) oil-filled dampers and revised springs. Anti-roll bar.
Rear: Compound crank with coil springs and Koni FSD (Frequency Selective Damping) oil-filled dampers and revised rear springs.

Start/Stop technology

Astra's feature Start/Stop technology offering real benefits by improving fuel economy and reducing CO_2 emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal.

System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Brake vacuum below specified minimum
- Start/Stop system is manually deactivated
- Stationary for 5.5 minutes

#Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. The CO_2 figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.

Please note: Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 75kg. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum noseweight should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee.

*Correct at time of publication. **Provisional data.

Dimensions and Capacities

All measurements in mm (inches) unless stated otherwise.

Loadspace Dimensions	Hatchback	Sports Tourer
Load floor length (rear seats folded)	1589 (62.5)	1850 (72.8)
Load floor length (behind rear seats)	795 (31.3) 770 (30.3)**	1026 (40.3) 1018 (40.0)**
Load area width	1020 (40.2)	1032 (40.6)
Load area height	599 (23.5) 601 (23.6)**	599 (23.5) 601 (23.6)**
Tailgate aperture width (maximum)	1019 (40.1)	tba
Tailgate aperture height	526 (20.7)	482 (18.9)

Luggage Capacities* Litres (cu.ft.)	Hatchback	Sports Tourer
Rear seat up (under luggage compartment cover)	422 (14.9) 352 (12.4)**	597 (21.0) 516 (18.2)**
Rear seat down (measured to roof)	1339 (47.2) 1268 (44.7)**	1634 (57.7) 1553 (54.8)**

*Measured using the ECIE method. When a spare wheel is specified loadspace capacity is reduced due to a raised luggage compartment floor. **Plug-in Hybrid.

Company Car Driver and Fleet Information

Benefit in kind company car taxation*
The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO_2 emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%** for Basic Rate, 40%** for Higher Rate) to calculate your annual benefit in kind tax liability.

Generic example:

Hybrid vehicle: 24g/km CO_2, up to 43 miles (electric-only range)	
On-the-road RRP	£32,200.00
Deduct: Vehicle Excise Duty	-£10.00
New vehicle first registration fee	-£55.00
Effective list price	£32,135.00
Add: Optional two-coat metallic paint	£600.00
List price for tax purposes (P11D value)	£32,735.00
Car benefit charge 2023–24 tax year (8%)	£2,619.00
Benefit in kind tax liability	
Basic Rate (20%) tax payer	£523.80
Higher Rate (40%) tax payer	£1,047.60

*Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.
**Excludes residents of Scotland.

BiK for Scottish Residents
Effective 6 April 2018 the Scottish Government have introduced their own BiK taxation structure. This only applies to Company Car Drivers that are Scottish taxpayers. HMRC will determine whether or not an individual is a Scottish taxpayer based on where their main place of residence is.

The BiK rates for Scotland are:
- Over £12,570 – £14,732 Starter Rate 19%
- Over £14,732 – £25,688 Basic Rate 20%
- Over £25,688 – £43,662 Intermediate Rate 21%
- Over £43,662 – £150,000 Higher Rate 41%
- Above £150,000 Top Rate 46%

CO_2 emissions (g/km)	Percentage of cars price to be taxed 2023–24 tax year
Up to 50	14%
51 – 54	15%
55 – 59	16%
60 – 64	17%
65 – 69	18%
70 – 74	19%
75 – 79	20%
80 – 84	21%
85 – 89	22%
90 – 94	23%
95 – 99	24%
100 – 104	25%
105 – 109	26%
110 – 114	27%
115 – 119	28%
120 – 124	29%
125 – 129	30%
130 – 134	31%
135 – 139	32%
140 – 144	33%
145 – 149	34%
150 – 154	35%
155 – 159	36%
160 – 164	37%

Further Information

On-the-road prices
To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £750.00 (including £125.00 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

Price protection
Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

Please note: Price protection does not apply to Plug-in Hybrid models. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

In the event of an accident
Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit **vauxhall.co.uk/AccidentManagement**

Free2Move Lease
Whether you're a big company or a small business looking for vehicle financing, Free2Move Lease, our business finance specialists, can deliver exactly what you need.

Free2Move Lease is one of the UK's largest leasing companies and is also a member of the British Vehicle Rental and Leasing Association (BVRLA).

With over 60,000 vehicles in the Free2Move Lease portfolio, Free2Move Lease is able to offer competitive vehicle solutions. In addition, Free2Move Lease also offer innovative connected management of servicing and maintenance.

For further information, please contact your local Vauxhall Retailer or visit **vauxhall.co.uk/offers-finance/business-leasing.html**

Vehicle Excise Duty
The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO_2) emissions produced by the vehicle. CO_2 emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table opposite.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £390 is payable for the first five years of standard rate payments.

Vehicle Excise Duty*

Band	CO_2 emissions in grams per kilometre	First year rate Petrol	Standard rate Petrol	Standard rate Hybrid
A	0	£0	£0	£0
B	1 – 50	£10	£180	£0
C	51 – 75	£30	£180	£20
D	76 – 90	£130	£180	£120
E	91 – 100	£165	£180	£155
F	101 – 110	£185	£180	£175
G	111 – 130	£210	£180	£200
H	131 – 150	£255	£180	£245
I	151 – 170	£645	£180	£635
J	171 – 190	£1,040	£180	£1,030
K	191 – 225	£1,565	£180	£1,555
L	226 – 255	£2,220	£180	£2,010
M	Over 255	£2,605	£180	£2,595

*Correct at time of issue.

Further Information

Customer Care Commitment
For added peace of mind, Vauxhall has an innovative Customer Care Commitment that offers the following:

- Three-year vehicle warranty consisting of a one-year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 60,000 miles limitation
- Vauxhall Assistance for 12 months from first registration
- Six years' body panel anti-perforation warranty

Please note: Warranty is only available on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

Vauxhall Assistance
Vauxhall Assistance is provided automatically with every new Vauxhall for 12 months from first registration and covers everything from accident assistance, roadside recovery and 'at home' service to flat tyres. For even more peace of mind, on fully electric models, the cover is extended* to 3 years. Even more reason for you to stay calm and let us take care of everything should the need arise. With Vauxhall Assistance help is literally just a free** phone call away, 24 hours a day, 365 days a year!

Protecting the environment
Vauxhall's commitment to the environment is demonstrated by our products' many environmental awards. For even more information on Vauxhall's efforts to achieve an environmentally sustainable future, and how to dispose of your end-of-life vehicle, see **vauxhall.co.uk/recycling**

Vauxhall Care
This all-inclusive service package is available on Vauxhalls under 10 months old (from date of first registration).

This package offers complete peace of mind for the first 3 years of your Vauxhall's life with fixed monthly payments for the plan duration.

- **3 years' Vauxhall servicing** – covers first, second and third annual services. Including a brake-fluid change in the second service
- **2 years' Vauxhall Roadside Assistance** – first year from us
- **First years' MOT**† – free of charge by your local Vauxhall Retailer

For full terms and conditions and to sign up, visit: **vauxhall.co.uk/vauxhallcare**

Vauxhall Service Club
Vauxhall Service Club is available for all Vauxhall owners, and it's free to join. Members benefit from the following:

- 15% off Vauxhall Approved Accessories
- Vauxhall's aged 2-3 Years = 15% off parts and labour
- Vauxhall's aged over 3 Years = 25% off parts and labour
- Half price MOT's (NI excluded)
- Free pre-MOT test inspection (NI only)
- Fixed price AdBlue® Refills
  – Car = £14.99
  – Van = £24.99
- Access to the Vauxhall Accident Management Programme
- Online service booking available 24/7 with servicing appointments available within 3 days – Book Online
- Collection and delivery/onward mobility options
- Complimentary 'Wash and Vac' with all routine services††
- Vauxhall trained technicians
- Genuine Vauxhall parts
- Minimum 12 months warranty on parts and labour
- Regular newsletters with exclusive offers, discounts and competitions

Terms and conditions apply. To join visit: **vauxhall.co.uk/serviceclub**

Vauxhall Insurance with added reassurance
Comprehensive cover – Summary of benefits

- Competitive premiums
- Repairs by a Vauxhall-trained technician
- Genuine Vauxhall parts, guaranteed for five years when we repair your car within our Approved Repairer Network
- Free courtesy car as standard when using an Approved Repairer‡
- 24 hour claims helpline
- Personal Accident benefit
- Cover for audio equipment
- Windscreen cover

Vauxhall Pure Technology

We believe technology works best when it works for everyone. When it's not just as smart as can be, but also as easy as can be. We call it Vauxhall Pure Technology. Now everyone can feel the instant excitement of electric. Everyone can keep themselves and their loved ones safe. And everyone can stay connected to the things that matter most, simply and easily. That's Vauxhall Pure Technology. No gimmicks, nothing complicated, just technology that makes driving better, easier and more exciting, for everyone.

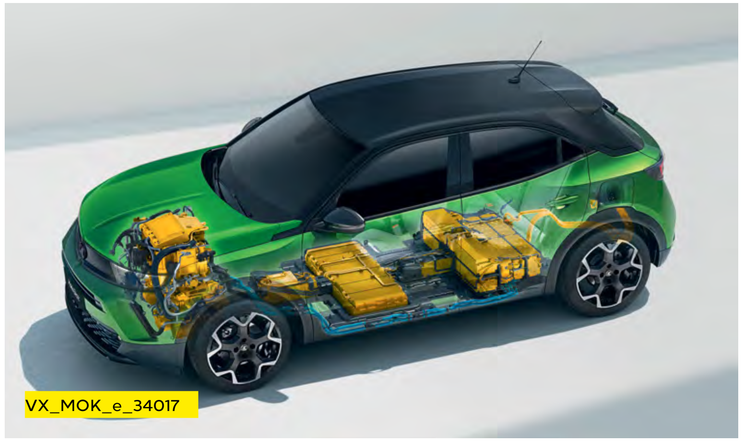
VX_MOK_31214



VX_MOK_e_34017

Vauxhall PureSense

Vauxhall PureSense gives you heightened awareness on the road, with smart driver assistance technology that makes every journey safer and more enjoyable. And the best bit? You don't have to do a thing. PureSense is always on, continually working away in the background, scanning the road ahead, keeping you safe and allowing you to just enjoy the drive.

Vauxhall PureConnect

We live in a connected world. Friends and relatives are only a button away. We play music on demand. Information is instant. At Vauxhall we've brought your connected world inside the car – we call it PureConnect. Easy to use and always on, PureConnect seamlessly connects you to the things that matter through the smooth, flowing Pure Panel display. And, just as intelligently, it connects you to your car's onboard tech, through touchscreen and voice control.

Vauxhall PureEnergy

At Vauxhall, we're on a mission to open up electric driving to everyone. To deliver instant, exhilarating performance with low emissions. To change the way we move, for the better. And with innovative Plug-in Hybrid/electric models available across the Vauxhall range, there's an all-electric Mokka that will fit seamlessly into your life. One that's more exciting than ever, while keeping costs as low as possible. Thanks to PureEnergy from Vauxhall.

Mokka Electric Range Highlights

GS

Standard features include:

PureSense
- LED headlights and tail lights
- LED daytime running lights
- High beam assist
- Rear parking distance sensors
- Lane departure warning with lane keep assist
- Forward collision alert (low speed)
- Traffic sign recognition
- Driver drowsiness alert
- Automatic emergency braking with pedestrian detection
- Six airbags
- Hill start assist
- Remote control ultrasonic security alarm system
- Automatic lighting control with tunnel detection
- Panoramic rear-view camera

PureConnect
- Multimedia Pure Panel Navigation system
  - 10-inch colour touchscreen
  - 12-inch digital instrument cluster
  - Satellite Navigation
  - AM/FM/DAB digital radio
  - Bluetooth®
  - Apple CarPlay/Android Auto™
  - Front USB connection
  - 2 rear USB connections
- Six speakers
- Vauxhall Connect

Comfort and Convenience
- Electronic climate control
- Heated flat bottomed leather-covered steering wheel
- Heated front seats
- Electrically adjustable/heated door mirrors
- Steering wheel audio/phone/cruise controls
- Rain-sensitive windscreen wipers
- Front centre armrest with storage
- Storage pockets on front seat backs
- Automatic anti-dazzle rear-view mirror
- Keyless entry and start

Styling
- 18-inch bi-colour alloy wheels
- Red upper window moulding
- Black Griffin logo and vizor frame
- Black front/rear bumper inserts
- Black roof
- Black headliner
- Dark-tinted rear windows
- Alloy-effect sports pedals

Ultimate

Features over GS models:

PureSense
- IntelliLux LED® Matrix headlights with advanced forward lighting
- LED front fog lights
- Front and rear parking distance sensors
- Advanced park assist
- Adaptive cruise control
- Lane positioning assistant
- Forward collision alert (all speed)
- Side blind spot alert with flank guard
- Enhanced automatic emergency braking
- Automatic high beam assist
- Automatic headlight levelling system

PureConnect
- Wireless charger for mobile devices

Comfort and Convenience
- Electrically foldable door mirrors
- Alcantara interior seat trim
- Driver's side power lumbar support and massage seat
- Moveable boot floor

Styling
- Black upper window moulding

Please note: Mokka Electric includes a regulatory sound up to 18mph. Above this speed, road noise is sufficient and it is not necessary to have additional sound to forewarn pedestrians.

PureSense

- LED headlights and tail lights
- LED daytime running lights • High beam assist • Lane departure warning with lane keep assist • Traffic sign recognition
- Driver drowsiness alert • Automatic emergency braking with pedestrian detection • Forward collision alert (low speed) • Cruise control with intelligent speed limiter • Six airbags • Hill start assist • Remote control central locking
- Automatic lighting control with tunnel detection

PureConnect

- Multimedia Pure Panel system – 7-inch colour touchscreen – 7-inch digital instrument cluster – AM/FM/DAB digital radio – Bluetooth® – Front USB connection
- Six speakers

Comfort and Convenience

- Air conditioning • Flat bottomed leather-covered steering wheel
- Electrically adjustable/heated door mirrors
- Steering wheel audio/phone/cruise controls
- Rain-sensitive windscreen wipers (auto models only) • Automatic anti-dazzle rear-view mirror (auto models only)

Styling

- 16-inch silver alloy wheels • Body coloured front/rear bumper inserts • Black painted rear spoiler • Chrome-effect upper window moulding

GS

Features over Design models:

PureSense

- Rear parking distance sensors
- Remote control ultrasonic security alarm system
- Panoramic rear-view camera
- Sports switch with engine sound enchancement

PureConnect

- Multimedia Pure Panel Navigation system – 10-inch colour touchscreen – 12-inch digital instrument cluster – Satellite Navigation – 2 rear USB connections

Comfort and Convenience

- Electronic climate control
- Heated steering wheel
- Heated front seats
- Rain-sensitive windscreen wipers (all models)
- Front centre armrest with storage
- Storage pockets on front seat backs
- Automatic anti-dazzle rear-view mirror (all models)

Styling

- 18-inch bi-colour alloy wheels
- Red upper window moulding
- Black Griffin logo and vizor frame
- Black front/rear bumper inserts
- Black roof
- Black headliner
- Dark-tinted rear windows
- Alloy-effect sports pedals

Black

Features over GS models:

PureSense

- LED front fog lights
- Front and rear parking distance sensors
- Advanced park assist
- Adaptive cruise control
- Lane positioning assistant (auto models only)
- Side blind spot alert with flank guard
- Forward collision alert (all speed)
- Enhanced automatic emergency braking

Comfort and Convenience

- Electrically foldable door mirrors
- Keyless entry and start
- Moveable boot floor

Styling

- 18-inch black alloy wheels
- Black upper window moulding
- Two-coat Metallic paint

Ultimate

Features over GS models:

PureSense

- IntelliLux LED® Matrix headlights with advanced forward lighting
- LED front fog lights
- Front and rear parking distance sensors
- Advanced park assist
- Adaptive cruise control
- Lane positioning assistant (auto models only)
- Side blind spot alert with flank guard
- Forward collision alert (all speed)
- Enhanced automatic emergency braking
- Automatic headlight levelling system
- Automatic high beam assist

PureConnect

- Vauxhall Connect
- Wireless charger for mobile devices

Comfort and Convenience

- Electrically foldable door mirrors
- Alcantara interior seat trim
- Driver's side power lumbar support and massage seat
- Moveable boot floor
- Keyless entry and start

Styling

- Black upper window moulding

gov.uk

WLTP Combined CO_2 (g/km) figures are based on a configured vehicle as per LCDV code for UK with no options fitted.

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £750.00 (inc. £125.00 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price. Price has been calculated using manufacturer estimates. Retailers may be required to carry out more than one credit check during the course of the order process. You may be required to place a deposit when placing your order with your supplying Retailer. In the event of a price change, deposit refunds will be governed by your supplying Retailer's policy and as such must be discussed with the supplying Retailer.

Mokka Electric is not covered by our Price Protection Guarantee. See 'Further Information' page for details.

WLTP Combined CO_2 (g/km) figures are based on a configured vehicle as per LCDV code for UK with no options fitted.

