Crossland's petrol and diesel engines meet the Real Driving Emissions Step 2 (RDE2) standards.

[#]Fuel consumption and CO₂ figures are determined according to the WLTP test cycle. CO₂ figures, BiK values and RRP pricing shown above are for a standard vehicle without any additional optional equipment. CO₂ figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BiK. The addition of optional extras could increase the certified CO₂ emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the P11D value and the amount of Benefit in Kind (BiK) tax payable. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other cars tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures. Full data relating to WLTP test cycles can be found at: www.vauxhall.co.uk/wltp

Please note: On-the-road recommended retail prices (RRP) include number plates and delivery to Retailer of £700.00 (inc. £116.67 VAT), 12 months' Vehicle Excise Duty and new vehicle first registration fee of £55.00. Excludes fuel and insurance. Company Car Benefit in Kind (BiK) rates are monthly based on the standard paint price. On-the-road prices feature a VED based on preliminary CO₂ information.

Safety

Standard Features – The following features are standard across the entire New Crossland range.

Airbags

- Driver's airbag • Front passenger's airbag
- Front seat side-impact airbags • Full-size curtain airbags

Seating

- Height-adjustable front seat head restraints
- Height-adjustable outer rear seat head restraints
- Anti-submarining ramps in front seats

Seatbelts

- Inertia-reel lap and diagonal seatbelts for all seats
- Dual seatbelt pretensioners on front seats
- Pretensioners on outer rear seatbelt retractors
- Load limiters on front and outer rear seatbelt retractors
- Smart seatbelt reminder for front and rear seats

Braking

- Anti-lock Braking System (ABS)
- Electronic brakeforce distribution – Automatically apportions the optimum braking force to each wheel
- Hydraulic brake assist • Hydraulic brake boost
- Hill start assist – Briefly maintains rear brake pressure to stop the vehicle rolling back on an incline

Hill start assist.

Child safety

- Deactivation switch for front passenger's front and side-impact airbags
- ISOFIX child seat mountings incorporating top tether anchor points located on outer rear seats (does not include child seat) – Allows ISOFIX child safety seats to be securely fixed into the car. The ISOFIX mounting system reduces forward movement in an accident and makes the child seat easier to install
- Child-proof locks on rear doors

Driver/passenger safety

- Energy-absorbing steering column
- Side-impact protection beams
- Reinforced passenger safety cell
- Deformation zones front and rear

Pedestrian safety

- Collapsible windscreen wiper system – Designed to reduce pedestrian head injuries.
- Upper and lower bumper design – Reduces upper and lower leg injuries.

ISOFIX child seat mountings.

Stability

- Electronic Stability Programme (ESP) – ESP monitors many different inputs to determine when the car starts to lose traction, it can then immediately respond by varying the brake pressure between up to three wheels and adjust the engine output to help correct the loss of traction and improve stability

Additional ESP features

- Traction control
- Corner stability control
- Engine drag torque control – Improves directional stability by preventing the driven wheels from locking on slippery surfaces under the influence of engine braking.

Tyre pressure

- Tyre pressure monitoring system

Vauxhall driver assistance systems are intended to support the driver within the system-imminent limitations. The driver remains responsible for the driving task at all times.

Lane departure warning (see next page for feature description).

Driver Assistance

Standard Features – The following features are standard across the entire New Crossland range. Specific features by model are outlined in the separate tabular information.

Cruise control with speed limiter

With steering wheel mounted controls. Enables you to maintain a constant speed, making it ideal for economical motorway driving.

Steering

- Speed sensitive power-assisted steering
- Reach and rake adjustable steering column

Wipers

- Rain-sensitive windscreen wipers
- Intermittent rear window wash/wipe

Automatic anti-dazzle rear-view mirror

- Automatically dimming anti-dazzle rear-view mirror

Speed sign recognition

Detects and then displays speed limits, reducing uncertainty and the risk of speeding.

