WELCOME TO A LIFETIME OF FORWARD THINKING

VX_BPS_1871

1903 – Forward thinking has been in our nature from the very start. The 6HP, our first ever car, had two forward gears. And no reverse.

VX_BPS_1872

1922 – The Silver Arrow OE 30-98 was capable of speeds of over 100mph, this model was built for shipping magnate Sir Leonard Ropner to race at Brooklands.

VX_BPS_1873

1937 – The Vauxhall '10' H-type, the first British car to have integral construction.

VX_BPS_18774

1957 – The PA Cresta introduced Americana styling to the UK.

VX_BPS_18775

1984 – The MkII Astra introduced class-leading aerodynamic styling that still looks good today. The Formula Vauxhall Lotus ran a modified version of the Astra GTE's 2.0i 16v engine.

VX_BPS_18776

1971 – The formation of Dealer Team Vauxhall (DTV). The track car was the precursor to our enormous success in touring car racing.

VX_BPS_18777

1999 – The Zafira introduced the revolutionary Flex7® seating system inventing the seven-seat compact MPV.

VX_BPS_18780

VX_BPS_18779

1990 – The Calibra was the world's most aerodynamic production car.

VX_BPS_18778

1989 – The Lotus Carlton was the world's fastest production four-door saloon.

2012 – The 'RAK e'. A radical looking electric concept car for the future. Our forward thinking continues.

2012 – Ampera. The first ever Extended-Range Electric Vehicle (E-REV) that redefined electric vehicle innovation leading to it being voted European Car Of The Year 2012.

The world was a very different place in 1903 when Vauxhall made its first car. We steered with tillers, not wheels. Six horsepower was considered pretty nippy. And King Edward's face was still on the stamps. But for us, one important thing hasn't changed: we started out with a philosophy of Forward Thinking and, over 110 years later, it still motivates everything we do. Who knows what innovations the next 110 years will bring?

LOVE AT FIRST SIGHT.

Introducing Corsa from Vauxhall.

Bold, bright and altogether brilliant, it's our smartest and best Corsa to date.

That means great looks. Clever design. And an interior so gorgeous and comfortable you simply won't want to get out.

Corsa is a dream to drive too, with lively engines including a punchy 1.0 litre turbo that does economy for fun.

And then there are some seriously intelligent features... big car features you just wouldn't expect:

A heated windscreen for those frosty mornings. Headlights that see you safely round corners. An intelligent camera system that reads road signs. A touchscreen audio system with apps that connects to the internet through your phone.

Corsa can even find you a parking space and then steer into it.

That's Corsa from Vauxhall. A match made in heaven.

FULL OF GOOD IDEAS.

TECHNOLOGY THAT LOOKS AFTER YOU.

Designed to tackle every twist and turn of life on the road, Corsa brings you the latest intelligent technologies to make driving safer, easier and a lot more fun.

- 1. City Mode.** Lightens the steering to make tight, low speed turns easier when you're parking.
- 2. Hill start assist.** Automatically stops the car from rolling back as you set off on a steep hill or slope.
- 3. Advanced park assist*.** Finds a parking slot as you drive past it and then steers your Corsa into the tightest space. How clever is that?
- 4. Side blind spot detection*.** A door mirror symbol tells you if another vehicle enters your car's blind spots so you can change lanes safely.
- 5. Heated windscreen, steering wheel, seats and door mirrors.** A choice of heating options to make life safer, easier and a lot cosier when it gets chilly.
- 6. Bi-xenon headlights with cornering lights**.** See corners better with lights that turn in the direction you're heading at low speeds. They also point left and right to help when you're reversing at night.

Visit www.vauxhall.co.uk/the-a-z-ofcorsa to see the benefits in action for yourself.

7. Front camera system*. Reads traffic signs before you do, warns if you drift from your lane, or approach slower vehicles too fast, and also helps to keep your distance too.

8. IntelliLink. Keep in touch and entertained with an infotainment system that has digital radio, USB, Bluetooth® with voice control and now the option of sat nav†, all easy to use with a seven-inch touchscreen. You can even give Siri voice instructions through your iPhone.

VX_COR_25656

9. On-board apps with IntelliLink. Apple CarPlay™ or Android Auto™, enables certain apps and features from your smartphone to display on the colour display.

SMOOTH THE CORNERS.

CITY MODE AND CHASSIS DESIGN.