#Fuel consumption and CO_2 figures are determined according to the WLTP test cycle. CO_2 figures, BiK values and RRP pricing shown above are for a standard vehicle without any additional optional equipment. CO_2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BiK. The addition of optional extras could increase the certified CO_2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BiK) tax payable. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £750.00 (inc. £125.00 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price.

PureSense

Model specific features are outlined in the separate tabular information

1. Automatic emergency braking with pedestrian detection

Front camera system monitors the traffic situation in front of the vehicle using the front camera to detect mobile and fixed cars as well as adult pedestrians. The system first warns you through a series of visual and audible alerts and should you not react quickly enough, will automatically brake the vehicle to avoid or mitigate the impact of front-end collisions.*

*Cycles, motorcycles, animals and other objects are not detected.

Front camera and radar system

Adds radar-based technology to the standard front camera system features, enabling you to avoid or mitigate the impact of front-end collisions by detecting fixed and mobile objects, such as cycles and pedestrians. The system will even bring the vehicle to a complete standstill when driving under 30mph in traffic.

2. Lane departure warning with lane keep assist

If the driver has not actively steered or signalled, the lane departure warning system warns when the car moves outside of lane markings at speeds above 37mph.

3. Forward collision alert

The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness.

4. Adaptive cruise control

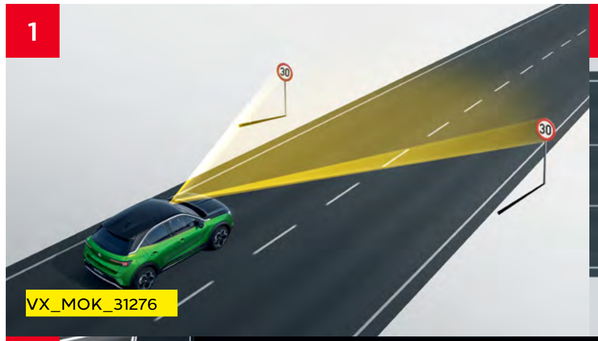
Adaptive cruise control uses the radar system to adjust the vehicle's speed to maintain a safe distance from the vehicle ahead, up to the speed limit set.

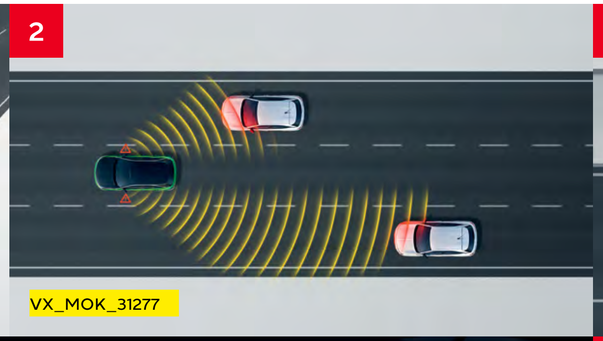
5. Cruise control with intelligent speed adaption

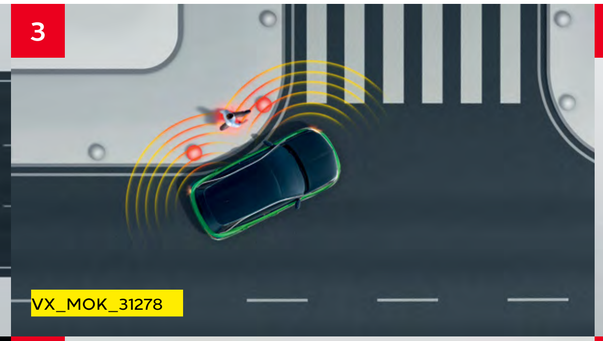
With steering wheel mounted controls. Enables you to maintain a constant speed, making it ideal for economical motorway driving.

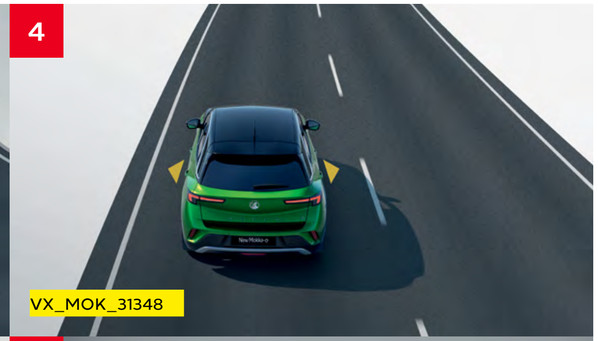
Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

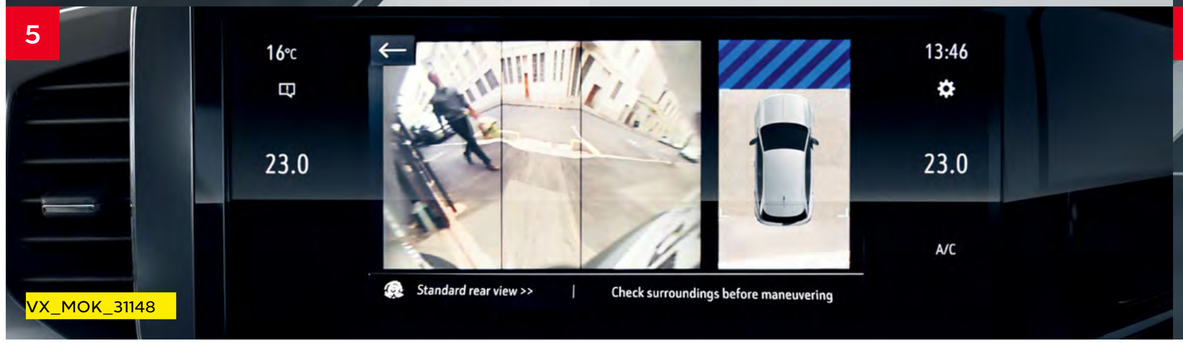
Model specific features are outlined in the separate tabular information

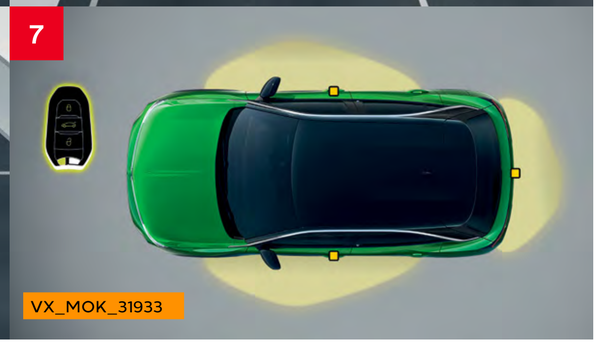












1. Speed sign recognition

Detects and then displays speed limits, reducing uncertainty and the risk of speeding.

2. Side blind spot alert

Drivers can change lanes with more confidence. It alerts the driver to vehicles in the blind spot within 3m in parallel lanes via the flashing icon in the side mirror.

3. Flank guard

Using ultrasonic side sensors, flank guard helps with manoeuvring into tight spaces, and works in conjunction with the door mirrors to help drivers avoid any side scrapes while parking.

4. Lane positioning assist

This works as a semi-automatic system that helps you integrate into a motorway lane, follow a particular lane, or follow a vehicle ahead. Engaged at the touch of a button.

5. Panoramic rear-view camera

Provides an overhead view of the area around the vehicle and displays rear cross traffic that may be approaching.

6. Front and rear parking distance sensors

Invaluable for reversing into and leaving a tight parking spot. As well as the more usual audible warning, the distance to an obstacle is displayed within the driver information screen

7. Keyless entry and start

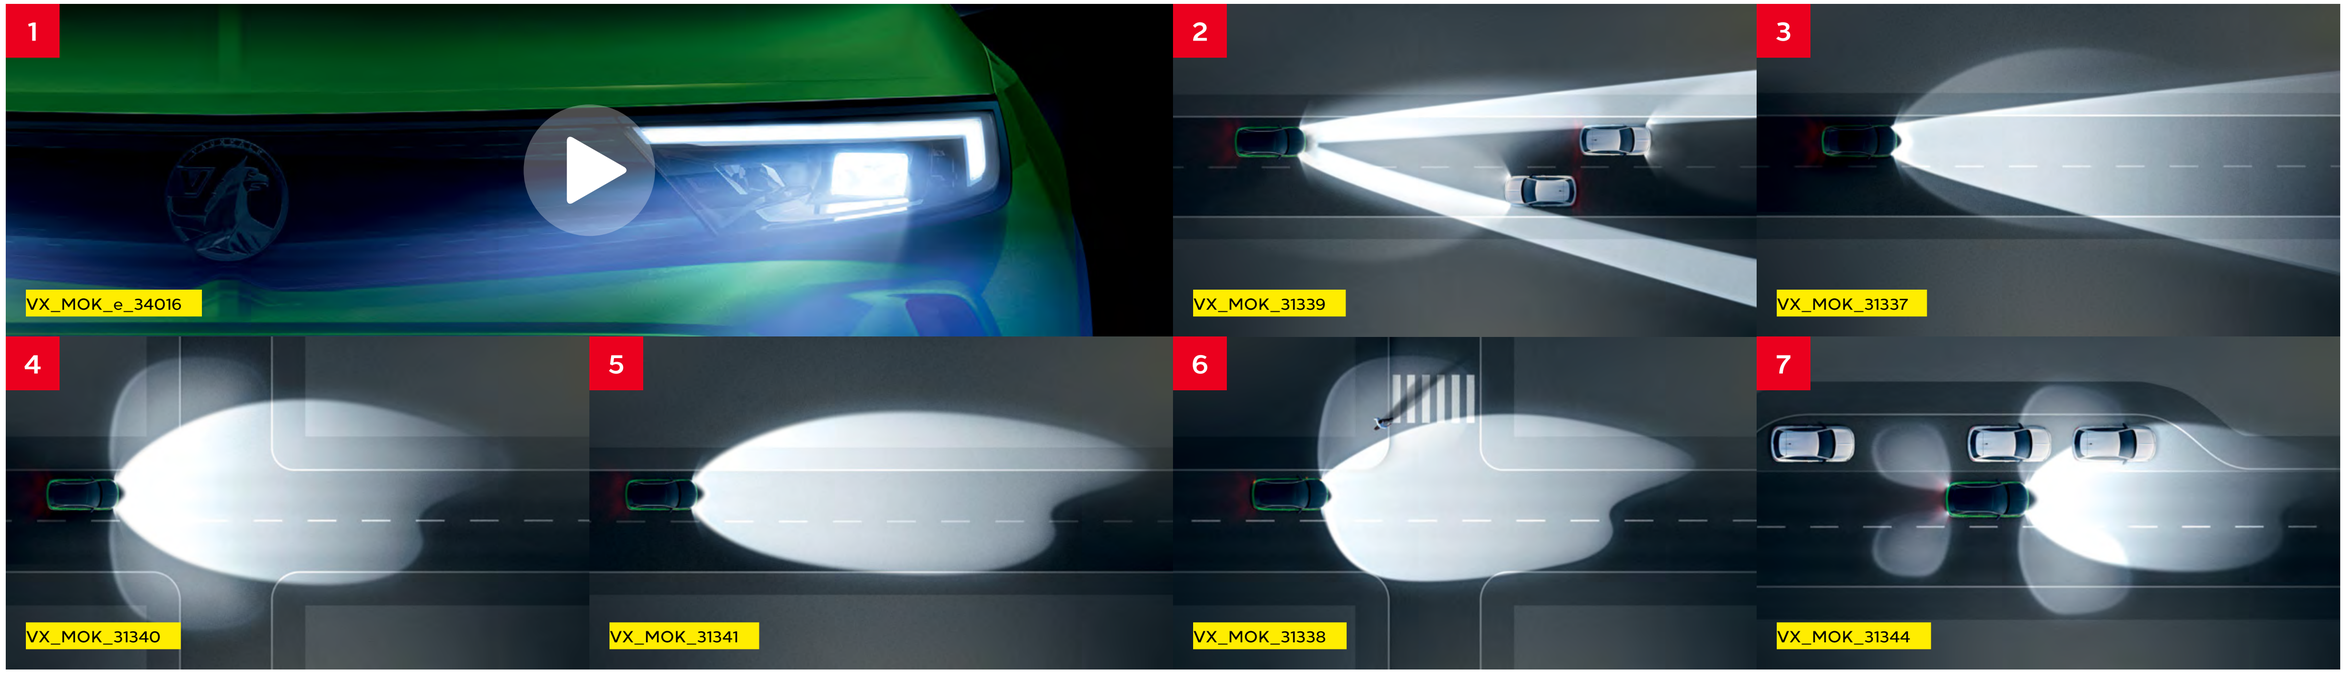
Simply get in and start the engine without having to find the keys.

Driver drowsiness alert

Our seriously smart driver drowsiness system uses sensors to keep an eye out and warn you if you show signs of tiredness. So you'll know when it's time to stop for that all-important break. (Not illustrated).

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

Model specific features are outlined in the separate tabular information



1. IntelliLux adaptive LED® Matrix headlights

Automatically adapt the headlights according to the type of road or driving conditions. There are seven variations to ensure the correct lighting pattern for driving in a city street or country lane, parking or negotiating a tight bend.

2. Anti-glare beam

Anti-glare beam is an advanced full beam that controls independent units of the IntelliLux adaptive LED® Matrix headlights.

3. Eco LED headlights with high beam assist

ECO LED headlights with high beam assist are standard on all Mokkas. The system will detect both ambient light and vehicle specific light for oncoming and leading traffic. Depending on the lighting level, the system automatically switches between high and low beam.

4. Town light

Whenever street lighting is recognised at speeds under 34mph, the system switches to an optimal town headlight setting that improves lateral vision without dazzling.

5. Country light

Country roads are illuminated, providing a wider spread and brighter light than the normal low beam. As speeds increase, so does the lighting's performance. It automatically adjusts when oncoming traffic is detected.

6. Static curve light

Provides increased light intensity light for greater visibility when negotiating high-speed bends and automatically switches beam intensity in order to avoid glaring other road users.

7. Manoeuvring mode

Manoeuvring mode provides extra light around the vehicle and is designed for parking and reversing.

Adaptive Motorway mode

Motorway mode recognizes whether the vehicle is on a motorway and responds by adapting the headlights for optimum night-time motorway driving (not illustrated).

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

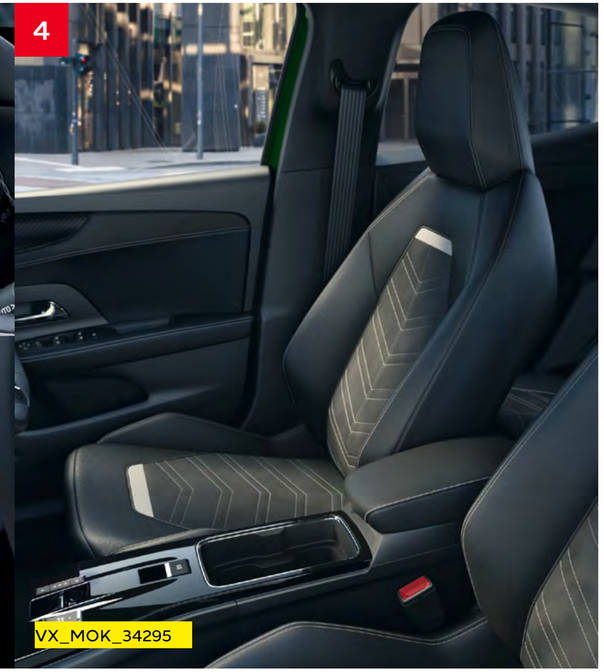
PureConnect

Model specific features are outlined in the following pages



1. Central display

Has a multimedia system as standard with a 7-inch colour touchscreen on Design models and 10-inch on all others, both integrated seamlessly into the new Pure Panel.

2. Wireless smartphone interface

Wireless smartphone projection that allows operations via voice command, touchscreen and buttons to control apps and music playback with Apple CarPlay and Android Auto™ compatibility.

3. Instrument cluster

The driver can customise the content shown on the fully digital up to 12-inch driver information cluster by selecting via the left stalk. In addition pop-ups such as receiving calls and alerts can be displayed.

4. AGR front seats*

The AGR label confirms that the Mokka's ergonomically certified AGR seats meet even the highest levels of comfort.

5. Inductive wireless smartphone charger**

Smartphones can be charged inductively on the charging pad in the front of the centre console.

*AGR (The Campaign for Healthier Backs) is an independent centre of excellence for ergonomics, based in Germany. **Standard on Ultimate models only.

Standard Pure Panel Features – The following features are standard across the entire Mokka range. Specific features by model are outlined in the separate tabular information.

Pure Panel Digital Display

Pure Panel technology makes driving more intuitive, with a flowing design that presents the information you need. With up to a 10-inch infotainment touchscreen and 12-inch digital instrument cluster right in front of you, you can stay focused on the road ahead.