- Recognises different speed signs, including temporary speed restrictions
- Displays reminder in the instrument cluster

Lane departure warning

If the driver has not actively steered or signalled, the lane departure warning system warns when the car moves outside of lane markings at speeds above 37mph.

- Warning light in instrument cluster
- Audible warning
- Facia on/off switch

[#]Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other cars tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures. The CO₂ figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification. *Correct at time of publication. **Provisional data.

Please note: Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 70kg. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. The permitted trailer load applies up to the specified incline and up to an altitude of 1000 metres above sea level. The permissible gross train weight decreases by 10% for every 1000 metres of additional altitude. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, **maximum noseweight** should not exceed 55kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall Retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee. During trailer towing do not exceed a maximum speed of 60mph. This speed limit is also applicable in countries with higher permitted speeds for trailer-vehicle combinations. Pay attention to the local speed limits. For trailers with low driving stability and caravans the use of an oscillation damper is strongly recommended.

Start/Stop technology

Crossland's Start/Stop system, fitted as standard to all models, offers real benefits by improving fuel economy and reducing CO₂ emissions, particularly in town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

Before automatically stopping the engine a number of system checks are carried out to ensure that it is both safe and practical to do so. To ensure safety, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal. System checks carried out before Auto Stop activates include:

- Start/Stop system is not manually deactivated via the facia button
- Sufficient brake vacuum is available to prevent the car rolling down an incline
- Battery is in good condition and charged
- Outside air temperature and engine temperature are above specified minima
- Electronic climate control (where fitted) is not in maximum heating or maximum cooling mode
- Self-cleaning function of the diesel particulate filter is not active

If all of these conditions are satisfied then the vehicle will Auto Stop.

When you are ready to pull away from standstill, Auto Restart is activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored. If necessary, the engine will automatically be restarted. Conditions that would initiate an Auto Restart include:

- Low battery level
- Brake vacuum below specified minimum
- Start/Stop system is manually deactivated
- Stationary for 5.5 minutes

Company Car Driver and Fleet Information

High spec, low P11D

As a business and company car driver, you'll find all of our models are seriously fit for fleet; we're talking very low P11D values, generous standard specification and high-tech engines designed for great fuel economy and low emissions – and that's just to get you started.

To get access to even more spec as standard, simply take a step up in the range – low P11D values will continue to apply.

Drivers and businesses all have unique requirements and by taking advantage of low whole-life costs and low company car driver taxation you can get in the driving seat with the spec to suit.

Company Car Driver Free 3 Day Test Drive

Our free* 3 Day Test Drive programme is open to all Company Car Drivers which allows you to choose any model in the current Vauxhall line-up (exclusions apply). With full insurance cover provided, it gives you a meaningful length of time to make an informed decision about your next company car.

Search Vauxhall 3DTD to book your free* test drive or click the link the below:

[Vauxhall 3 Day Test Drive](#)

*The free 3 Day Test Drive programme is open to Company Car Drivers and Fleet Decision Makers. Available for UK Mainland only. Terms and conditions apply. Full terms and conditions can be found at vauxhallfleet.co.uk/testdrive/index/terms.

Benefit in kind company car taxation**

The car benefit charge will be the car's list price (including VAT, options and accessories fitted, delivery to Retailer and number plates, but excluding Vehicle Excise Duty and new vehicle first registration fee) multiplied by the percentage charge for the CO₂ emissions band in which the car falls (see table opposite). Multiply this figure by your personal income tax rate (20%[†] for Basic Rate, 40%** for Higher Rate) to calculate your annual benefit in kind tax liability.

Example:

New Crossland SE 1.5 (110PS) Turbo D Start/Stop (CO ₂ emissions 120g/km)	
On-the-road RRP	£21,615.00
Deduct: Vehicle Excise Duty	(£180.00)
New vehicle first registration fee	(£55.00)
Effective list price	£21,380.00
Add: Optional two-coat metallic paint	£550.00
List price for tax purposes (P11D value)	£21,930.00
Car benefit charge 2021-22 tax year (28%)	£6,141.00
Benefit in kind tax liability (2021-22 tax year)	
Basic Rate (20%) tax payer	£1,228.20
Higher Rate (40%) tax payer	£2,456.40

**Please note this Price Guide provides taxation information as a guide only. Vauxhall does not provide taxation guidance. Drivers should always take professional advice on their own tax position.
[†]Excludes residents of Scotland.