Whichever way you turn, Corsa is pure joy to drive.

When you need precise and lighter steering for a tricky three-point turn or a tight parking space, City Mode helps you out with the ease of powered handling.

And when you're on the road, Corsa handles like a dream.

This is thanks to its agile chassis design and steering system. You'll enjoy a smoother, more solid and responsive ride – the kind of dynamic feel you'd expect of a much larger car.

// Parking and slow turns are easier with City Mode

// Enjoy outstanding ride and handling

LOOKING OUT FOR YOU.

ADVANCED PARK ASSIST AND SIDE BLIND SPOT DETECTION.*

Not only will Corsa help you find an ideal parking spot – let go of the wheel, and the car manoeuvres itself safely into the space.

And when you're in traffic, side blind spot detection senses and warns of vehicles behind you to help you change lanes safely.

- // Advanced park assist helps you find a parking space
- // Once a good space is found, it steers you into the spot**
- // In traffic, side blind spot detection monitors vehicles in the next lane
- // Flashing icons in your door mirrors warn of vehicles you can't see

VX_COR_24066

*Optional at extra cost on all models except Sting, Sting R and Design. **The driver works the pedals and gears, while advanced park assist steers the car.

THE ONLY WAY IS UP.

HILL START ASSIST.

Hill start assist will automatically stop your Corsa from rolling back as you set off on a steep hill or slope.

// Pull away on hills smoothly and steadily every time

// Steep starts are now as easy as a level surface

// Hill start assist is standard on every Corsa

To get the heads-up on hill start assist, visit www.vauxhall.co.uk/corsa

YOU'RE GETTING WARMER.

HEATING FEATURES FOR YOUR SAFETY AND COMFORT.

Beat the winter chills with heating options that you would not expect in a small car.

// Ice and condensation melt away with the heated windscreen

// Heated leather steering wheel warms up your hands and fingers*

// Stay cosy and sitting comfortably with heated front seats*

// See clearly behind you with heated door mirrors**

*Standard on Energy, SE and Elite models. Optional at extra cost on all other models except Sting and Sting R.

LOOKING OUT FOR YOU.

FRONT CAMERA SYSTEM: LEADING SAFETY TECHNOLOGY.

As part of a Driving Assistance Pack, this optional system features an advanced camera behind the windscreen that constantly scans the road and your driving pattern to raise alerts and keep you safe.

It's like an extra pair of eyes watching the road for you.

- // Front camera system gives you intelligent assistance 24/7
- // It senses when roads are fast-moving and busy
- // And warns if you're distracted by traffic or passengers
- // Also includes high beam assist for when you're driving at night*

To see how the front camera system works, visit www.vauxhall.co.uk/corsa

*Available with bi-xenon headlights and Sight and Light Pack Two as part of the optional Driving Assistance Pack One.

THE GIFT OF SECOND SIGHT.

FRONT AND REAR-VIEW SAFETY CAMERAS.

Constantly scanning the road to warn of upcoming hazards, the front camera system* is one of the most advanced optical assistance systems ever engineered in a car.

- // Traffic sign recognition warns before you break a rule
- // Forward collision alert helps prevent rear-end accidents
- // Following distance indication reminds you to keep a safe distance
- // Lane departure warning helps you stay within the lane boundaries
- // High beam assist** makes driving easier and safer at night
- // Rear-view camera† helps you to judge distances better when you reverse

VX_COR_22170

Traffic sign recognition. On busy roads it's all too easy to miss a new speed limit or important sign, but this smart optical sensor alerts you to upcoming road signs.

VX_COR_22173

Forward collision alert (FCA) and following distance indication (FDI). FCA warns if you approach slower vehicles too fast from behind (over 25mph), while FDI helps you maintain a safe distance and avoid tailgating fines.

Optional on most other models with parking sensors or advanced park assist.

Lane departure warning. Get a heads-up warning if you start drifting out of your lane above 37mph (without signalling first).

High beam assist.** Automatically switches from high to low beam as it detects oncoming vehicles (over 25mph) so your lights don't dazzle oncoming drivers.

Rear-view camera†. The rear camera system and parking sensor clearly displays a wide-angle view behind your car to help you reverse safely and accurately.

The front camera system is optional at extra cost on most models as part of a Driving Assistance Pack. The rear-view camera is optional at extra cost on most models in conjunction with parking sensors or advanced park assist.

SEE WHAT YOU'RE MISSING.