EV information display

- Powerflow display – Informs drivers on the current state of charge
- Charge display – displays an image of the charge port with the corresponding LED charge indication lights
- e-Save – enables the driver to determine how much battery energy needs to be conserved to ensure that the vehicle reaches its destination when in a zero emission zone
  There are three options:
  – 6 mile/12 mile range reserve/Maximum reserve
- Statistics – The Statistics display the average consumption data over a period of time using colour coded graphs
- **Green:** Energy recovered by braking phases and partial recharging by the petrol engine (kWh/mile)
- **Blue:** Energy consumed by the vehicle directly by the battery (kWh/mile)
- **Orange:** Fuel consumption (mpg)

Digital instrumentation

- Digital speedometer and rev counter
- Satellite Navigation display
- Digital fuel gauge with low fuel level warning light
- Digital water temperature gauge with warning light
- Shift-up/down indication light – Indicates when to change gear for optimum fuel economy

Driver information display (centrally located in digital instrument cluster)

- Total mileage • Service-due indicator
- Oil life • Tyre pressure monitoring system

Multi-function trip computer (displayed on digital instrument cluster)

- Trip mileage • Vehicle range based on remaining fuel
- Average speed • Average fuel economy
- Instantaneous fuel economy • Driving time

Digital central facia display (format dependent on infotainment unit)

- Audio information
- Digital clock with automatic RDS time adjustment
- Outside air temperature with ice warning function
- Additional features dependent on infotainment unit

- Android Auto™
- Smartphone projection that allows operations via voice command, touchscreen and buttons to control apps and music playback

Additional features:
- Steering wheel mounted audio controls
- Flexible roof-mounted aerial

Multimedia Navi Pro with 10-inch touchscreen

Standard on GS and Ultimate models
Standard on Mokka Electric models

Features as Multimedia, with the addition of:
- 10-inch colour touchscreen
- Satellite navigation system
- 2D/3D street level mapping
- European coverage
- Points-of-interest search
- Map updates via USB

Please note, Apple CarPlay screen illustrated on 10-inch colour touchscreen on multimedia Navi Pro audio unit.

Please note that compatibility and certain functions may be different depending on the type of device and operating system you're using with the Multimedia systems. Apple CarPlay is a trademark of Apple Inc. Apple and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Android is a trademark of Google Inc, also registered in the U.S. and other countries.

Vauxhall Connect

Standard Features – Vauxhall Connect* is the new way to stay connected while on the road. Smart technology systems and related services keep our drivers safe and provide an exciting, efficient yet safe trip. Activating Vauxhall Connected Services is easy, just visit Vauxhall Connect Store or download MyVauxhall app.

Peace of mind

- Emergency call (SOS e-call)
- Breakdown call (b-call)
- Vehicle status and information**
- Maintenance alerts, fuel level, average fuel consumption and mileage

Vauxhall SOS
In the event of a breakdown or accident, you can count on Vauxhall Connect as your car has its own SIM card installed. If something happens that means there may have been an accident – say, the airbags are inflated or the pre-tensioners on the seatbelts are activated – an automatic message will go off to the emergency services, with details of your location.

Vauxhall Connect SOS can be activated manually too – just press the button and you'll be put straight through to the emergency services on the system's integrated phone. So, if you have an accident, or see one, it only takes a few seconds to call for help.

Got a problem with your car but don't need the emergency services? Just press the Vauxhall Connect Assistance button and you'll be connected to our control centre over the system's integrated phone.

Convenience

- E-remote control (Mokka Electric only)**
- Remote check of battery level, programming and charge management
- Pre-conditioning of vehicle temperature

E-remote
Check and manage your electric/hybrid vehicle range remotely and in real time using your smartphone. With MyVauxhall you can check the charge and range of your vehicle at any time, and if you're plugged into a charging point, you're even able to control charging when you're far away. To offer peace of mind, you can be alerted when the battery is full or the charging is interrupted.

The remote pre-conditioning feature allows you to warm or cool the vehicle to an optimal temperature before starting your journey. With your comfort in mind, this feature allows you to maximise range if your vehicle is on charge, by taking energy from the source, rather than the battery.

This service is supplied free of charge by Vauxhall for the life of the vehicle.

Drive Smart

- Live navigation† (subscription included for three years) with on-line traffic, fuel prices and parking information, Points Of Interest (POI) search and weather
- Trip and drive management**
- Timestamping of trips, trip details, last vehicle position, guide-to-car and more

Live Navigation Plus†
Vauxhall's fully integrated navigation system helps you stay informed, providing real-time information from the leading European GPS provider, TomTom®. It can be operated using natural voice recognition, meaning your eyes need never leave the road.

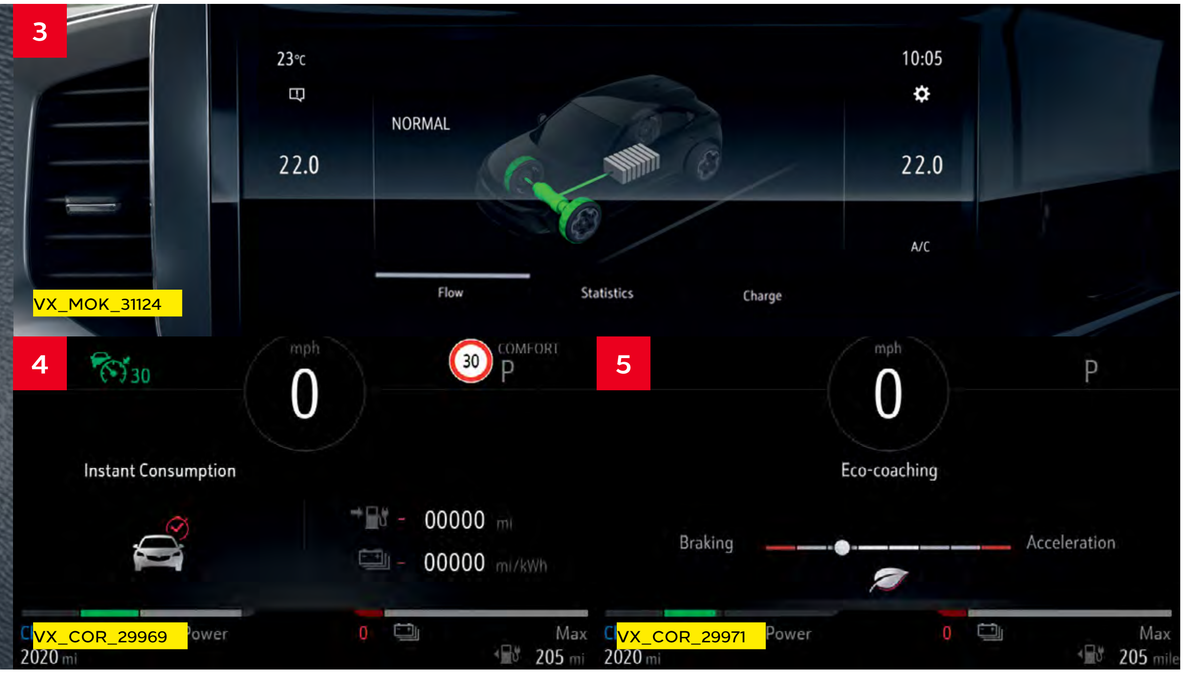
Vauxhall Live Navigation Plus is included free of charge for three years and can then be renewed at a cost.

- TomTom® services
- Real time traffic news
- Parking prices and availability
- Weather forecast on your journey
- Natural voice control
- Fuel prices at petrol stations
- Search for charging stations
- Quick search for addresses and points of interest
- Road safety alerts

*Standard on Ultimate models and all Mokka Electric models only. Subject to subscription – after you have taken delivery of your vehicle, please subscribe on: connect.vauxhall.co.uk **via MyVauxhall App.
†Standard on Nav models only. Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

PureEnergy

Model specific features are outlined in the following pages



1. 8-speed automatic transmission

The sophisticated 8-speed automatic transmission on petrol models has a number of features to help improve both efficiency and improve driving dynamics:

- Reduced internal friction to improve efficiency
- A torque converter design that has been specifically engineered to improve gear shift smoothness and reduce idling vibration
- Quickshift technology that offers one of the fastest shifting on the market
- Manual shifting mode available with shift paddles

Three driving modes

- Normal. For a balanced drive that offers the perfect combination of performance and fuel efficiency
- Sport. That improves steering feel, sharpens the throttle response, and raises the transmission shift points for a more dynamic driving experience
- Eco. For maximum fuel economy using shorter shifting points and a slower throttle response

2. Paddle shift

Mokka petrol automatic customers can also experience a more involving driving experience by using the paddle shift levers integrated into the steering wheel; a feature normally found on larger executive sports models.

3/4/5. Electric information displays

All electric-specific data on Mokka Electric models is displayed in the infotainment system and can be accessed using the special ‘EV’ button on the infotainment system. The EV app includes the following submenus:

- Flow • Statistics • E-save

Electric vehicle services

Electric vehicle services, such as thermal preconditioning and battery charging functions, are available not just with the MyVauxhall app, but also through the infotainment system in certain cases (Not illustrated).

Mokka Electric Specifications

Single-speed electronic drive selector

As the motor is an all-electric single-speed drive unit, there is no need for multiple gears. Instead, the shifter lets the driver select from the following:

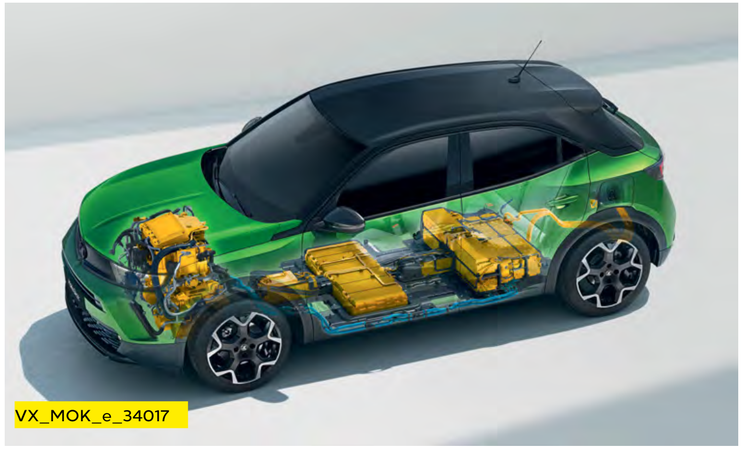
- Park
- Reverse
- Neutral
- Drive
- Braking (for increased regenerative braking)

Drive Mode Selector

The driver can determine the driving style through selecting one of the following modes:

- **Sport:** for a dynamic drive with a responsive throttle and the highest top speed and torque
- **Normal:** for a balanced drive that offers a compromise between performance and energy efficiency
- **ECO:** for maximum range and energy efficiency. The ECO mode deactivates all unnecessary energy-consuming features and reduces the top speed, torque and overall performance

Drivetrain	Mokka Electric
CO_2 emissions	0g/km
Maximum power	100kW (136PS)
Maximum torque	260Nm (192lb. ft.)
Acceleration 0–60mph	9.2 sec
Maximum speed	93mph
Transmission	Automatic electric drive with fixed gear ratio
Service interval	Initial inspection at 8,000 miles/ 1 year (whichever comes sooner). Thereafter 16,000 miles/2 years (whichever comes sooner)



VX_MOK_e_34017

VX_MOK_e_33783

The Mokka Electric is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Vauxhall Retailer.

Mokka Electric Specifications

Charging

Mokka Electric comes fitted with an 11kW on-board charger and mode 3 cable.

The charging flap's Padlock LED lights up when the cable is correctly plugged in and locked and then acts as a user interface to show the charging status via coloured LED lights:

- **White:** welcome light that helps to light up the area, especially useful in dark conditions
- **Flashing green:** charging in progress
- **Solid green:** charging complete
- **Solid blue:** delayed charging toggled; changes to flashing green when charging commences
- **Solid red:** malfunction

The driver may also choose from two settings:

- **Immediate charging (the standard setting):** Starts charging as soon as the vehicle is docked for charging
- **Delayed charging:** This is especially useful for when cheaper electric rates are desired, e.g. charging at night. Simply enter a charging start time

Please note, EV range assumes that vehicle has been pre-conditioned prior to journey. This function can be accessed either via MyVauxhall App (standard with all Mokka Electric) or by using the Multimedia Navi Pro infotainment system.

Charging		
Supply	**Socket**	**Charge Time (0–100%)**
AC current – Domestic 3 pin socket (2.3kW)	Type 2	21h 45m
AC current – Home wallbox or public charger (7kW)	Type 2	7h 30m
AC current – Public charger (11kW)	Type 2	5h
DC current – Rapid charger (100kW)	CCS	30m (0–80%)

Battery	
Battery capacity	50kWh
AC on-board charger speed	11kW
EV range (WLTP high)	209 miles
Energy consumption (Combined low/high)	15.8–16.2kWh/100km
Battery warranty	8 years/100,000 miles/70% capacity

The Mokka Electric is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Vauxhall Retailer.

Comfort and Convenience

Model specific features are outlined in the separate tabular information

1. Cool and in control

Air-con is standard on all Mokka's models with most featuring electronic climate control too. Filters help to keep allergy-causing pollens and bad smells out. A multizone sun sensor adjusts to sunlight intensity and keeps the entire cabin at a steady temperature, whatever the weather outside. It's safer, too: controlled particle air recirculation prevents windows from fogging up for improved visibility.

2. Storage solutions

There's space for everything inside Mokka, with storage spots in all the right places, and a 60/40 fully folding rear seat.

3. Heated front seats

Driver and front passenger seats heat in three stages for a more efficient alternative to climate control – and a driving experience to look forward to.

4. Heated steering wheel

Within a minute, the steering wheel will warm hands, however chilly it is outside, making driving not just more comfortable but safer too, thanks to the better control it offers.

5. Puddle lights

When exiting the car, an LED light under the door mirror lights up the pathway. The mirrors fold in electrically when parking and the headlights and tail lights illuminate the way to the front door.

44 litres (9.7 gallons)

Start/Stop technology

Mokka's Start/Stop system offers real benefits by improving fuel economy and reducing CO_2 emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal.

System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Brake vacuum below specified minimum
- Start/Stop system is manually deactivated
- Stationary for 5.5 minutes

#Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. The CO_2 figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.

*Correct at time of publication.

Please note: Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 70kg. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, **maximum noseweight** should not exceed 55kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

Dimensions and Capacities

[4]Only available with anti-dazzle rear-view mirror. [5]Only for use with 18-inch diamond-cut alloy wheels. [6]Available on petrol models only.

Company Car Driver and Fleet Information

Benefit in kind company car taxation*
The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO_2 emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%** for Basic Rate, 40%** for Higher Rate) to calculate your annual benefit in kind tax liability.

Generic example:

ELECTRIC vehicle: 0g/km CO_2	
On-the-road RRP	£27,305.00
Deduct: Vehicle Excise Duty	£0.00
New vehicle first registration fee	-£55.00
Effective list price	£27,250.00
Add: Optional two-coat metallic paint	£600.00
List price for tax purposes (P11D value)	£27,850.00
Car benefit charge 2023–24 tax year (2%)	£557.00
Benefit in kind tax liability	
Basic Rate (20%) tax payer	£111.40
Higher Rate (40%) tax payer	£222.80

*Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.
**Excludes residents of Scotland.

BiK for Scottish Residents
Effective 6 April 2018 the Scottish Government have introduced their own BiK taxation structure. This only applies to Company Car Drivers that are Scottish taxpayers. HMRC will determine whether or not an individual is a Scottish taxpayer based on where their main place of residence is.

The BiK rates for Scotland are:
- Over £12,570 – £14,732 Starter Rate 19%
- Over £14,732 – £25,688 Basic Rate 20%
- Over £25,688 – £43,662 Intermediate Rate 21%
- Over £43,662 – £150,000 Higher Rate 41%
- Above £150,000 Top Rate 46%

CO_2 emissions (g/km)	Percentage of cars price to be taxed 2023–24 tax year
Up to 50	14%
51 – 54	15%
55 – 59	16%
60 – 64	17%
65 – 69	18%
70 – 74	19%

Further Information

On-the-road prices
To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £750.00 (including £125.00 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

Price protection
Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

Please note: Price protection does not apply to Electric models. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

In the event of an accident
Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit **vauxhall.co.uk/AccidentManagement**

Free2Move Lease
Whether you're a big company or a small business looking for vehicle financing, Free2Move Lease, our business finance specialists, can deliver exactly what you need.

Free2Move Lease is one of the UK's largest leasing companies and is also a member of the British Vehicle Rental and Leasing Association (BVRLA).

With over 60,000 vehicles in the Free2Move Lease portfolio, Free2Move Lease is able to offer competitive vehicle solutions. In addition, Free2Move Lease also offer innovative connected management of servicing and maintenance.

For further information, please contact your local Vauxhall Retailer or visit **vauxhall.co.uk/offers-finance/business-leasing.html**

Vehicle Excise Duty
The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO_2) emissions produced by the vehicle. CO_2 emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table opposite.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £390 is payable for the first five years of standard rate payments.

Vehicle Excise Duty*

Band	CO_2 emissions in grams per kilometre	First year rate Petrol	Standard rate Petrol	Standard rate Electric
A	0	£0	£0	£0
B	1 – 50	£10	£180	–
C	51 – 75	£30	£180	–
D	76 – 90	£130	£180	–
E	91 – 100	£165	£180	–
F	101 – 110	£185	£180	–
G	111 – 130	£210	£180	–
H	131 – 150	£255	£180	–
I	151 – 170	£645	£180	–
J	171 – 190	£1,040	£180	–
K	191 – 225	£1,565	£180	–
L	226 – 255	£2,220	£180	–
M	Over 255	£2,605	£180	–

*Correct at time of issue.