BiK for Scottish Residents

Effective 6 April 2018 the Scottish Government have introduced their own BiK taxation structure. This only applies to Company Car Drivers that are Scottish taxpayers. HMRC will determine whether or not an individual is a Scottish taxpayer based on where their main place of residence is.

The BiK rates for Scotland are:

- Over £12,570–£14,667 Starter Rate 19%
- Over £14,667–£25,296 Basic Rate 20%
- Over £25,296–£43,662 Intermediate Rate 21%
- Over £43,662–£150,000 Higher Rate 41%
- Above £150,000 Top Rate 46%

Further Information

On-the-road prices

To eliminate uncertainty about hidden costs when buying a new car, Vauxhall publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide. These prices include VAT, number plates and delivery to Retailer of £700.00 (including £116.67 VAT), 12 months' Government Vehicle Excise Duty (see opposite for details) and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

Price protection

Order a new Vauxhall for build in the current model year (as confirmed by your Retailer) for delivery no more than three months in advance and the price you are quoted is the price you pay. This is irrespective of any subsequent price rises between placing your order and delivery of your new car, but you must take delivery as soon as the car is available.

In the event of an accident

Vauxhall Accident Management helps keep you mobile following an accident. Benefits include vehicle recovery, Vauxhall-approved repairs and contacting your insurer. For more details, visit vauxhall.co.uk/AccidentManagement

Free2Move Lease

Whether you're a big company or a small business looking for vehicle financing, Free2Move Lease, our business finance specialists, can deliver exactly what you need.

Free2Move Lease is one of the UK's largest leasing companies and is also a member of the British Vehicle Rental and Leasing Association (BVRLA).

With over 60,000 vehicles in the Free2Move Lease portfolio, Free2Move Lease is able to offer competitive vehicle solutions. In addition, Free2Move Lease also offer innovative connected management of servicing and maintenance.

For further information, please contact your local Vauxhall Retailer or visit vauxhall.co.uk/offers-finance/business-leasing.html

Vehicle Excise Duty

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO₂) emissions produced by the vehicle. CO₂ emissions are measured in grams per kilometre (g/km) travelled and divided into 13 charging bands shown in the table opposite.

A 'first year rate' of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the 'standard rate'. From 1 April 2017 the breakpoints for each of these bands have been revised. Also, for vehicles with a list price over £40,000, including factory-fitted options, an additional £335 is payable for the first five years of standard rate payments.

Further Information

Customer Care Commitment

For added peace of mind, Vauxhall has an innovative Customer Care Commitment that offers the following:

- Three-year vehicle warranty consisting of a one-year/unlimited mileage manufacturer's warranty and a second and third year manufacturer's warranty with a 60,000 miles limitation
- Vauxhall Assistance for 12 months from first registration
- Six years' body panel anti-perforation warranty

Please note: Warranty is only available on vehicles sourced from Vauxhall Motors Limited. Terms and conditions apply – please see your Vauxhall Retailer for details.

Vauxhall Assistance

Vauxhall Assistance is provided automatically with every new Vauxhall for 12 months from first registration and covers everything from accident assistance, roadside recovery and 'at home' service to flat tyres. Even more reason for you to stay calm and let us take care of everything should the need arise. With Vauxhall Assistance help is literally just a free* phone call away, 24 hours a day, 365 days a year!

Protecting the environment

Vauxhall's commitment to the environment is demonstrated by our products' many environmental awards. For even more information on Vauxhall's efforts to achieve an environmentally sustainable future, and how to dispose of your end-of-life vehicle, see vauxhall.co.uk/recycling