Further Information

Customer Care Commitment
For added peace of mind, Vauxhall has an innovative Customer Care Commitment that offers the following:

- Three-year vehicle warranty consisting of a one-year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 60,000 miles limitation
- Vauxhall Assistance for 12 months from first registration
- Six years' body panel anti-perforation warranty

Please note: Warranty is only available on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

Vauxhall Assistance
Vauxhall Assistance is provided automatically with every new Vauxhall for 12 months from first registration and covers everything from accident assistance, roadside recovery and 'at home' service to flat tyres. For even more peace of mind, on fully electric models, the cover is extended* to 3 years. Even more reason for you to stay calm and let us take care of everything should the need arise. With Vauxhall Assistance help is literally just a free** phone call away, 24 hours a day, 365 days a year!

Protecting the environment
Vauxhall's commitment to the environment is demonstrated by our products' many environmental awards. For even more information on Vauxhall's efforts to achieve an environmentally sustainable future, and how to dispose of your end-of-life vehicle, see **vauxhall.co.uk/recycling**

Vauxhall Care
This all-inclusive service package is available on Vauxhalls under 10 months old (from date of first registration).

This package offers complete peace of mind for the first 3 years of your Vauxhall's life with fixed monthly payments for the plan duration.

- **3 years' Vauxhall servicing** – covers first, second and third annual services. Including a brake-fluid change in the second service
- **2 years' Vauxhall Roadside Assistance** – first year from us
- **First years' MOT**† – free of charge by your local Vauxhall Retailer

For full terms and conditions and to sign up, visit: **vauxhall.co.uk/vauxhallcare**

Vauxhall Service Club
Vauxhall Service Club is available for all Vauxhall owners, and it's free to join. Members benefit from the following:

- 15% off Vauxhall Approved Accessories
- Vauxhall's aged 2-3 Years = 15% off parts and labour
- Vauxhall's aged over 3 Years = 25% off parts and labour
- Half price MOT's (NI excluded)
- Free pre-MOT test inspection (NI only)
- Fixed price AdBlue® Refills
  – Car = £14.99
  – Van = £24.99
- Access to the Vauxhall Accident Management Programme
- Online service booking available 24/7 with servicing appointments available within 3 days – Book Online
- Collection and delivery/onward mobility options
- Complimentary 'Wash and Vac' with all routine services††
- Vauxhall trained technicians
- Genuine Vauxhall parts
- Minimum 12 months warranty on parts and labour
- Regular newsletters with exclusive offers, discounts and competitions

Terms and conditions apply. To join visit: **vauxhall.co.uk/serviceclub**

Vauxhall Insurance with added reassurance
Comprehensive cover – Summary of benefits

- Competitive premiums
- Repairs by a Vauxhall-trained technician
- Genuine Vauxhall parts, guaranteed for five years when we repair your car within our Approved Repairer Network
- Free courtesy car as standard when using an Approved Repairer‡
- 24 hour claims helpline
- Personal Accident benefit
- Cover for audio equipment
- Windscreen cover

Vauxhall Pure Technology

We believe technology works best when it works for everyone. When it's not just as smart as can be, but also as easy as can be. We call it Vauxhall Pure Technology. Now everyone can keep themselves and their loved ones safe. And everyone can stay connected to the things that matter most, simply and easily. That's Vauxhall Pure Technology. No gimmicks, nothing complicated, just technology that makes driving better, easier and more exciting, for everyone.

Vauxhall
PureSense

Vauxhall PureSense gives you heightened awareness on the road, with smart driver assistance technology that makes every journey safer and more enjoyable. And the best bit? You don't have to do a thing. PureSense is always on, continually working away in the background, scanning the road ahead, keeping you safe and allowing you to just enjoy the drive.

Vauxhall
PureConnect

We live in a connected world. Friends and relatives are only a button away. We play music on demand. Information is instant. At Vauxhall we've brought your connected world inside the car – we call it PureConnect. Easy to use and always on, PureConnect seamlessly connects you to the things that matter through the smooth, flowing 7 or 8 inch display.

Apple CarPlay is a trademark of Apple Inc. Apple and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries.

Choose Your Trim Level

Design

VX_CRO_33340

Design is Crossland's entry level trim which has a high level of specification as standard including the 7-inch colour touchscreen with smartphone projection, air-con and cruise control.

GS

VX_CRO_34153

Opt for GS for a touch of sportiness in your Crossland. Offering the visual appeal with a black roof, dark-tinted rear windows, 17-inch black alloy wheels and an interior that's unique to the GS.

It's sporty from the inside out but still offering the practicality and versatility needed for every day family life.

Ultimate

VX_CRO_34175

The top of the range Crossland – Ultimate has everything from Alcantara interior trim to satellite navigation.

Crossland Range Highlights

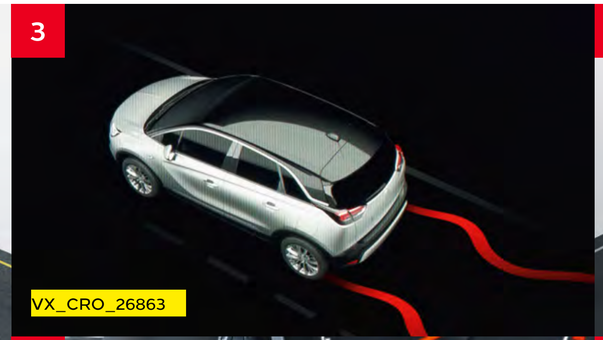
WLTP Combined CO_2 (g/km) figures are based on a configured vehicle as per LCDV code for UK with no options fitted.

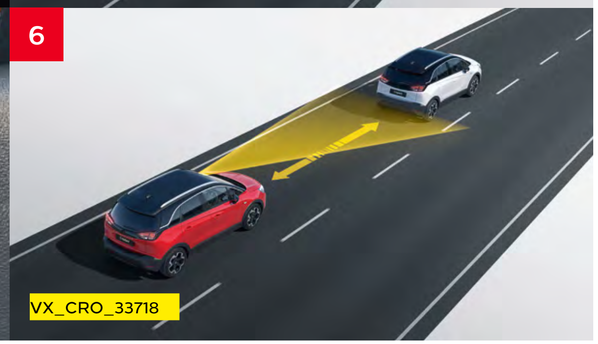
#Provisional fuel consumption and CO_2 figures are determined according to the WLTP test cycle. CO_2 figures, BiK values and RRP pricing shown above are for a standard vehicle without any additional optional equipment. CO_2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BiK. The addition of optional extras could increase the certified CO_2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BiK) tax payable. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £750.00 (inc. £125.00 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price. On-the-road prices feature a VED based on preliminary CO_2 information.

PureSense

Model specific features are outlined in the separate tabular information





1. Automatic emergency braking with pedestrian detection

Front camera system monitors the traffic situation in front of the vehicle using the front camera to detect mobile and fixed cars as well as adult pedestrians. The system first warns you through a series of visual and audible alerts and should you not react quickly enough, will automatically brake the vehicle to avoid or mitigate the impact of front-end collisions.*

*Cycles, motorcycles, animals and other objects are not detected.

2. Lane departure warning with lane keep assist

If the driver has not actively steered or signalled, the lane departure warning system warns when the car moves outside of lane markings at speeds above 37mph.

3. Driver drowsiness alert

The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness.

4. Speed sign recognition

Detects and then displays speed limits, reducing uncertainty and the risk of speeding.

5. Cruise control with speed limiter

With steering wheel mounted controls. Enables you to maintain a constant speed, making it ideal for economical motorway driving.

6. Forward collision alert

The system operates automatically and gives an audible warning as well as a visual warning when approaching another vehicle too quickly.

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

VX_CRO_27268

2

VX_CRO_31453

3

VX_CRO_31462

4

VX_CRO_33097

1. Central display

The touchscreen infotainment comes as standard, with the availability of a digital instrumentation display, that puts important info directly into the driver's eyeline. It all works together to seamlessly connect driver, to car.

2. 3.5-inch colour instrument display

3.5-inch instrumentation clearly displays all the important figures; including speed, fuel levels and more.

3. Multimedia Navi Pro with 8-inch touchscreen

The app wall on the 8-inch infotainment touchscreen provides direct access to the main domains. These include radio, navigation and smartphone projection that allows operations via voice command, touchscreen and buttons to control apps and music playback.

4. AGR front seats*

The AGR label confirms that the Crossland's ergonomically certified AGR seats meet even the highest levels of comfort.

Standard Infortainment Features

Multimedia with 7-inch touchscreen

Standard on Design

Onboard features:
- 7-inch colour touchscreen
- DAB Digital radio
- RDS with Traffic Programme
- AM/FM stereo radio with 36 station presets
- Six speakers

Media connections:
- USB connection
- Bluetooth® A2DP audio streaming (Advanced Audio Distribution Profile)

Mobile phone portal:
- Bluetooth® connectivity
- Vehicle microphone
- Handsfree calls via steering wheel controls
- Phone book access – Contacts/last calls/missed calls etc. are mirrored on the display and are easily navigated using the touchscreen (features dependent on mobile phone).
- SMS read out and reply

Smartphone interface:
- Apple CarPlay
- Android Auto™
- Smartphone projection that allows operations via voice command, touchscreen and buttons to control apps and music playback

Additional features:
- Steering wheel mounted audio controls
- Flexible roof-mounted aerial

Multimedia Navi Pro with 8-inch Touchscreen

Standard on GS and Ultimate

Features as Multimedia, with the addition of:
- Satellite navigation system
- 2D/3D street level mapping
- European coverage
- Points-of-interest search
- Map updates via USB
- 1 extra USB connection

Standard Driver Information Features

Instrumentation
- Speedometer and rev counter
- Fuel gauge with low fuel level warning light
- Water temperature gauge with warning light
- Shift-up/down indication light – Indicates when to change gear for optimum fuel economy

Driver information display (centrally located in instrument cluster)
- Trip computer data
- Total mileage
- Service-due indicator
- Oil life
- Tyre pressure monitoring system

Multi-function trip computer (displayed on driver information display)
- Trip mileage
- Vehicle range based on remaining fuel
- Average speed
- Average fuel economy
- Instantaneous fuel economy

Central facia display (format dependent on infotainment unit)
- Audio information
- Digital clock with automatic RDS time adjustment
- Outside air temperature with ice warning function
- Additional features dependent on infotainment unit

Please note that compatibility and certain functions may be different depending on the type of device and operating system you're using with the Multimedia systems. Apple CarPlay is a trademark of Apple Inc. Apple and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Android is a trademark of Google Inc, also registered in the U.S. and other countries.

Comfort and Convenience

Model specific features are outlined in the separate tabular information

1. Cool and in control

Air conditioning is standard on all Crossland's with most featuring dual-zone electronic climate control too. Filters help to keep allergy-causing pollens and bad smells out. A multizone sun sensor adjusts to sunlight intensity and keeps the entire cabin at a steady temperature, whatever the weather outside. It's safer, too: controlled particle air recirculation prevents windows from fogging up for improved visibility.

2. Heated front seats

Driver and front passenger seats heat in three stages for a more efficient alternative to climate control – and a driving experience to look forward to.

3. Storage solutions

You can split the rear seats 60/40 and slide them forward or back to expand the boot space up to 520 litres. Or, if you flip the back row of seats flat, you've got a whopping 1,255 litres.

4. Heated steering wheel

Within a minute, the steering wheel will warm hands, however chilly it is outside, making driving not just more comfortable but safer too, thanks to the better control it offers.

Six-speed automatic transmission
Petrol engines: 1.2 (130PS) Turbo models

Steering

- Speed-sensitive electric power-assisted steering
- Turning circle (wall-to-wall): 11.21m (36.7ft)

Suspension

Front: Independent. Lightweight MacPherson struts with gas-pressure dampers and coil springs. Anti-roll bar.

Rear: Compound crank with coil springs and hydraulic dampers.

Braking and stability

- Switchable Electronic Stability Programme (ESP)
- Anti-lock Braking System (ABS)
- Corner stability control
- Traction control
- Hill start assist
- Engine drag torque control
- Hydraulic brake assist
- Hydraulic brake boost
- Electronic brakeforce distribution

1.2 (110PS) Turbo/1.2 (130PS) Turbo
Front ventilated discs: 283mm diameter
Rear discs: 249mm diameter

Fuel tank capacity

- 45 litres (9.9 gallons)

Body

- Aerodynamic drag co-efficient: Cd 0.31

Start/Stop technology

Crossland's Start/Stop system, fitted as standard to all models, offers real benefits by improving fuel economy and reducing CO_2 emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal. System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Brake vacuum below specified minimum
- Start/Stop system is manually deactivated
- Stationary for 5.5 minutes

1.2 (110PS) Turbo	1770	840 (600)
1.2 (130PS) Turbo auto	1835	840 (600)

#Provisional figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. The CO_2 figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification. *Correct at time of publication.

Please note: Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 70kg. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, **maximum noseweight** should not exceed 55kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

Dimensions and Capacities

[1]Vehicle must be ordered with spare wheel fixing option (T7Y) in order to accommodate the spare wheel. [2]Can only be fitted with rear parking sensors. [3]Only compatible with IOA radio (BYOM2). [4]Restrictions apply to the use of child seats, please consult your vehicle user manual or Vauxhall Retailer. [5]Not compatible with spare wheel. [6]A dedicated T-Track adapter (Thule 697-4 or Thule 697-6) is required for the installation of specific roof boxes, contact your local Vauxhall Retailer for details.

Company Car Driver and Fleet Information

High spec, low P11D
As a business and company car driver, you'll find all of our models are seriously fit for fleet; we're talking very low P11D values, generous standard specification and high-tech engines designed for great fuel economy and low emissions – and that's just to get you started.

To get access to even more spec as standard, simply take a step up in the range – low P11D values will continue to apply.

Drivers and businesses all have unique requirements and by taking advantage of low whole-life costs and low company car driver taxation you can get in the driving seat with the spec to suit.

Benefit in kind company car taxation*
The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO_2 emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%** for Basic Rate, 40%** for Higher Rate) to calculate your annual benefit in kind tax liability.

Generic example:

PETROL vehicle: 129g/km CO_2	
On-the-road RRP	£20,260.00
Deduct: Vehicle Excise Duty	-£190.00
New vehicle first registration fee	-£55.00
Effective list price	£20,015.00
Add: Optional two-coat metallic paint	£600.00
List price for tax purposes (P11D value)	£20,615.00
Car benefit charge 2023–24 tax year (30%)	£6,184.50
Benefit in kind tax liability	
Basic Rate (20%) tax payer	£1,237.00
Higher Rate (40%) tax payer	£2,474.00

*Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.
**Excludes residents of Scotland.

BiK for Scottish Residents
Effective 6 April 2018 the Scottish Government have introduced their own BiK taxation structure. This only applies to Company Car Drivers that are Scottish taxpayers. HMRC will determine whether or not an individual is a Scottish taxpayer based on where their main place of residence is.

The BiK rates for Scotland are:
- Over £12,570 – £14,732 Starter Rate 19%
- Over £14,732 – £25,688 Basic Rate 20%
- Over £25,688 – £43,662 Intermediate Rate 21%
- Over £43,662 – £150,000 Higher Rate 41%
- Above £150,000 Top Rate 46%

CO_2 emissions (g/km)	Percentage of cars price to be taxed 2023–24 tax year
Up to 50	14%
51 – 54	15%
55 – 59	16%
60 – 64	17%
65 – 69	18%
70 – 74	19%
75 – 79	20%
80 – 84	21%
85 – 89	22%
90 – 94	23%
95 – 99	24%
100 – 104	25%
105 – 109	26%
110 – 114	27%
115 – 119	28%
120 – 124	29%
125 – 129	30%
130 – 134	31%
135 – 139	32%
140 – 144	33%
145 – 149	34%
150 – 154	35%
155 – 159	36%
160 – 164	37%
165 – 169	37%
170+	37%

Further Information

On-the-road prices
To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £750.00 (including £125.00 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

Price protection
Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

In the event of an accident
Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit **vauxhall.co.uk/AccidentManagement**

Free2Move Lease
Whether you're a big company or a small business looking for vehicle financing, Free2Move Lease, our business finance specialists, can deliver exactly what you need.

Free2Move Lease is one of the UK's largest leasing companies and is also a member of the British Vehicle Rental and Leasing Association (BVRLA).

With over 60,000 vehicles in the Free2Move Lease portfolio, Free2Move Lease is able to offer competitive vehicle solutions. In addition, Free2Move Lease also offer innovative connected management of servicing and maintenance.

For further information, please contact your local Vauxhall Retailer or visit **vauxhall.co.uk/offers-finance/business-leasing.html**

Vehicle Excise Duty
The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO_2) emissions produced by the vehicle. CO_2 emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table opposite.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £390 is payable for the first five years of standard rate payments.

Vehicle Excise Duty*

Band	CO_2 emissions in grams per kilometre	First year rate Petrol	Standard rate Petrol
A	0	£0	£0
B	1 – 50	£10	£180
C	51 – 75	£30	£180
D	76 – 90	£130	£180
E	91 – 100	£165	£180
F	101 – 110	£185	£180
G	111 – 130	£210	£180
H	131 – 150	£255	£180
I	151 – 170	£645	£180
J	171 – 190	£1,040	£180
K	191 – 225	£1,565	£180
L	226 – 255	£2,220	£180
M	Over 255	£2,605	£180

*Correct at time of issue.

Further Information

Customer Care Commitment
For added peace of mind, Vauxhall has an innovative Customer Care Commitment that offers the following:

- Three-year vehicle warranty consisting of a one-year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 60,000 miles limitation
- Vauxhall Assistance for 12 months from first registration
- Six years' body panel anti-perforation warranty

Please note: Warranty is only available on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

Vauxhall Assistance
Vauxhall Assistance is provided automatically with every new Vauxhall for 12 months from first registration and covers everything from accident assistance, roadside recovery and 'at home' service to flat tyres. Even more reason for you to stay calm and let us take care of everything should the need arise. With Vauxhall Assistance help is literally just a free* phone call away, 24 hours a day, 365 days a year!

Protecting the environment
Vauxhall's commitment to the environment is demonstrated by our products' many environmental awards. For even more information on Vauxhall's efforts to achieve an environmentally sustainable future, and how to dispose of your end-of-life vehicle, see **vauxhall.co.uk/recycling**

Vauxhall Care
This all-inclusive service package is available on Vauxhalls under 10 months old (from date of first registration).

This package offers complete peace of mind for the first 3 years of your Vauxhall's life with fixed monthly payments for the plan duration.

- **3 years' Vauxhall servicing** – covers first, second and third annual services. Including a brake-fluid change in the second service
- **2 years' Vauxhall Roadside Assistance** – first year from us
- **First years' MOT**** – free of charge by your local Vauxhall Retailer

For full terms and conditions and to sign up, visit: **vauxhall.co.uk/vauxhallcare**

Vauxhall Pure Technology

We believe technology works best when it works for everyone. When it's not just as smart as can be, but also as easy as can be. We call it Vauxhall Pure Technology. Now everyone can feel the instant excitement of electric. Everyone can keep themselves and their loved ones safe. And everyone can stay connected to the things that matter most, simply and easily. That's Vauxhall Pure Technology. No gimmicks, nothing complicated, just technology that makes driving better, easier and more exciting, for everyone.

VX_GRA_32097

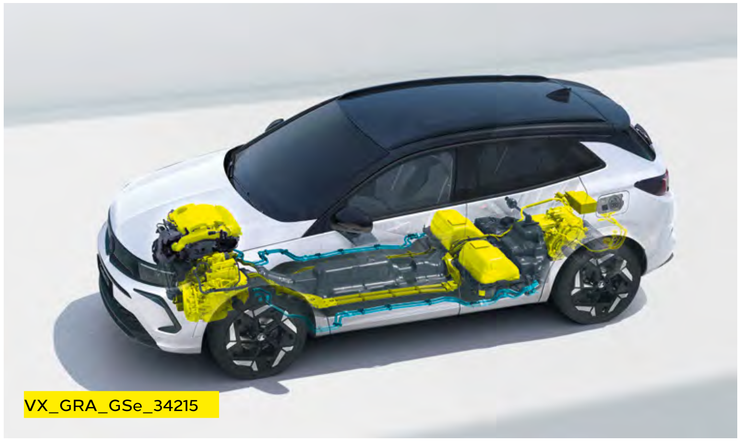
Vauxhall
PureSense

Vauxhall PureSense gives you heightened awareness on the road, with smart driver assistance technology that makes every journey safer and more enjoyable. And the best bit? You don't have to do a thing. PureSense is always on, continually working away in the background, scanning the road ahead, keeping you safe and allowing you to just enjoy the drive.

VX_GRA_32126

Vauxhall
PureConnect

We live in a connected world. Friends and relatives are only a button away. We play music on demand. Information is instant. At Vauxhall we've brought your connected world inside the car – we call it PureConnect. Easy to use and always on, PureConnect seamlessly connects you to the things that matter through the smooth, flowing Pure Panel display. And, just as intelligently, it connects you to your car's onboard tech, through touchscreen and voice control.



VX_GRA_GSe_34215

Vauxhall
PureEnergy

At Vauxhall, we're on a mission to open up electric driving to everyone. To deliver instant, exhilarating performance with low emissions. To change the way we move, for the better. And with innovative Plug-in Hybrid models available across the range, including the all-new 300PS 4WD GSe model, there's an electrified Grandland that will fit seamlessly into your life. One that's more exciting than ever, while keeping costs as low as possible. Thanks to PureEnergy from Vauxhall.

Choose Your Trim Level

Design

Design is Grandland's entry level trim which has a high level of specification as standard including the 7-inch colour touchscreen with smartphone projection, 17-inch alloy wheels, dual-zone climate control and more.

VX_GRA_34051

GS

The sporty GS provides an aggressive look with a black roof and door mirrors combined with 18-inch high gloss black alloy wheels, dark tinted rear windows and high gloss black exterior detailing.

Also available as a Plug-in Hybrid model.

VX_GRA_34167

Ultimate

Ultimate builds on the already impressive GS spec adding a 360° panoramic parking camera, Alcantara seats, high gloss black badging and more.

Also available as a Plug-in Hybrid model.

VX_GRA_32069

GSe

The new GSe (Grand Sport electric) radically redefines pure performance combining bold SUV design with exhilarating, electrified technology. This is responsible high energy excitement.

VX_GRA_GSe_34213

gov.uk

WLTP Combined CO_2 (g/km) figures are based on a configured vehicle as per LCDV code for UK with no options fitted.

#Provisional fuel consumption and CO_2 figures are determined according to the WLTP test cycle. CO_2 figures, BiK values and RRP pricing shown above are for a standard vehicle without any additional optional equipment. CO_2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BiK. The addition of optional extras could increase the certified CO_2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BiK) tax payable. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £750.00 (inc. £125.00 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price.

Grandland's petrol and diesel engines meet the Real Driving Emissions Step 2 (RDE2) standards.

WLTP Combined CO_2 (g/km) figures are based on a configured vehicle as per LCDV code for UK with no options fitted.

#Provisional fuel consumption and CO_2 figures are determined according to the WLTP test cycle. CO_2 figures, BiK values and RRP pricing shown above are for a standard vehicle without any additional optional equipment. CO_2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BiK. The addition of optional extras could increase the certified CO_2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BiK) tax payable. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £750.00 (inc. £125.00 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price.

PureSense

Model specific features are outlined in the separate tabular information

1. Automatic emergency braking with pedestrian detection

Front camera system monitors the traffic situation in front of the vehicle using the front camera to detect mobile and fixed cars as well as adult pedestrians. The system first warns you through a series of visual and audible alerts and should you not react quickly enough, will automatically brake the vehicle to avoid or mitigate the impact of front-end collisions.*

*Cycles, motorcycles, animals and other objects are not detected.

Front camera and radar system

Adds radar-based technology, enabling you to detect fixed and mobile objects, such as cycles and pedestrians. The system will even bring the vehicle to a complete standstill when driving under 30mph in traffic.

2. Lane departure warning with lane keep assist

If you do not actively steer or signal, the system warns when the car moves outside of lane markings at speeds above 37mph. If evasive action is not taken, it will provide a gentle nudge of steering correction.

3. Driver drowsiness alert

The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness.

4. Cruise control with intelligent speed limiter

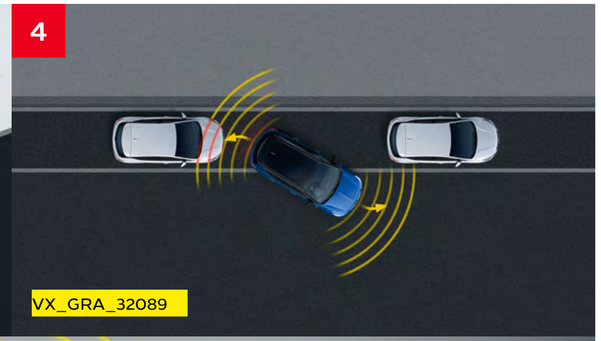
With steering wheel mounted controls. Enables you to maintain a constant speed, making it ideal for economical motorway driving and to keep within ever changing speed limits during roadworks.

5/6. Highway integration assist

Highway integration assist is an innovative combination of advanced cruise control and lane positioning assist. Working as a semi-automatic system, it uses radar to help the driver safely integrate into a motorway lane, follow a particular lane, or follow a vehicle ahead. Engaged at the touch of a button you can take control from the system anytime by simply moving the steering wheel.

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

Model specific features are outlined in the separate tabular information



1. Speed sign recognition

Detects and then displays speed limits, reducing uncertainty and the risk of speeding.

2. Side blind spot alert

Drivers can change lanes with more confidence. It alerts the driver to vehicles in the blind spot within 3m in parallel lanes via the flashing icon in the side mirror.

3. Hill start assist

Working together with the electric handbrake, the system briefly maintains rear brake pressure to stop the vehicle rolling back on an incline when pulling away.

4. Advanced park assist

Finds the appropriate parking spaces and actively parks the car. It controls the steering, while the driver takes care of acceleration, braking and gear changes.

5. 360° panoramic parking camera

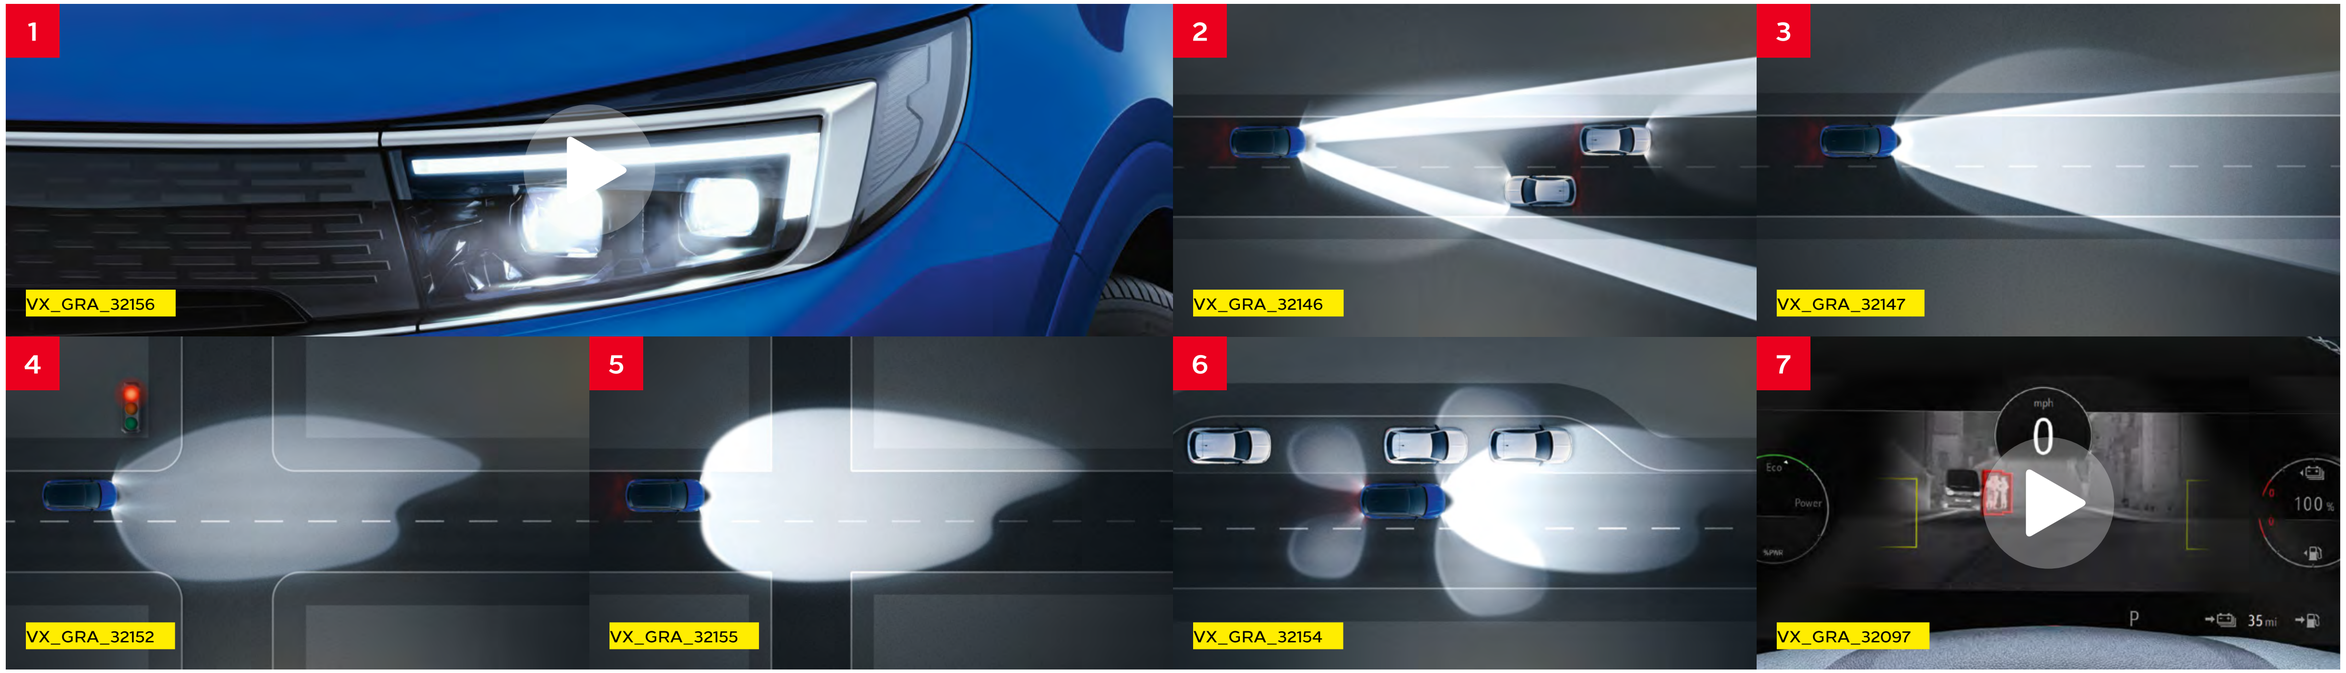
This super smart camera gives you a pin-sharp, extra-wide view of the blind spots at the front and back of your car.

6. Keyless entry and start

Simply get in and start the engine without having to find the keys.

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

Model specific features are outlined in the separate tabular information



1. IntelliLux adaptive LED® pixel headlights

With 84 segments per headlight, the latest IntelliLux adaptive LED® pixel system offers improved visibility that helps make night time driving significantly safer.

2. Anti-glare beam

Anti-glare beam is an advanced full beam that controls independent units of the IntelliLux adaptive LED® pixel headlights.

3. High beam assist

High beam assist switches automatically between full and dipped beam to reduce the risk of blinding other road users.

4. Energy saving mode

Energy saving mode switches the cornering lights on and off in conjunction with the Start/Stop System.

5. Tourist mode

Tourist mode decreases the beam intensity and is designed for driving in countries where traffic drives on the other side the road.

6. Manoeuvring mode

Manoeuvring mode provides extra light around the vehicle and is designed for parking and reversing.

7. Night Vision

Improves visibility at night further than 300m. Alerts driver about pedestrians or animals in front of the car (above 50m as far as 100m) with video, which is directly displayed within the 12-inch digital colour display of the driver information cluster.

Motorway mode

Motorway mode recognizes whether the vehicle is on a motorway and responds by adapting the headlights for optimum night-time motorway driving (not illustrated).

Please note, Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

1. Central display

Has a multimedia system as standard with a 7-inch colour touchscreen on Design models and 10-inch on all others, both integrated seamlessly into the new Pure Panel.

2. Smartphone projection

Smartphone projection that allows operations via voice command, touchscreen and buttons to control apps and music playback with Apple CarPlay and Android Auto™ compatibility.*

3. Instrument cluster

The driver can customise the content shown on the up to fully digital 12-inch driver information cluster. In addition pop-ups such as receiving calls and alerts can be displayed.

4. Inductive wireless smartphone charger

Smartphones can be charged inductively on the charging pad in the front of the centre console.

5. AGR front seats**

The AGR label confirms that the new Grandland's ergonomically certified AGR front seats meet even the highest levels of comfort. Also included on Ultimate models, 3-stage seat heating.

*Apple CarPlay is a trademark of Apple Inc. Apple and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Android is a trademark of Google Inc, also registered in the U.S. and other countries.
**AGR (The Campaign for Healthier Backs) is an independent centre of excellence for ergonomics, based in Germany.

Standard Pure Panel Features – The following features are standard across the entire Grandland range.

Pure Panel Digital Display

Pure Panel technology makes driving more intuitive, with a flowing design that presents the information you need. With up to 10-inch infotainment touchscreen and 12-inch digital instrument cluster right in front of you, you can stay focused on the road ahead.

EV information display

- Powerflow display – Informs drivers on the current state of charge and what is being used as the power source, petrol or electric
- Charge display – displays an image of the charge port with the corresponding LED charge indication lights
- e-Save – enables the driver to determine how much battery energy needs to be conserved to ensure that the vehicle reaches its destination when in a zero emission zone
  There are three options:
  – 6 mile/12 mile range reserve/Maximum reserve
- Statistics – The Statistics display the average consumption data over a period of time using colour coded graphs
- **Green:** Energy recovered by braking phases and partial recharging by the petrol engine (kWh/mile)
- **Blue:** Energy consumed by the vehicle directly by the battery (kWh/mile)
- **Orange:** Fuel consumption (mpg)

Digital instrumentation

- Digital speedometer and rev counter
- Satellite Navigation display
- Digital fuel gauge with low fuel level warning light
- Digital water temperature gauge with warning light
- Shift-up/down indication light – Indicates when to change gear for optimum fuel economy

Driver information display
(centrally located in digital instrument cluster)

- Total mileage • Service-due indicator
- Oil life • Tyre pressure monitoring system

Multi-function trip computer
(displayed on digital instrument cluster)

- Trip mileage
- Vehicle range based on remaining fuel
- Average speed • Average fuel economy
- Instantaneous fuel economy • Driving time

Digital central facia display

- Audio information
- Digital clock with automatic RDS time adjustment
- Outside air temperature with ice warning function

Vauxhall Connect

Standard Features – Vauxhall Connect* is the new way to stay connected while on the road. Smart technology systems and related services keep our drivers safe and provide an exciting, efficient yet safe trip. Activating Vauxhall Connected Services is easy, just visit Vauxhall Connect Store or download MyVauxhall app.

Peace of mind

- Emergency call (SOS e-call)
- Breakdown call (b-call)
- Vehicle status and information**
- Maintenance alerts, fuel level, average fuel consumption and mileage

Vauxhall SOS

In the event of a breakdown or accident, you can count on Vauxhall Connect as your car has its own SIM card installed. If something happens that means there may have been an accident – say, the airbags are inflated or the pre-tensioners on the seatbelts are activated – an automatic message will go off to the emergency services, with details of your location.

Vauxhall Connect SOS can be activated manually too – just press the button and you'll be put straight through to the emergency services on the system's integrated phone. So, if you have an accident, or see one, it only takes a few seconds to call for help.

Got a problem with your car but don't need the emergency services? Just press the Vauxhall Connect Assistance button and you'll be connected to our control centre over the system's integrated phone.

Convenience

- E-remote control (Plug-in Hybrid only)**
- Remote check of battery level, programming and charge management
- Pre-conditioning of vehicle temperature

E-remote

Check and manage your electric/hybrid vehicle range remotely and in real time using your smartphone. With MyVauxhall you can check the charge and range of your vehicle at any time, and if you're plugged into a charging point, you're even able to control charging when you're far away. To offer peace of mind, you can be alerted when the battery is full or the charging is interrupted.

The remote pre-conditioning feature allows you to warm or cool the vehicle to an optimal temperature before starting your journey. With your comfort in mind, this feature allows you to maximise range if your vehicle is on charge, by taking energy from the source, rather than the battery.

This service is supplied free of charge by Vauxhall for the life of the vehicle.

Drive Smart

- Live navigation† (subscription included for three years) with on-line traffic, fuel prices and parking information, Points Of Interest (POI) search and weather
- Trip and drive management**
- Timestamping of trips, trip details, last vehicle position, guide-to-car and more

Live Navigation Plus†

Vauxhall's fully integrated navigation system helps you stay informed, providing real-time information from the leading European GPS provider, TomTom®. It can be operated using natural voice recognition, meaning your eyes need never leave the road.

Vauxhall Live Navigation Plus is included free of charge for three years and can then be renewed at a cost.

- TomTom® services
- Real time traffic news
- Parking prices and availability
- Weather forecast on your journey
- Natural voice control
- Fuel prices at petrol stations
- Search for charging stations
- Quick search for addresses and points of interest
- Road safety alerts

*Standard equipment on Grandland Plug-in Hybrid models only. Subject to subscription – after you have taken delivery of your vehicle, please subscribe on: connect.vauxhall.co.uk **via MyVauxhall App. †Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

PureEnergy

Model specific features are outlined in the following pages

1. Electrified transmission

The e-EAT8 electrified 8-speed automatic transmission system is standard on the Grandland Plug-in Hybrid and offers smooth transition between gears. It features:

- A multi-disc wet clutch, replacing the torque convertor
- Permanent electric motor that transforms electric energy into mechanical drive energy
- Electric motor installed into the gearbox and petrol engine
- Electric motor adds an additional electric power of 81.2kW (110PS) and makes a torque of 320Nm for 10 seconds

2. Paddle shift

Grandland automatic customers can also experience a more involving driving experience by using the paddle shift levers integrated into the steering wheel; a feature normally found on larger executive sports models.

3/4/5. Hybrid information displays

All Plug-in Hybrid-specific data is displayed in the infotainment system and can be accessed using the special 'EV' button on the infotainment system. The EV app includes the following submenus:

- Flow
- Statistics
- E-save

6. Electric vehicle services

Electric vehicle services, such as thermal preconditioning and battery charging functions, are available not just with the MyVauxhall app, but also through the infotainment system in certain cases.

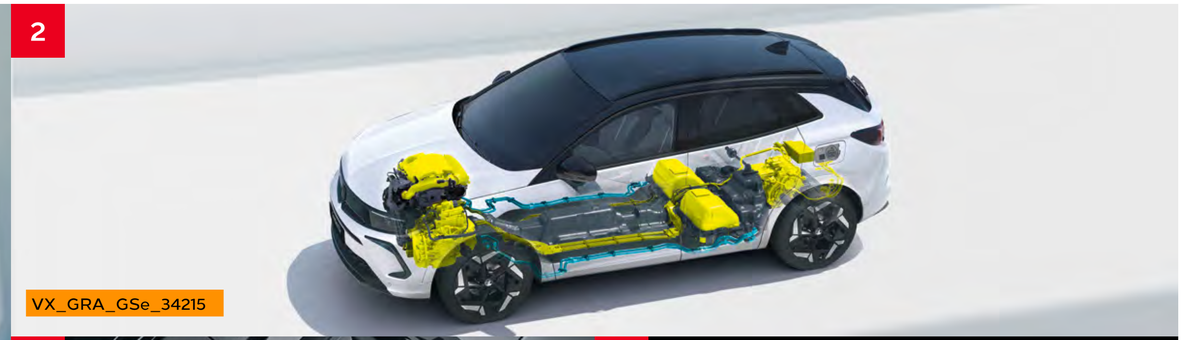
PureEnergy – GSe

Model specific features are outlined in the following pages

1

VX_GRA_GSe_34247

2



VX_GRA_GSe_34215

3

VX_GRA_PHEV_29855

4

1. New Grandland GSe

GSe stands for Grand Sport Electric. This performance SUV builds on Vauxhall's bold and pure design while a driver-focused, bespoke chassis set-up, with all-wheel drive traction, complements the dynamic performance of an electrified 300PS powertrain.

2. Four-wheel drive electrified rear axle

The electrified rear axle is exclusive for the GSe 4WD drivetrain and includes the following:

- Additional power of 83kW and 166Nm of torque for 10 seconds
- An electric motor, inverter and reducer
- Rear-axle cross member modified by an electrified multi-arm axle

3. Drive mode selector

The drive mode selector is positioned next to the automatic gearbox with electric shifter this enables GSe drivers to select the additional AWD mode:

- AWD activates the engine and electric motor to provide all-wheel drive with improved grip on tough surfaces

4. Unique chassis set-up

GSe features a unique suspension set-up and steering calibration. With decoupled MacPherson struts at the front and a multi-link rear axle, GSe is fitted with firmer front and rear springs and Koni FSD (Frequency Selective Damping) technology, which enables different damping characteristics for the optimum balance between handling and ride comfort.

Plug-in Hybrid Specifications

Electrified Transmission

The 8-speed electrified transmission system is standard and offers both smooth transition between gears. The 8-speed electrified gearbox includes the following content:

- Multi-disc wet clutch replaces removed torque converter
- Permanent electric motor that transforms electric energy into mechanical drive energy
- Electric motor installed into the gearbox and petrol engine
- Comes with intuitive and stylish Automatic gearbox with electric shifter with shift paddles

Drive Mode Selector

The Drive Mode selector is positioned next to the Automatic gearbox with electric shifter and enables drivers to select one of the following:

- Hybrid is the default mode and offers the best of both worlds between controlled fuel consumption and on-road performance
- Sport mode, draws on the combined power of the engine and motor for a more dynamic drive
- Electric activates the electric engine only, for zero CO_2 emissions and complete silence
- On Hybrid4 models AWD activates the engine and electric engine to provide AWD and improve grip on rough surfaces

iBooster

The iBooster energy-recovery system enables the passive recovery of energy when in motion. The energy produced by the resistance of the brakes against the drivetrain is used through the iBooster and converted to partially recharge the battery.

Fuel tank capacity

- 43 litres (9.4 gallons)

Weights

- Kerbweight FWD: 1735kg
- Kerbweight AWD: 1805kg
- Maximum towing weight FWD:
  Braked trailer 1250kg (without brakes 600kg)

Charging

- Grandland Plug-in Hybrid range comes fitted with a type 2 charging cable and a 3.7kW on-board charger as standard. Includes cable bag at no extra cost
- A 7.4kW on-board charger can be purchased as an option for £500 inc VAT

This option halves the vehicle charging time when charging with a 7kW wallbox.

Please note: A type 2 cable (standard UK socket*) would charge the vehicle in less than 8 hours.

Grandland Plug-in Hybrid range charging time examples are listed showing times dependant on the various powers of charge point which the vehicle is plugged into.

Charging		
Supply	**Socket**	**Charge Time (0–100%)**
AC current – Domestic 3 pin socket (2.3kW)	Type 2	6 hours
AC current – Home wallbox or public charger (3.6kW)	Type 2	4 hours
AC current – Home wallbox or public charger (7kW)**	Type 2	2 hours

VX_GRA_32039

Preliminary data determined according to WLTP test procedure methodology. EG type approval and Certificate of Conformity are not yet available. Preliminary values may differ from official final type approval data. Charging rate depends on power source and charging cable used.
*Only use a domestic electrical socket that has been checked by a qualified electrician and is protected by a circuit breaker adapted to the amperage of the electrical circuit. **Requires optional 7.4kW on board charger.

Plug-in Hybrid Specifications

Petrol Engine	1.6 (225PS)	1.6 (300PS)

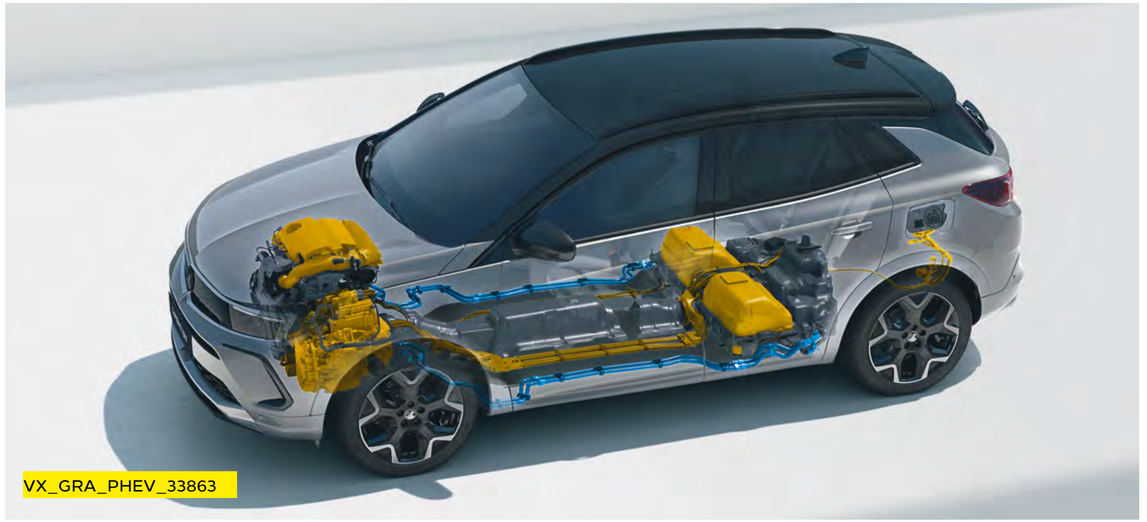
Energy consumption (WLTP Combined)	16.4kWh/100km	16.4kWh/100km
Battery warranty	8 years/100,000 miles/70% capacity	



VX_GRA_PHEV_33863

Please note, EV range assumes that vehicle has been pre-conditioned prior to journey.
This function can be accessed via MyVauxhall App or Infotainment system.

All-wheel Drive Electrified Rear Axle

The Electrified Rear Axle is exclusive on the Hybrid4 AWD drivetrain and includes the following:

- Additional power of 80kW and torque boost of 166Nm for 10 seconds
- Contains an electric motor, inverter and reducer
- Rear axle cross member modified by an electrified multi-arm axle

These figures were obtained using a combination of battery power and fuel. The Grandland Plug-in Hybrid requires mains electricity for charging.

#WLTP Figures shown are for comparison purposes and should only be compared to the fuel consumption, CO_2 values and electric range of other cars tested to the same technical standard. The fuel consumption and electric range achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); charging frequency; battery condition; variations in weather; driving styles and vehicle load. For more information contact your local Vauxhall Retailer.

1. Cool and in control

Electronic climate control is standard on Grandland's with dual-zone features available. Filters help to keep allergy-causing pollens and bad smells out. A multizone sun sensor adjusts to sunlight intensity and keeps the entire cabin at a steady temperature, whatever the weather outside. It's safer, too: controlled particle air recirculation prevents windows from fogging up for improved visibility.

2. Power operated tailgate with foot sensor

A sensor-operated power tailgate gives you hands-free access when carrying and loading luggage. You just need to swipe your foot under the rear bumper of the car to spring open the tailgate. Simply press the button on the inside of the tailgate to automatically close the tailgate.

3. Heated front seats

Driver and front passenger seats heat in three stages for a more efficient alternative to climate control – and a driving experience to look forward to.

4. Heated steering wheel

Within a minute, the steering wheel will warm hands, however chilly it is outside, making driving not just more comfortable but safer too, thanks to the better control it offers.

5. Partial heated windscreen

Kiss goodbye to early morning ice scraping with a handy heated windscreen. Pair it with heated front seats and steering wheel, and it's smiles all round.

Storage solutions

There's space for everything inside Grandland, with storage in all the right places, featuring 60/40 split folding rear seat backs (not illustrated).

Specifications

Transmissions

Six-speed manual gearbox
Standard on all models.

Eight-speed automatic transmission
Available at extra cost on all models.

The 8-speed automatic gearbox available for the Grandland offers smooth transitions between gears. The 8-speed automatic gearbox with the cobra-style shifter, which is standard for combustion engine and Plug-in Hybrid, includes the following features:

- Optimised internal frictions to improve efficiency
- Optimised torque convertor to improve gear shift smoothness and reduce idling vibrations
- Quickshift technology that offers one of the fastest shifting on the market
- Manual shifting mode available with shift paddles

Steering

- Speed-sensitive electric power-assisted steering

Fuel tank capacity

- 53 litres (11.6 gallons)

AdBlue® tank capacity

- 17 litres (3.7 gallons)

Braking and stability

- Switchable Electronic Stability Programme (ESP)
- Anti-lock Braking System (ABS)
- Corner stability control
- Traction control
- Hill start assist
- Hydraulic brake assist
- Electronic brakeforce distribution

All models
Front ventilated discs: 304mm diameter
Rear discs: 268mm diameter

Suspension

Front: Independent. Decoupled MacPherson struts with gas-pressure dampers and coil springs. Anti-roll bar.
Rear: Compound crank with coil springs and gas-pressure dampers.

GSe models
Front: Independent Decoupled MacPherson struts with Koni FSD (Frequency Selective Damping) oil-filled dampers and revised front springs. Anti-roll bar.
Rear: Compound crank with coil springs and Koni FSD (Frequency Selective Damping) oil-filled dampers and revised rear springs.

Start/Stop technology

Grandland's Start/Stop system, fitted as standard to all models, offers real benefits by improving fuel economy and reducing CO_2 emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal. System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode
- Self-cleaning function of the diesel particulate filter is not active

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Brake vacuum below specified minimum
- Start/Stop system is manually deactivated
- Stationary for 5.5 minutes

Petrol Engine	1.2 (130PS) Turbo
Capacity	1199cc
Maximum power	130PS (96kW) @ 5500rpm

1.5 (130PS) Turbo D auto	2000	1300 (600)

#Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. The CO_2 figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.

*Correct at time of publication.

Please note: Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 70kg. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, **maximum noseweight** should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

Dimensions and Capacities

All measurements in mm (inches) unless stated otherwise.

[1]Vehicle must be ordered with spare wheel fixing option (T7Y) in order to accommodate the spare wheel. [2]Petrol and diesel models only. [3]For manual transmission only. [4]Restrictions apply to the use of child seats, please consult your vehicle user manual or Vauxhall Retailer.
[5]A dedicated T-Track adapter (Thule 697-4 or Thule 697-6) is required for the installation of specific roof boxes, contact your local Vauxhall Retailer for details.

Company Car Driver and Fleet Information

Benefit in kind company car taxation*
The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO_2 emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%** for Basic Rate, 40%** for Higher Rate) to calculate your annual benefit in kind tax liability.

Generic example:

Hybrid vehicle: 24g/km CO_2, up to 43 miles (electric-only range)	
On-the-road RRP	£32,200.00
Deduct: Vehicle Excise Duty	-£10.00
New vehicle first registration fee	-£55.00
Effective list price	£32,135.00
Add: Optional two-coat metallic paint	£600.00
List price for tax purposes (P11D value)	£32,735.00
Car benefit charge 2023–24 tax year (28%)	£2,619.00
Benefit in kind tax liability	
Basic Rate (20%) tax payer	£523.80
Higher Rate (40%) tax payer	£1,047.60

*Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.
**Excludes residents of Scotland.

BiK for Scottish Residents
Effective 6 April 2018 the Scottish Government have introduced their own BiK taxation structure. This only applies to Company Car Drivers that are Scottish taxpayers. HMRC will determine whether or not an individual is a Scottish taxpayer based on where their main place of residence is.

The BiK rates for Scotland are:
- Over £12,570 – £14,732 Starter Rate 19%
- Over £14,732 – £25,688 Basic Rate 20%
- Over £25,688 – £43,662 Intermediate Rate 21%
- Over £43,662 – £150,000 Higher Rate 41%
- Above £150,000 Top Rate 46%

CO_2 emissions (g/km)	Percentage of cars price to be taxed 2023–24 tax year
Up to 50	14%
51 – 54	15%
55 – 59	16%
60 – 64	17%
65 – 69	18%
70 – 74	19%
75 – 79	20%
80 – 84	21%
85 – 89	22%
90 – 94	23%
95 – 99	24%
100 – 104	25%
105 – 109	26%
110 – 114	27%
115 – 119	28%

Further Information

On-the-road prices
To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £750.00 (including £125.00 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

Price protection
Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

Please note: Price protection does not apply to Plug-in Hybrid models. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

In the event of an accident
Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit **vauxhall.co.uk/AccidentManagement**

Free2Move Lease
Whether you're a big company or a small business looking for vehicle financing, Free2Move Lease, our business finance specialists, can deliver exactly what you need.

Free2Move Lease is one of the UK's largest leasing companies and is also a member of the British Vehicle Rental and Leasing Association (BVRLA).

With over 60,000 vehicles in the Free2Move Lease portfolio, Free2Move Lease is able to offer competitive vehicle solutions. In addition, Free2Move Lease also offer innovative connected management of servicing and maintenance.

For further information, please contact your local Vauxhall Retailer or visit **vauxhall.co.uk/offers-finance/business-leasing.html**

Vehicle Excise Duty
The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO_2) emissions produced by the vehicle. CO_2 emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table opposite.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £390 is payable for the first five years of standard rate payments.

Vehicle Excise Duty*

Band	CO_2 emissions in grams per kilometre	First year rate Petrol/Diesel	Standard rate Petrol/Diesel	Standard rate Hybrid
A	0	£0	£0	£0
B	1 – 50	£10	£180	£0

Further Information

Customer Care Commitment
For added peace of mind, Vauxhall has an innovative Customer Care Commitment that offers the following:

- Three-year vehicle warranty consisting of a one-year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 60,000 miles limitation
- Vauxhall Assistance for 12 months from first registration
- Six years' body panel anti-perforation warranty

Please note: Warranty is only available on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

Vauxhall Assistance
Vauxhall Assistance is provided automatically with every new Vauxhall for 12 months from first registration and covers everything from accident assistance, roadside recovery and 'at home' service to flat tyres. For even more peace of mind, on fully electric models, the cover is extended* to 3 years. Even more reason for you to stay calm and let us take care of everything should the need arise. With Vauxhall Assistance help is literally just a free** phone call away, 24 hours a day, 365 days a year!

Protecting the environment
Vauxhall's commitment to the environment is demonstrated by our products' many environmental awards. For even more information on Vauxhall's efforts to achieve an environmentally sustainable future, and how to dispose of your end-of-life vehicle, see **vauxhall.co.uk/recycling**

Vauxhall Care
This all-inclusive service package is available on Vauxhalls under 10 months old (from date of first registration).

This package offers complete peace of mind for the first 3 years of your Vauxhall's life with fixed monthly payments for the plan duration.

- **3 years' Vauxhall servicing** – covers first, second and third annual services. Including a brake-fluid change in the second service
- **2 years' Vauxhall Roadside Assistance** – first year from us
- **First years' MOT**† – free of charge by your local Vauxhall Retailer

For full terms and conditions and to sign up, visit: **vauxhall.co.uk/vauxhallcare**

Vauxhall Service Club
Vauxhall Service Club is available for all Vauxhall owners, and it's free to join. Members benefit from the following:

- 15% off Vauxhall Approved Accessories
- Vauxhall's aged 2-3 Years = 15% off parts and labour
- Vauxhall's aged over 3 Years = 25% off parts and labour
- Half price MOT's (NI excluded)
- Free pre-MOT test inspection (NI only)
- Fixed price AdBlue® Refills
  – Car = £14.99
  – Van = £24.99
- Access to the Vauxhall Accident Management Programme
- Online service booking available 24/7 with servicing appointments available within 3 days – Book Online
- Collection and delivery/onward mobility options
- Complimentary 'Wash and Vac' with all routine services††
- Vauxhall trained technicians
- Genuine Vauxhall parts
- Minimum 12 months warranty on parts and labour
- Regular newsletters with exclusive offers, discounts and competitions

Terms and conditions apply. To join visit: **vauxhall.co.uk/serviceclub**

Vauxhall Insurance with added reassurance
Comprehensive cover – Summary of benefits

- Competitive premiums
- Repairs by a Vauxhall-trained technician

Choose Your Trim Level

Design

VX_COM_e_33983

First up in the range is the Combo Life Electric Design, which is packed with plenty of practical features as standard. Choose from 5- or 7-seats.

Ultimate

VX_COM_e_33987

Combo Life Electric Ultimate completes the range, with a little more exterior style and extra comfort features. Again, you can choose from 5- or 7-seats.

Combo Life Range Highlights

gov.uk

WLTP Combined CO_2 (g/km) figures are based on a configured vehicle as per LCDV code for UK with no options fitted.

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £750.00 (inc. £125.00 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price. Price has been calculated using manufacturer estimates. Retailers may be required to carry out more than one credit check during the course of the order process. You may be required to place a deposit when placing your order with your supplying Retailer. In the event of a price change, deposit refunds will be governed by your supplying Retailer's policy and as such must be discussed with the supplying Retailer.

New Combo Life Electric is not covered by our Price Protection Guarantee. See 'Further Information' page for details.

Combo Life's diesel engines meet the Real Driving Emissions Step 2 (RDE2) standards.

WLTP Combined CO_2 (g/km) figures are based on a configured vehicle as per LCDV code for UK with no options fitted.

#Fuel consumption and CO_2 figures are determined according to the WLTP test cycle. CO_2 figures, BiK values and RRP pricing shown above are for a standard vehicle without any additional optional equipment. CO_2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BiK. The addition of optional extras could increase the certified CO_2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BiK) tax payable. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

Safety

Standard Features – The following features are standard across the entire Combo Life range.

Airbags
- Driver's airbag
- Front passenger's airbag
- Two front seat side-impact airbags
- Full-size curtain airbags

Seating
- Three height adjustable rear seat head restraints

Seatbelts
- Lap and diagonal inertia-reel seatbelts
- 'Seatbelt unfastened' audible warning and warning light

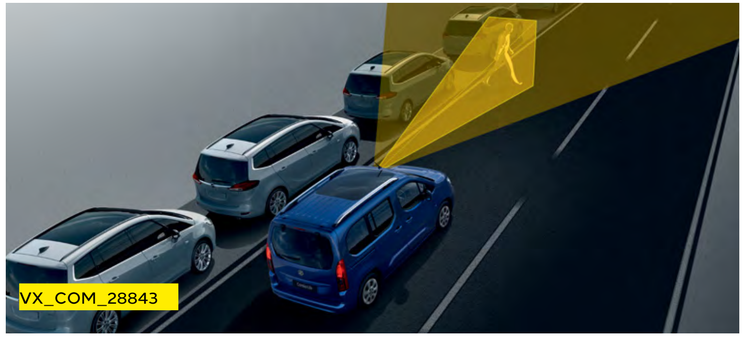
Braking
- Automatic emergency braking – The system works automatically in conjunction with forward collision alert, at speeds between 3mph and 70mph, and detects both vehicles and pedestrians. If no avoiding action is taken by the driver, at speeds below 19mph the system automatically slows the vehicle to a full stop with emergency braking of 0.9g. At speeds from 19mph to 70mph it brakes automatically to reduce speed by a maximum of 30mph – to reduce speed even further the driver must brake themselves
- Anti-lock Braking System (ABS)
- Electronic brakeforce distribution – Automatically apportions the optimum braking force to each wheel
- Engine drag torque control – Improves directional stability by preventing the driven wheels from locking on slippery surfaces under the influence of engine braking
- Hill start assist – Briefly maintains rear brake pressure to stop the vehicle rolling back on an incline

Child safety
- Deactivation switch for front passenger's front and side-impact airbags
- ISOFIX child seat mountings incorporating top tether anchor points located on second-row rear seats (does not include child seat) – Allows ISOFIX child safety seats to be securely fixed into the car. The ISOFIX mounting system reduces forward movement in an accident and makes the child seat easier to install
- Child-proof locks on rear doors

Stability
- Electronic Stability Programme (ESP) – ESP monitors many different inputs to determine when the car starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability

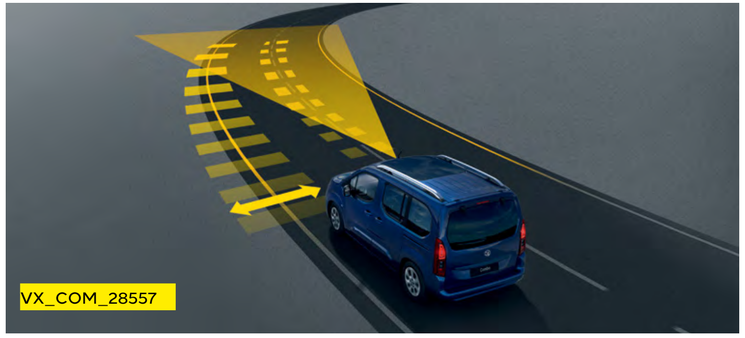
Additional ESP features
- Traction control
- Cornering brake control
- Straight line stability control
- Drag torque control – Maintain stability on slippery roads when lifting off the accelerator or changing gear

Tyre pressure
- Tyre pressure monitoring system



Automatic emergency braking.

ISOFIX child seat mountings.



Lane departure warning (see next page for feature description).

Driver Assistance

Standard Features – The following features are standard across the entire Combo Life range. Specific features by model are outlined in the separate tabular information.

Cruise control with speed limiter
With steering wheel mounted controls. Enables you to maintain a constant speed, making it ideal for economical motorway driving.

Steering
- Speed sensitive electrically assisted power steering
- Reach and rake adjustable steering column

Front camera system
A range of class-leading driver assistance and safety features are controlled by the front camera system

Forward collision alert
The system operates automatically from 3mph and gives an audible warning as well as a visual warning when approaching another vehicle too quickly

Speed sign recognition
Detects and then displays speed limits, reducing uncertainty and the risk of speeding.
- Recognises different speed signs, including temporary speed restrictions
- Displays reminder in the instrument cluster

Driver drowsiness system
The system monitors driving time and driving behaviour to help prevent accidents caused by tiredness.

Lane departure warning with lane keep assist
If the driver has not actively steered or signalled, the lane departure warning system provides gentle steering correction and warns when the car moves outside of lane markings at speeds above 40mph.
- Warning light in instrument cluster
- Audible warning • Facia on/off switch

Wipers
- Intermittent rear window wash/wipe
- Magic Wash System – Mounted in the front windscreen wipers, Combo Life Electric models benefit from our innovative windscreen wash system, designed to more effectively distribute water and reduce wastage. Using nozzles located above the wiper blades, fluid is distributed as the wiper sweeps the windscreen. This avoids the 'temporary blindness' of more conventional bonnet mounted systems between fluid release and wiper sweeping, improving visibility

#Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard. The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures. The CO_2 figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification. *Correct at time of publication.

Combo Life Electric Specifications*

Single-speed electronic drive selector

As the motor is an all-electric single-speed drive unit, there is no need for multiple gears. Instead, the shifter lets the driver select from the following:

- Park
- Reverse
- Neutral
- Drive
- Braking (for increased regenerative braking)

Drive Mode Selector

The driver can determine the driving style through selecting one of the following modes:

- **Power:** with high power reserves for the highest top speed and torque. Recommended at full capacity
- **Normal:** for a balanced drive that offers a compromise between performance and energy efficiency. WLTP range is validated in this mode
- **ECO:** for maximum range and energy efficiency. The ECO mode deactivates all unnecessary energy-consuming features and reduces the top speed, torque and overall performance

Braking

Energy recuperation

The regenerative braking system works when the vehicle is in motion, energy created by the resistance of the brakes against the drivetrain is converted into DC voltage to partially recharge the battery. The driver can also engage braking mode through the drive selector to increase the level of energy recuperation.

Single foot driving experience

The system not only utilises the energy when the brakes are being used, but also engages when the vehicle is coasting, recovering more energy and enabling single foot driving as the brakes automatically engage when the throttle pedal is released.

The Combo Life Electric is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Vauxhall Retailer.

*Provisional data.

Combo Life Electric Specifications*

Charging

Combo Life Electric comes fitted with an 7.4kW on-board charger and mode 3 cable. An 11kW on-board charger is available as an extra cost option.

The charging flap's Padlock LED lights up when the cable is correctly plugged in and locked and then acts as a user interface to show the charging status via coloured LED lights:

- **White:** welcome light that helps to light up the area, especially useful in dark conditions
- **Flashing green:** charging in progress
- **Solid green:** charging complete
- **Solid blue:** delayed charging toggled; changes to flashing green when charging commences
- **Solid red:** malfunction

The driver may also choose from two settings:

- **Immediate charging (the standard setting):** Starts charging as soon as the vehicle is docked for charging
- **Delayed charging:** This is especially useful for when cheaper electric rates are desired, e.g. charging at night. Simply enter a charging start time

Please note, EV range assumes that vehicle has been pre-conditioned prior to journey.
This function can be accessed either via MyVauxhall App (standard with all Combo Life Electric models or with optional Navi Pro).

Charging		
Supply	**Socket**	**Charge Time (0–100%)**

– 11.8m (38.7 ft) Life XL models

Weights and Towing Data kg

	Gross vehicle weight	Maximum towing weights Trailer with brakes (without brakes)
5-seat		
1.5 (100PS) Turbo D	2095	1300 (750)
1.5 (130PS) Turbo D automatic	tba	tba
XL 7-seat		
1.5 (100PS) Turbo D	2285	1100 (750)
1.5 (130PS) Turbo D automatic	tba	tba

Please note: Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 100kg on all models. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

Combo Life Electric Dimensions and Capacities*

All measurements in mm (inches) unless stated otherwise.

Loadspace Dimensions	5-seat	XL 7-seat
Maximum load floor length – passenger seat folded	2700 (106.3)	3050 (120.1)

Company Car Driver and Fleet Information

Benefit in kind company car taxation*
The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO_2 emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%** for Basic Rate, 40%** for Higher Rate) to calculate your annual benefit in kind tax liability.

Generic example:

ELECTRIC vehicle: 0g/km CO_2	
On-the-road RRP	£27,305.00
Deduct: Vehicle Excise Duty	£0.00
New vehicle first registration fee	-£55.00
Effective list price	£27,250.00
Add: Optional two-coat metallic paint	£600.00
List price for tax purposes (P11D value)	£27,850.00
Car benefit charge 2023–24 tax year (2%)	£557.00
Benefit in kind tax liability	
Basic Rate (20%) tax payer	£111.40
Higher Rate (40%) tax payer	£222.80

*Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.
**Excludes residents of Scotland.

BiK for Scottish Residents
Effective 6 April 2018 the Scottish Government have introduced their own BiK taxation structure. This only applies to Company Car Drivers that are Scottish taxpayers. HMRC will determine whether or not an individual is a Scottish taxpayer based on where their main place of residence is.

The BiK rates for Scotland are:
- Over £12,570 – £14,732 Starter Rate 19%
- Over £14,732 – £25,688 Basic Rate 20%
- Over £25,688 – £43,662 Intermediate Rate 21%
- Over £43,662 – £150,000 Higher Rate 41%
- Above £150,000 Top Rate 46%

CO_2 emissions (g/km)	Electric range (miles)	Percentage of cars price to be taxed 2023–24 tax year
0	–	2%
1 – 50	130+	2%
1 – 50	70 – 129	5%
1 – 50	40 – 69	8%
1 – 50	30 – 39	12%
1 – 50	<30	14%

Further Information

On-the-road prices
To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £750.00 (including £125.00 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

Price protection
Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

Please note: Price protection does not apply to Electric models. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

In the event of an accident
Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit **vauxhall.co.uk/AccidentManagement**

Free2Move Lease
Whether you're a big company or a small business looking for vehicle financing, Free2Move Lease, our business finance specialists, can deliver exactly what you need.

Free2Move Lease is one of the UK's largest leasing companies and is also a member of the British Vehicle Rental and Leasing Association (BVRLA).

With over 60,000 vehicles in the Free2Move Lease portfolio, Free2Move Lease is able to offer competitive vehicle solutions. In addition, Free2Move Lease also offer innovative connected management of servicing and maintenance.

For further information, please contact your local Vauxhall Retailer or visit **vauxhall.co.uk/offers-finance/business-leasing.html**

Vehicle Excise Duty
The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO_2) emissions produced by the vehicle. CO_2 emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table opposite.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £390 is payable for the first five years of standard rate payments.

Vehicle Excise Duty*

Band	CO_2 emissions in grams per kilometre	First year rate Diesel	Standard rate Diesel	Standard rate Electric
A	0	£0	£0	£0
B	1 – 50	£10	£180	–
C	51 – 75	£30	£180	–
D	76 – 90	£130	£180	–
E	91 – 100	£165	£180	–
F	101 – 110	£185	£180	–
G	111 – 130	£210	£180	–
H	131 – 150	£255	£180	–
I	151 – 170	£645	£180	–
J	171 – 190	£1,040	£180	–
K	191 – 225	£1,565	£180	–
L	226 – 255	£2,220	£180	–
M	Over 255	£2,605	£180	–

Further Information

Customer Care Commitment
For added peace of mind, Vauxhall has an innovative Customer Care Commitment that offers the following:

- Three-year vehicle warranty consisting of a one-year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 60,000 miles limitation
- Vauxhall Assistance for 12 months from first registration
- Six years' body panel anti-perforation warranty

Please note: Warranty is only available on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

Vauxhall Assistance
Vauxhall Assistance is provided automatically with every new Vauxhall for 12 months from first registration and covers everything from accident assistance, roadside recovery and 'at home' service to flat tyres. For even more peace of mind, on fully electric models, the cover is extended* to 3 years. Even more reason for you to stay calm and let us take care of everything should the need arise. With Vauxhall Assistance help is literally just a free** phone call away, 24 hours a day, 365 days a year!

Protecting the environment
Vauxhall's commitment to the environment is demonstrated by our products' many environmental awards. For even more information on Vauxhall's efforts to achieve an environmentally sustainable future, and how to dispose of your end-of-life vehicle, see **vauxhall.co.uk/recycling**

Vauxhall Care
This all-inclusive service package is available on Vauxhalls under 10 months old (from date of first registration).

This package offers complete peace of mind for the first 3 years of your Vauxhall's life with fixed monthly payments for the plan duration.

- **3 years' Vauxhall servicing** – covers first, second and third annual services. Including a brake-fluid change in the second service
- **2 years' Vauxhall Roadside Assistance** – first year from us
- **First years' MOT**† – free of charge by your local Vauxhall Retailer

For full terms and conditions and to sign up, visit: **vauxhall.co.uk/vauxhallcare**

Vauxhall Service Club
Vauxhall Service Club is available for all Vauxhall owners, and it's free to join. Members benefit from the following:

- 15% off Vauxhall Approved Accessories
- Vauxhall's aged 2-3 Years = 15% off parts and labour
- Vauxhall's aged over 3 Years = 25% off parts and labour
- Half price MOT's (NI excluded)
- Free pre-MOT test inspection (NI only)
- Fixed price AdBlue® Refills
  – Car = £14.99
  – Van = £24.99
- Access to the Vauxhall Accident Management Programme
- Online service booking available 24/7 with servicing appointments available within 3 days – Book Online
- Collection and delivery/onward mobility options
- Complimentary 'Wash and Vac' with all routine services††
- Vauxhall trained technicians
- Genuine Vauxhall parts
- Minimum 12 months warranty on parts and labour

WLTP Combined CO_2 (g/km) figures are based on a configured vehicle as per LCDV code for UK with no options fitted.

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £750.00 (inc. £125.00 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price. Price has been calculated using manufacturer estimates. Retailers may be required to carry out more than one credit check during the course of the order process. You may be required to place a deposit when placing your order with your supplying Retailer. In the event of a price change, deposit refunds will be governed by your supplying Retailer's policy and as such must be discussed with the supplying Retailer.

Vivaro Life Electric is not covered by our Price Protection Guarantee. See 'Further Information' page for details.

Safety

Standard Features – The following features are standard across the entire Vivaro Life Electric range.

Airbags
- Driver's airbag • Front passenger's airbag
- Two front seat side-impact airbags
- Full-size curtain airbags for driver and front and outer rear seat passengers
- Full-length curtain airbags second- and third-row seating (Long wheel base models only)

Seating
- Height-adjustable front seat head restraints

Seatbelts
- Lap and diagonal inertia-reel seatbelts (height-adjustable front)
- Front body-lock diagonal seatbelt pretensioner system.
- Drivers and front passenger's lap belt pretensioner system
- Front seatbelt force limiters

Braking
- Anti-lock Braking System (ABS)
- Emergency brake assist – When emergency braking is detected the vehicle automatically applies the maximum possible braking assistance
- Electronic brakeforce distribution – Automatically apportions the optimum braking force to each wheel
- Hill start assist – Briefly maintains rear brake pressure to stop the vehicle rolling back on an incline

Child safety
- Deactivation switch for front passenger's front and side-impact airbags
- ISOFIX child seat mountings incorporating top tether anchor points located on second-row rear seats (does not include child seat) – Allows ISOFIX child safety seats to be securely fixed into the car. The ISOFIX mounting system reduces forward movement in an accident and makes the child seat easier to install
- Child-proof locks on rear doors

Stability
- Electronic Stability Programme (ESP) – ESP monitors many different inputs to determine when the car starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability

Additional ESP features
- Traction control
- Cornering brake control
- Straight line stability control

Tyre pressure
- Tyre pressure monitoring system

Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

Driver drowsiness system (see next page).

ISOFIX child seat mountings.

Lane departure warning (see next page).

Driver Assistance

Standard Features – The following features are standard across the entire Vivaro Life Electric range. Specific features by model are outlined in the separate tabular information.

Steering
- Speed sensitive electrically assisted power steering
- Reach and rake adjustable steering

Wipers
- Two-speed windscreen wipers with variable intermittent wipe
- Intermittent rear window wash/wipe

Infotainment

Standard Features

Multimedia with 7-inch touchscreen (WLX9)

Standard on Combi and Design models

Onboard features:
- 7-inch colour touchscreen
- AM/FM stereo radio
- DAB Digital radio
- RDS with Traffic Programme
- Speakers (4 Combi/8 Design)

Media connections:
- USB connection
- Bluetooth® A2DP audio streaming (Advanced Audio Distribution Profile)

Mobile phone portal:
- Bluetooth® connectivity
- Vehicle microphone
- Phone book access – Contacts/last calls/missed calls etc. are mirrored on the display and are easily navigated using the touchscreen (features dependent on mobile phone)
- Smartphone interface – Apple CarPlay/Android Auto™

Additional features:
- Flexible roof-mounted aerial

Multimedia Navi Pro with 7-inch touchscreen (WLX7)

Standard on Ultimate models and optional at extra cost on Combi and Design models at £650 inc. VAT

Features as Multimedia, with the addition of:
- Satellite navigation system • 2D/3D street level mapping
- European coverage • Points-of-interest search
- Eco routing • Map updates via USB
- Three years subscription to TomTom Live*
- On-line navigation services provided by TomTom®
- Vivaro Life Electric shortcut key – Energy flow visualization – Energy stats visualization – Deferred charging options – Thermal pre-conditioning – Battery/range check
- Ten speakers

Vauxhall Connect**

e-Call and b-Call:
Help when you need it, 24/7, 365 days a year, that's what you get with new Vauxhall Connect. In an emergency or breakdown, you'll be put in touch with a trained advisor, with just the touch of a button.

Live Navigation Plus and more:
You can also access live navigation services, receive regular vehicle diagnostic info plus there's a host of remote convenience features available through the MyVauxhall app.
- **Peace of mind:** emergency call, breakdown call and regular vehicle status and information
- **Convenience:** remote functions (e.g. lock/unlock the door).
- **Our additional services for electric vehicles:** trip planning, remote settings or public charging solutions – we keep you going!
- **Smart driving:** enjoy a relaxed ride thanks to live navigation and trip management
- **Traffic alerts:** Live Navigation Plus introduces speed camera, traffic light camera and accident hotspot alerts

Specifications*

Single-speed electronic drive selector

As the motor is an all-electric single-speed drive unit, there is no need for multiple gears. Instead, the shifter lets the driver select from the following:

- Park
- Reverse
- Neutral
- Drive
- Braking (for increased regenerative braking)

Drive Mode Selector

The driver can determine the driving style through selecting one of the following modes:

- **Power:** with high power reserves for the highest top speed and torque. Recommended at full capacity
- **Normal:** for a balanced drive that offers a compromise between performance and energy efficiency. WLTP range is validated in this mode
- **ECO:** for maximum range and energy efficiency. The ECO mode deactivates all unnecessary energy-consuming features and reduces the top speed, torque and overall performance

Braking

Energy recuperation

The regenerative braking system works when the vehicle is in motion, energy created by the resistance of the brakes against the drivetrain is converted into DC voltage to partially recharge the battery. The driver can also engage braking mode through the drive selector to increase the level of energy recuperation.

Single foot driving experience

The system not only utilises the energy when the brakes are being used, but also engages when the vehicle is coasting, recovering more energy and enabling single foot driving as the brakes automatically engage when the throttle pedal is released.

The Vivaro Life Electric is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Vauxhall Retailer.

Specifications*

Charging

Vivaro Life Electric comes fitted with an 7.4kW on-board charger and mode 3 cable. An 11kW on-board charger is available as an extra cost option.

The charging flap's Padlock LED lights up when the cable is correctly plugged in and locked and then acts as a user interface to show the charging status via coloured LED lights:

- **White:** welcome light that helps to light up the area, especially useful in dark conditions
- **Flashing green:** charging in progress
- **Solid green:** charging complete
- **Solid blue:** delayed charging toggled; changes to flashing green when charging commences
- **Solid red:** malfunction

The driver may also choose from two settings:

- **Immediate charging (the standard setting):** Starts charging as soon as the vehicle is docked for charging
- **Delayed charging:** This is especially useful for when cheaper electric rates are desired, e.g. charging at night. Simply enter a charging start time

Please note, EV range assumes that vehicle has been pre-conditioned prior to journey. This function can be accessed either via MyVauxhall App (standard with all Vivaro Life Electric models or with optional Multimedia Navi Pro).

Charging		
Supply	**Socket**	**Charge Time (0–100%)**
AC current – Domestic 3 pin socket (2.3kW)	Type 2	21h 45m
AC current – Home wallbox or public charger (7kW)	Type 2	7h 30m
AC current – Public charger (11kW)**	Type 2	5h
DC current – Rapid charger (100kW)	CCS	30m (0–80%)

Battery	
Battery capacity	50kWh
AC on-board charger speed (standard)	7.4kW
WLTP Range (Combined)	135–137 miles
WLTP Range (City)	184–188 miles
Energy consumption (Combined low/high)	25.3–25.7kWh/100km
Battery warranty	8 years/100,000 miles/70% capacity

The Vivaro Life Electric is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Vauxhall Retailer.

*Provisional data. **Requires optional 11kW on board charger.

Dimensions and Capacities

All measurements in mm (inches) unless stated otherwise.

Loadspace Dimensions	M (Medium)	L (Long)
Maximum load length – Passenger's seat folded	3161 (124.5)	3511 (138.2)
Maximum load length – Behind front seats	2413 (95.0)	2763 (108.8)
Maximum width	1618 (63.7)	1618 (63.7)
Width between wheel arches	1228 (48.3)	1228 (48.3)
Maximum height	1337 (52.6)	1339 (52.7)
Loadspace Access		
Side door aperture height	1181 (46.5)	1181 (46.5)
Side door aperture width	933 (36.7)	933 (36.7)
Rear door aperture height	1181 (46.5)	1181 (46.5)
Rear door aperture width	1212 (47.7)	1212 (47.7)
Loading height – Maximum	653 (25.7)	664 (26.1)
Loading height – Minimum	584 (23.0)	584 (23.0)

[1]Restrictions apply to the use of child seats, please consult your vehicle user manual or Vauxhall Retailer.

Company Car Driver and Fleet Information

Benefit in kind company car taxation*
The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO_2 emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%** for Basic Rate, 40%** for Higher Rate) to calculate your annual benefit in kind tax liability.

Generic example:

ELECTRIC vehicle: 0g/km CO_2	
On-the-road RRP	£27,305.00
Deduct: Vehicle Excise Duty	£0.00
New vehicle first registration fee	-£55.00
Effective list price	£27,250.00
Add: Optional two-coat metallic paint	£600.00
List price for tax purposes (P11D value)	£27,850.00
Car benefit charge 2023–24 tax year (2%)	£557.00
Benefit in kind tax liability	
Basic Rate (20%) tax payer	£111.40
Higher Rate (40%) tax payer	£222.80

*Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.
**Excludes residents of Scotland.

BiK for Scottish Residents
Effective 6 April 2018 the Scottish Government have introduced their own BiK taxation structure. This only applies to Company Car Drivers that are Scottish taxpayers. HMRC will determine whether or not an individual is a Scottish taxpayer based on where their main place of residence is.

The BiK rates for Scotland are:
- Over £12,570 – £14,732 Starter Rate 19%
- Over £14,732 – £25,688 Basic Rate 20%
- Over £25,688 – £43,662 Intermediate Rate 21%
- Over £43,662 – £150,000 Higher Rate 41%
- Above £150,000 Top Rate 46%

CO_2 emissions (g/km)	Electric range (miles)	Percentage of cars price to be taxed 2023–24 tax year
0	–	2%
1 – 50	130+	2%
1 – 50	70 – 129	5%
1 – 50	40 – 69	8%
1 – 50	30 – 39	12%
1 – 50	<30	14%

Further Information

On-the-road prices
To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £750.00 (including £125.00 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

Price protection
Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

Please note: Price protection does not apply to Electric models. Vauxhall Motors Limited is not liable for price adjustments caused by Government changes in the rate of VAT (currently 20%), Vehicle Excise Duty, DVLA new vehicle first registration fee or by any other applicable legislation or regulations.

In the event of an accident
Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit **vauxhall.co.uk/AccidentManagement**

Free2Move Lease
Whether you're a big company or a small business looking for vehicle financing, Free2Move Lease, our business finance specialists, can deliver exactly what you need.

Free2Move Lease is one of the UK's largest leasing companies and is also a member of the British Vehicle Rental and Leasing Association (BVRLA).

With over 60,000 vehicles in the Free2Move Lease portfolio, Free2Move Lease is able to offer competitive vehicle solutions. In addition, Free2Move Lease also offer innovative connected management of servicing and maintenance.

For further information, please contact your local Vauxhall Retailer or visit **vauxhall.co.uk/offers-finance/business-leasing.html**

Vehicle Excise Duty
The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO_2) emissions produced by the vehicle. CO_2 emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table opposite.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £390 is payable for the first five years of standard rate payments.

Vehicle Excise Duty*

Band	CO_2 emissions in grams per kilometre	Standard rate Electric
A	0	£0
B	1 – 50	–
C	51 – 75	–
D	76 – 90	–
E	91 – 100	–
F	101 – 110	–
G	111 – 130	–
H	131 – 150	–
I	151 – 170	–
J	171 – 190	–
K	191 – 225	–
L	226 – 255	–
M	Over 255	–

*Correct at time of issue.

Further Information

Customer Care Commitment
For added peace of mind, Vauxhall has an innovative Customer Care Commitment that offers the following:

- Three-year vehicle warranty consisting of a one-year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 60,000 miles limitation
- Vauxhall Assistance for 12 months from first registration
- Six years' body panel anti-perforation warranty

Please note: Warranty is only available on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

Vauxhall Assistance
Vauxhall Assistance is provided automatically with every new Vauxhall for 12 months from first registration and covers everything from accident assistance, roadside recovery and 'at home' service to flat tyres. For even more peace of mind, on fully electric models, the cover is extended* to 3 years. Even more reason for you to stay calm and let us take care of everything should the need arise. With Vauxhall Assistance help is literally just a free** phone call away, 24 hours a day, 365 days a year!

Protecting the environment
Vauxhall's commitment to the environment is demonstrated by our products' many environmental awards. For even more information on Vauxhall's efforts to achieve an environmentally sustainable future, and how to dispose of your end-of-life vehicle, see **vauxhall.co.uk/recycling**

Vauxhall Care
This all-inclusive service package is available on Vauxhalls under 10 months old (from date of first registration).

This package offers complete peace of mind for the first 3 years of your Vauxhall's life with fixed monthly payments for the plan duration.

- **3 years' Vauxhall servicing** – covers first, second and third annual services. Including a brake-fluid change in the second service
- **2 years' Vauxhall Roadside Assistance** – first year from us
- **First years' MOT**† – free of charge by your local Vauxhall Retailer
